Cars.

Further rains were reported in the United Kingdom and the drouth is resurded as breaking. Excellent crop reports are coming from Germany, with yields reported as above the average on wheat and rye.

Outs have been losing friends the last few days because of a lack of interest on the part of outside trading, despite the continued reports of small yields and light weights from all sections. There are a few outs coming that test 22 to 26 pounds and grade No. 2 white.
