## Says Congress Left Farmers to **Shift for Selves**

Nebraska Farm Bureau Man, Testifying at Hearing, Arouses Ire of Solons By Attack.

By E. C. SNYDER. Washington Correspondent, Omaha Bee. Washington, July 13.—(Special Telegram.)-J. O. Schroyer of Humboldt, Neb., member of many farm organizations having their headquarters on Jones street, Omaha, editor of farm publications, stock raiser, and all-around farmer, was an interesting witness before the joint congressional committee this morning, investigating farm conditions and the needs of farmers. In fact Mr. Schroyer was more than interesting, he was almost sensational at times, especially when he became in-volved in a lengthly controversy with Chairman Sidney Anderson of Min-nesota and Senators Pat Harrison of

sas over his arraignment of congress. Mr. Schroyer bitterly accused congress of doing everything possible for every other interest save agriculture, the farmer being allowed to shift for himself. Chairman Anderson, who had extended an invitation to the Humboldt man to appear as a witness, could not stand the criticism and said so in no uncertain terms which were reinforced by scathing denunciations from Harrison and

Mississippi and Robinson of Arkan-

At one stage of his testimony, Schroyer tried to interrupt Senator Robinson who was making a state-ment. This nettled the statesman from Arkansas, who cuttingly said: "Permit me to express my own thought, for I believe I can do it as

well as you can."

Mr. Schroyer's main contention
was that the farmers of the country had been denied credit at the banks; that the federal reserve board had discriminated against them and he blamed congress for not enacting legislation that would ameliorate their condition by so amending the federal reserve law as to terminate the evils complained of. Among other things he said that freight rates were too high and remarked that "the only service the emergency tariff law had performed was to erect something in the nature of a scarecrow against

manipulating speculators and in his way served a good purpose."

Mr. Schroyer said he was a free trader, but if any good for the Amerincan farmer would come out of the tariff bill now under discussion in the house he was for protecting the output of the American farmer.

**Lives of Three** Swimming in Platte Near Shelton Nearly Results Fatally For Man and Two

Sisters Shelton, Neb., July 13.—(Special.)
-Clinging to the top of some piling where the water was 10 feet deep and not knowing that they would be rescued, was the experience of a young man and his two sisters of Heartwell, who went in bathing at the Platte river four miles south of Shelton late last evening. The young man, who gave the name of Quinn, and his two sisters, together with three or four other people, had stopped at the south end of the new state aid bridge for the purpose of taking a plunge in the river.

It is the supposition that Quinn

and his two sisters ventured out too far. They stepped off into a whirlpool and were quickly carried under the arch of the bridge by the swift current. Here they caught hold of some piling that had been driven to support the weight of the machinery used in building the bridge a year ago. None of the other members of the party could swim and frantic cries for help could be heard for a considerable distance.

Floyd Whiting, who lives near the bridge, was one of the first to arrive in response to the cries for help. He attempted to swim under the bridge against the current, but was unsuccessful. He then secured a long piece of gas pipe and held it across the channel to where the young man and girls were clinging to the piling. Each one gripped the gas pipe and were safely pulled to the shore.
