Head of Steel **Company Voices** Spirit of Hope

Although Earnings Not Sufficient to Pay Dividends, Judge Gary Predicts Big Business Soon.

By HOLLAND.

Judge Gary's reference to President Harding in the brief address which he made at the quarterly meeting of the United States Steel corporation, contained an indirect uggestion which points to one of the reasons why he spoke in words

encouragement. It was an unusual presentation of facts, figures and opinions. master mind of the United States Steel corporation was compelled to admit that the earnings of the corporation in the second quarter of the year were not sufficient to pay the regular dividends. It was necessary to turn to the abundant surplus in order to make regular dividend payments possible. And yet Judge Gary's address breathed the spirit of hope and was in thorough accord with much which he has said since reaction from feverish prosperity be-

Estimates 50 Per Cent Low.

Estimates 50 Per Cent Law.

Perhaps one of the reasons why he felt justified in his hopeful view was the fact that the corporation examed twice as much in the second guerter as was commonly presumed to be the fact. Excellent judges of the Steel corporation's business had predicted that the net carnings for the quarter would be only \$12,000,000. It is rarely that these estimates are out of the way, but this time they were 50 percent out of the way because the earnings were \$21,000,000.

Judge Gary has frequently alluded to the fact that one of the causes of continued business depression was a morbid mental condition. Business men could not see straight. Their vision was obscured by their anxieties.

Although business continues to be somewhat duil and is characterized by hesitation, according to Judge Gary, the outlook is not discouraging and conditionaere not doubtful. Those who are best informed now realize that sentiment is growing better and better. Upon sentiment needed confidence is based and when confluence is complete then may begin the era of which Judge Gary has frequently spoken which will be one of unprecedented and yet wholly healthful prosperity.

Predicts Big Business.

Predicts Big Business. Judge flary does not qualify an opinion hich he first voiced some time ago, for a says that some time in the future, rebably not distant, there is to come

throughout the world is apparently about to be established. It is now partially catablished, Judge Gary says. This means that construction, renewed development increased industry, will soon be under way and in the benefits which will follow the United States will fully share.

Then again there is the financial situation. In this country it is good, Judge Gary calls it bright and in other countries finances are improving. Many times Judge Gary has called attention to the magnitude of our national resources not only to those which are under development, but to the larger amount which is awaiting development. These resources financies are improving. Many times ling the day when the prediction that this country is to have the biggest business it has ever enjoyed will be fulfilled.
