HOLDING A HUSBAND

Adelle Garrison's New Phase of "Revelations of a Wife"

The Verdict Dr. Pettit Gave.
How long does it take that pill-pusher to get from Sag Harbor to Southampton?
Dicky looked at his watch as he asked the question and abandoned the drapery he had been considering for his studio. With a hasty glance at my own watch I dropped the sheer white-ruffled dimity I was fingering as it had been something burning hot.
"He's probably there by this time," I said. "We must fly."

again until we reached the hospital.
Outside Marion's door we came upon Robert Savarin pacing up and down, his hands gripped tightly together behind him. But as soon as he saw Dicky's face he came forward and put his hand on the younger man's shoulder.
"Don't distress yourself so, old chap," he said kindly. "I do not think your action made the slightest difference with Marion's injuries. She was quite herself again after you left. The physician is with her now, making a thorough examination of her back, so we may know the truth at any minute now."
"Thank you, Savarin," Dicky's hand went out gratefully to that of the older man, and then the door opened and Miss Jones stepped into the hall.
"You may come in now," she said briskly, and we all filed into the room where Dr. Pettit was standing by Marion's bed with his stethoscope around his neck.
"What Dicky Asked."
The child had tiny drops of perspiration upon her forehead, and her face was pallid, proofs of the pain she had suffered. My eyes went swiftly to Lillian's face, for I knew I should find the truth there. She was again kneeling by Marion's side, with the child's hands in hers, but her eyes, while full of sympathy for her child's pain, had lost their look of terror.
"It's all right," she said, quickly, quietly, and I knew that she could not bear to let us wait Dr. Pettit's slower assurance. "Please tell them, doctor, what you have told me."
"There is no permanent injury, I am sure," Dr. Pettit said. "There are several bad bruises upon the muscles of her back, one especially painful, which will keep her quiet for a few days, possibly longer. She could be moved to the place where you are boarding, if her mother insists upon it, but I think it better

for her to stay here for a week."
This was evidently news to Lillian, for she lifted her head quickly and looked at the physician fixedly. "May I stay with her?" she asked.
"She needs no professional care, except when she has to be moved, and then a nurse will be always within call. But you will not need a special nurse, and I am sure you will be very comfortable here together."
"Dr. Pettit!" Dicky struck in abruptly. "Did I increase her injury when I inadvertently raised her this morning?"
"It didn't do her any good," he retorted, and I saw that his dislike for Dicky had triumphed for the instant over his professional instincts. The next moment, however, he was the dignified physician again.
"However, I cannot say conscientiously, that you did her any harm, either," he finished. Then with a stiff bow which included us all he bade us farewell and left the room.

Thrilling Duel to Death Between Girl and Big Gambler

Aileen Dulcifer, Known to All Cabaret Habitués, Challenges the Famous Stock Market Operator, John Schmaar, Believing He Is Planning to Swindle the Man She Loves. George Kibbe Turner Reveals the Facts in This Most Curious Case of a Woman's Devotion in These Hectic Days.

One of the most sensational stories of the summer is that involving a death wager between Aileen Dulcifer, known wherever the lights are brightest along Broadway and the Atlantic City Boardwalk as a type of the feminine butterfly that has developed since the war, and John Schmaar, stock market operator and one-time famous Western gambler.

The affair, it seems, had its beginning at the beautiful home of Schmaar, overlooking the Hudson River. It has been the promoter's custom to gather about him there during the summer some of the fluffiest of New York butterflies and whatever men happened to be ripe for his plucking.

Aileen Dulcifer was such a girl, living from day to day on her bridge winnings, only to be caught at last in the meshes of Schmaar's net along with a young Western mining man by the name of Gladden.

The sensational death wager between the Dulcifer girl and Schmaar, it appears, developed in the course of a conversation on the terrace of the home, in which Schmaar denied that the modern women—of the class he surrounded himself with by choice—possessed any sense of honor or a shred of real bravery.

The whole story of the affair has now been told in detail by George Kibbe Turner, the famous American author, whose knowledge of Schmaar's past and present life is most minute. Mr. Turner calls his account of the death compact "Moonlight," because it seems that the effect of moonlight on a certain sort of human being is most definite. The outcome of the wager will be awaited with lively interest by everyone who reads the entire story.

No less extraordinary, though less sensational, is the result of the quest of Major Cardon, wealthy man of fashion and ex-soldier, for a certain girl whom he met under unusual circumstances in Chicago. Pursuing her and her mother to the Yellowstone, she there denied that she had ever met the Major and fled to Del Monte, California. The quest came to an end there this month under most unusual circumstances. The story of the pursuit of "The Astonishing Suzanne" is told by Emerson Hough, the famous author, who is a friend of all the people concerned.

In neither of these stories, however, is there the same quality of clever detection that develops in the case of "The Mottled Butterfly," all the facts in which are disclosed by the greatest literary detective in the world, Melville Davison Post. Just how a French police inspector restored to a famous Marquise the pearls that had been stolen from her will capture the imagination of every reader.

In addition to the foregoing you may today read a wonderful capital-and-labor story by Burton Kline, another vivid story of childhood by Booth Tarkington, the story of a feminine crook by John A. Moroso and a remarkable baseball story by Gerald Beaumont. For they are all to be found—with six other great stories—in the August issue of The Red Book Magazine. At all news stands—NOW.
