

# Market, Financial and Industrial News of the Day

## Chicago Grain

**By CHARLES D. MICHAELS.**  
Chicago Tribune—The market for grain was unsettled and irregular. A general feeling prevailed in wheat. Toward the finish the market rallied on good buying by commission houses with seaboard connections. Exporters were after wheat here, as well as at interior points and sales from the local market aggregated 200,000 bushels. Late advices from the seaboard indicated 1,000,000 bushels worked in all positions.

Southwest markets were higher under a brisk cash demand. Closing prices were little changed from yesterday. The more deferred futures were 1/4 up and 1/2 finished 1/4 higher. Corn was weak, due to liberal selling by cash interests and favorable crop news. Prices were 1/8 to 1/4 lower and oats 1/4 to 1/2 higher. Provisions scored a moderate advance.

Final shipping sales were placed at 265,000 bushels, including the amount sold to exporters; 400,000 bushels corn, 350,000 bushels of which was for export account; 160,000 bushels oats and 10,000 bushels barley.

Spot wheat here ruled a shade easier for red winter and 5c higher for dark northern, while hard varieties held unchanged. Corn and oats were a shade easier generally.

**Bull Interests Active.**

Wheat market at the outset showed firmness, but this tone was of short duration, a fair decline being recorded later. Local bulls were buying early, as they were attracted by the attitude of exporters who are inclined to make purchases on all breaks. This buying movement was met with free selling of reports from the seaboard, and the market was again confronted later with a report from officials of the Canadian government to the effect that they expect the crop of Canada to be a bumper one. This created a pessimistic feeling in the market, and in all markets of wheat continues to act as a bear influence. Receipts in all markets were heavy, and this day, but nevertheless they were heavy. Local estimates were for 800,000 bushels. Underneath in corn was an easier one. Additional rains in the belt and a forecast of heavy rain for the next cooler weather were depressing factors. Trade was featured by good selling of customer deliveries by commission houses, which close observers were disposed to credit to a big advance in shipping. Receipts were smaller, but on the whole, the estimate was placed at 250 cars, or 50 to 60,000 bushels.

Cash wheat in the market, but their bids were out of line.

**Barley.**

Cash wheat at Kansas City was unchanged to 2c higher. Receipts were significant, as being in the section which would naturally be most depressed by the enormous receipts of wheat from the dark hard varieties at slightly higher prices, while the ordinary hard wheat is not unchanged.

Not much attention is being paid by the trade here to the Argentine situation, the Argentine now figures about \$1.10 a bushel against the United States at \$1.15. To the United States Argentine wheat is not approximately a bushel higher than our own wheat, a difference practically unknown heretofore.

Exporters were said to be bidding strong on wheat to interior points with no getting any nearer to a peak.

Minneapolis wheat stocks showed a decrease for last year, while two years ago there was a decrease of 25,000 bushels. The increase for the year was 10,000 bushels, and barley and wheat had good-sized orders for the latter half of the year.

Export brokers have had good-sized orders for the latter half of the year, owing to the security of offerings for near-shipping, there has been no great amount of business. Local houses in a difficult position of offering what is a great deal of surplus, but the market here has been larger than reported. The seaboard reported heavy receipts from Greece also will take considerable quantities of wheat, which is being bought at 60c bushels.

Strength in wheat under the heavy receipts confirms the idea that sales abroad for July shipment from the seaboard are large and that the wheat simply in transit to Europe, said Babcock of the Chamber of Commerce, is generally thought that Europe will take the entire surplus of North America and will not more, the domestic trade will soon realize that supplies are not accumulating and the competitive market is in the market, and clearances from export ports will increase and receipts from the country decrease. Values will strengthen in proportion.

## Omaha Grain

Omaha, July 26.  
Wheat arrivals today were again liberal, with 331 cars against 237 cars a week ago, and 247 cars a year ago. Corn arrivals today were 31 cars; oats, 12; rye, 5; and barley 3. Wheat prices were 1c to 3c higher. Corn was unchanged to 1/2c higher. Wheat was unchanged, yellow unchanged to a cent up and mixed a cent higher. Oats were unchanged for the bulk. Rye was nominal and barley unchanged.
