Chicago Grain

By CHARLES D. MICHAELS. Chicago Tribune-Omaha Bee Leased Wire. Chicago, Aug. 6.—An overdue rally came to the grain markets in the late hour of trading after an early break that carried prices for September corn and oats to new low levels.

Omaha Grain

Omaha, Aug. 6. Wheat receipts today were liberal with arrivals 271 cars against 275 cars last Saturday, and 158 cars a year ago.

Financial

By ALEXANDER DANA NOYES. Chicago Tribune-Omaha Bee Leased Wire. New York, Aug. 6.—The two most interesting movements on the financial markets today were the further recovery in sterling, which carried rates a full cent over Friday's closing and 5 cents above the low level of the close of June, and the continued strength of the cotton market, in which the spot price closed at 13 1/2 cents per pound, as against the year's low figure of 10 7/8 cents, reached seven weeks ago.

Nebraska Men To Seek a Cut In Grain Rates

Representatives of Grain Exchange and Farm Federation to Appear Before I. C. C. on August 15. Nebraska will be well represented before the Interstate Commerce commission at Washington, August 15, when a hearing will be held in connection with a demand for the reduction of rates on grain, grain products and hay from all of the surplus grain producing states.

and compare notes with commissioners from other states. Mr. Browne later will be joined in Washington by U. G. Powell, rate expert, and Attorney Shewell and Kuhn. John W. Sherrill of the Farmers' Co-operative Grain and Live Stock association, will be in attendance at the Washington hearing.

The High Cost of Living vs. The Low Cost of Investing. While living costs are high, investment costs are at rock bottom. High grade listed stocks and bonds are on the bargain counter.

Table of Receipts and Disposition of Live Stock for various days of the week.

Considering the depressing factors the heavy outside support and the high unloading by leading longs, the markets gave a good account of themselves during the week. Wheat showed losses of only 3/4c, corn 3/4c, barley 1/2c, oats 1/4c, and unchanged for January, and short ribs 55c@42c, compared with a week ago.

The declining in what prices continued to bring in good buying by exporters, but failed to help the markets speculatively. There were sales of 1,000,000 bushels for export, which prices generally were weaker and lower, although premiums here were firmer on hard winter wheat.

Compared with the closing prices of a week ago, the market showed very irregular changes. Declines and advances fairly balance one another and the movement as a whole shows no great reserve from the attempted resumption of the "campaign of rumors." There has, however, been evidence enough that the forward market will depend on the character of the news. The bond market movement for the week, as a whole, was distinctly upward.

Deposits reported in the weekly statement of the associated banks decreased \$9,700,000, but government deposits increased \$12,000,000. The loans have increased \$45,322,000 and the excess of loans and investments over all deposits is \$12,000,000.

Aside from the export business and the wheat figures, there was little in the market worth. The winter wheat movement is falling rapidly, the low estimate of 4,837,000 bushels, while primary receipts were 1,250,000 bushels, a 100 per cent increase over last year and 4,241,000 bushels less than the previous week.
