Declares Abnormal Methods Necessary for Exports, in Support of Bill for Trade Corporation.

By E. C. Snyder. Washington Correspondent, Omnha Bee Washington, July 27 .- (Special Telegram.)-Senator Norris, in a communication to a Washington newspaper in defense of his bill organizing a governmental operation to purchase farm products in the United States and sell them in foreign countries, says that the fun damental cornerstone of the prosperity of the country is agriculture and if agriculture is not prosperous, no other branch of industry and no other group of the American people can be prosperous. Continuing, Senator Norris says:

to sell. In other parts of the world there are millions of people starving for the products which we have in vast abundance.

The problem is to get this surplus

from our farms into the homes of the starving people of foreign lands. They are not able to pay cash. They must have time. They are willing to mortgage everything they have for the food which our farmers have pro-Radical Method Necessary.

"The governmental corporation which is provided for in this bill is intended to act as a middle-man be-

tween the producers in America and the consumers in foreign countries. It is no answer to say that we are proposing a plan that is abnormal. The facts are we are living in abnormal times. The natural channels of business have failed and part of the is bankrupt in the midst of an oversupply.
"It will not do to stand idly by

say that this food must not be moved until commercial agencies existing under normal conditions shall transact the business. We have waited long enough for these agencies to work to become convinced that they cannot meet the contingency. If we wait longer, we will find the hungry people in foreign lands starving, while our farmers are bankrupt. Banks Will Fail.

"It must be remembered, too, that when the farmer goes down, as he must unless some market is found for this surplus produce, he will take with him a large number of the country banks, scattered throughout the agricultural sections of our country, and when these banks fail the danger will be that other institutions will likewise fail. Under these conditions our government chinery that will be able to take her to the surface by means of a according securities offered by those who want out products and tide them over

until they are able to pay. "It must be understood that in selling our goods to foreign countries we are not dealing with a lot of thieves and tricksters. They are as anxious to get our foodstuffs even deeper crevice. as we are to dispose of them, If these stricken countries are ever to Fremont Girls Plays be put on their feet, it must be through their toil and their labor. They are as anxious to be put on cound financial basis as we are to sell them our products. They will not fail to pay us unless the civili-Into chaos and destruction.

Depend on Foreign Market. "We always have depended and cille Kemp of this city. lways will depend on a foreign martet for our surplus products. Ununderstand as well as we do that ability. unless they pay, not only we but they as well must, in the end, fail.

"Another great difficulty that makes a chasm between the producers and the consumer is the tremendously high cost of transportation. This measure provides, through rates for these products.

Thousands of empty freight cars are obstructing the railroad tracks the state's case against Masters has of the country. Would it not be bet- been divulged. Sheriff Robb of Polk ter, even for the railroads themselves, if these empty cars were in witnesses have been found who have part utilized to transport these identified Masters as a member of products at reduced rates and thus the murder crew. not only help the producer and the consumer, but the railroads themselves? We have reached a point in our transportation system where it has become apparent to all thinking men that railroads can be bankrupted by high rates as well as by rates that are too low.'

Girl Hiker Steals Ride on Flat Car and Gets Arrested

Mildred Curtis, 16-year-old seminary girl from Benton Harbor, Mich., was arrested on a flat car on the end of a Union Pacific train that arrived in Denver today and is being held here to await word from her father, H. J. Curtis, of Benton Harbor. The girl told the authorities she had started to "hike" to Colorado

from her home, but when she reached Pierce, Colo., she was tired and boarded the flat car.
