

Ocean Bathers Find Gun Sought In Kennedy Case

Burch Shaken After Witness Identifies Him as Motorist In Roadster Police Say He Used.

Los Angeles, Aug. 13.—Bathers on the beach at Santa Monica today found and turned over to the authorities a complete 12-gauge shotgun lying in the shoal waters along the shore.

The sheriff of Los Angeles county and the district attorney have recently caused search to be made along the Santa Monica beach for such a weapon, believing that the circumstances around the shooting of J. B. Kennedy here a week ago indicated that his slayer had afterwards disposed of the weapon by throwing it into the ocean, which is about 10 miles from the scene of the shooting in Beverly Glen.

Sheriff Cautious. The stock of another shotgun was turned over to the sheriff here early yesterday by a camper, who said he had found it also in the shallow waters along the beach. The first find lacked the barrels.

The sheriff had sent men to Santa Monica at noon today to examine the latest find. Their report was not expected for some hours, as the offering of rather large rewards for the recovery of the weapon, which rewards were offered by private interests, caused the sheriff to move cautiously in accepting any new finds as evidence.

Identified by Motorist. Arthur C. Burch of Evanston, Ill., former college friend of the dead man, held in jail since the day after the killing, was said to have been identified yesterday by a motorist, who says he encountered Burch in the roadster which the police say had been in the Glen on the night of the shooting.

The meeting occurred, he said, near Santa Monica canyon mouth, where officers recently declared that they believed the slayer of Kennedy had gone in a machine, throwing the gun used into the ocean.

The witness said that his lights flashed into the car driven suspiciously by Burch and that the man inside the car was wearing dark goggles, although it was then late at night.

In the jail late yesterday the witness requested that Burch on his dark glasses, which up to this time it is said, he had always donned when witnesses had been brought against him. Burch refused and he was led into a private room with the new witness. What occurred within was not revealed but Burch came out noticeably shaken.

Mrs. Madeline Obenchain, companion of Kennedy the night of the slaying, who was reported early yesterday as knowing something which she cared to tell, would permit her immediate freedom, denied late last night that she had made such a statement.

"Bill" Haywood Inmate of Soviet Prison in Moscow

America Looks Good to Head Of I. W. W., Says Former Connecticut Man, Escaped From Reds.

Riga, Aug. 13.—"Bill" Haywood, head of the Industrial Worker of the World, is being detained in Russia, according to information received by an American prisoner in Moscow a fortnight ago.

According to the information received by an American prisoner in Moscow a fortnight ago, American penitentiaries possess far more attractions for Haywood than Moscow in its soviet glad rags.

The same prisoner, formerly Litvinoff's secretary at Reval, now is enjoying an indefinite vacation in the soviet Cheka prison at Moscow.

A hitherto unheralded American prisoner in Russia has escaped and reached Red Cross headquarters here yesterday. He said he had walked 300 miles in four nights and days.

His name is Adams Karat of Hartford, Conn., a machinist, born in Vilna, but a naturalized American for 24 years.

Karat left New York March 16 and arrived in Moscow, April 14, 1921, via Reval, where he left his passport with the American consul.

He says he intended to go to Petrograd to aid an aged uncle. He was arrested after three days in the immigrants' home at Moscow, where, he says, there are 300 Americans. This is regarded here as untrue, unless it includes the radical deportees from America.

Karat saw Joseph Sabitzky, with his wife and two children, who are from Harrison, N. J. Sabitzky was owner of a factory in Moscow, but there are no workmen in the factory.

While Karat was in prison his baggage, containing \$800, shirts, and suits of clothes, was commandeered. He was accused of being a spy. He says when he refused to confess he was beaten by red guards. He was kept in prison for 30 days on rations of half a pound of bread and water.

Then Karat worked in a factory where he slept on the floor without a bed.

Karat says he saw Haywood who was denouncing the "bolshies," but who was nervous and wanted to get out.

A committee consisting of five live stock men was named to organize the commission house. They are: John G. Brown, Indiana; E. H. Cunningham, Iowa; C. E. Collins, Colorado; J. E. Booth-Scott, Texas, and H. W. Mumford, Illinois.

The company will charge the regular commission for selling live stock, but the earnings will be prorated to producers on the basis of business done. A stocker and feeder company for fattening range cattle will also be established.

Man in Sedan Offers Her \$10 For Curl; Clips Entire Braid and Drives Away.

It cost Anita Crabb, 12, her long braid of curly blonde hair Friday to learn not to trust a stranger.

Anita was walking near Sprague street in Creighton boulevard in the afternoon, when a middle aged man, smoothly shaven, dark haired and

well groomed, stopped his sedan car and called to her. "I'll give you \$10 for one of your curls," she says he offered, displaying a pair of shears. "At first I refused," Anita told detectives yesterday. "But when he insisted he would give me \$10 for just one curl I consented. "He took hold of my braid and clipped it, but I didn't know he took nearly all of it until I got home. "When the man failed to appear police were notified. "Detectives say a man of the same description has been accosting girls in other parts of the city.

New Tax Levy Is Held Up by Old Debts of County

Clerk Dewey Recommends 3.70 Mills; Optimistic at Prospect of Clearing Off \$318,000 Bonds.

County Clerk Frank Dewey yesterday sent to the board of county commissioners a recommendation for a levy of 3.70 mills for Douglas county this year.

"Douglas county is to be congratulated upon its present financial condition," says Mr. Dewey. He bases his optimism upon the fact that the levy for 1920 was 3.482 mills and that the levy for 1921 would be only 2.80 mills if it were not for an additional 90 mills necessary to retire \$318,000 of old county bonds which became due and payable this year.

Pay Off Old Debts. In other words, nearly one-fourth of this year's taxes will go to pay off county debts contracted in years long gone.

The total levy for bond retirement and interest this year is 1.13 mills, which will produce \$397,975.44 to pay off these bonds; old refunding bonds due July 2, 1922, \$268,000, and court house bonds of \$50,000, due October 1, 1921, plus interest due.

Should Be Appreciated. "Retiring a total of \$318,000 bonds in one year and keeping the levy down to 3.70 mills on the dollar valuation as a total county levy makes a very creditable showing and should be appreciated by the taxpayer," says Mr. Dewey.

The total levy as recommended by the county clerk in the actual county valuation of \$352,190,659 is as follows:

Table with 3 columns: Funds, Mill Levy, Amount Produced. Rows include General fund, Road fund, Bridge fund, Soldiers' relief, and Total.
