

### Kindly Wish Comes With Gift To Milk Fund

"I Trust It Will Bring Quick Relief to Some Suffering Child," the Donor Writes.

Yesterday's donors to The Bee's milk and ice fund exceeded the \$5 limit for individual gifts, but since the largest contribution from Knoxville, Ia., was given in the name of the firm, a co-partnership of four, the gift is to be accepted with a very hearty "Thank you!"

An unknown "Friend" also sent \$10. Large or small, each addition to the fund will help the good work of furnishing free milk and ice to poor children of Omaha, throughout the hot summer, under the direction of the Visiting Nurse association.

"I trust this gift will bring quick relief to some poor, suffering child," wrote a St. Paul (Neb.) donor. "It does" the little children would echo fervently if their voices could be heard through this newspaper.

The fund stands as follows:

Previously acknowledged ..... \$694.47  
 Evelyn Ware Whelan ..... 1.00  
 A Friend ..... 10.00  
 Cash, St. Paul, Neb. .... 2.50  
 Cash, Knoxville, Ia. .... 50.00

 Total ..... \$728.47

### Hitchcock Tells Of His Plan for 'Bank of Nations'

Senator in Omaha Speech Says Institution Would Stabilize and Finance Foreign Commerce.

United States Senator Gilbert M. Hitchcock outlined his plan for a "bank of nations" before several hundred Omaha business men and bankers at a public affairs luncheon at the Chamber of Commerce yesterday noon.

Senator Hitchcock declared that a bank of this character would stabilize and finance foreign commerce and supply a system of credit to all nations in carrying on foreign commerce.

According to the plan, the bank is to be capitalized at \$2,400,000,000, of which stock \$1,300,000,000 would be retained by the United States to keep control here, while \$200,000,000 would be sold to exporters, importers or any concern interested in foreign commerce. Foreign nations interested would be allowed to buy \$900,000,000 of the stock.

One-third of the payment for stock would be in gold and two-thirds in bonds of solvent nations. The bank would have the power to issue its own currency and finance foreign commerce.
