Tractors Used to Pull Down  
Trees; Workers Served With  
Lunch by Prettiest Mile  
Club Women.

Two tractors furnished free of charge by local distributors of the Holt tractor and 35 former service men were busy all day yesterday clearing the new field at Twentieth and Reed streets for the international air meet which is to be held there in November.

The huge tractors, operated by H. R. Swanson and R. L. Gilmore, pulled big trees down as easily as a boy pulls weeds.

Women of the Prettiest Mile club served dinner to the workmen in the club house. There was some confusion regarding the dinner. The women went to the field with coffee and sandwiches, but found no workmen. There they learned that the men had gone to the club house. The sandwiches and coffee were returned and the men served at the club. The following women were "K. P.s" for the former soldiers: Mrs. W. H. Flynn, Mrs. A. L. Schantz, Mrs. Fred Hawkins, Mrs. C. C. Haynes, Mrs. Howard Hawk, Miss Lucile Carpenter, St. Joseph, Mo., and Mrs. Stuart Johnston.

A large drainage ditch through the center of the field is also to be filled. The work of preparing the field will continue today.

Pauline Frederick has what is probably the greatest collection of fans in existence at her home, Beverly Hills, near Los Angeles. They have come from all corners of the world and range from flimsy trifles of lace worth hundreds of dollars, to equally valuable and costly samples of the carved ivory fans of the Orient.

Some have jeweled sticks, others are of mother of pearl and precious woods. They range in size from tiny fans seemingly only toys to huge fans of ostrich feathers, with long handles, that were made to be swung by black slaves over the couch of an African prince.

Jean Paige, who distinguished herself as the star of "Black Beauty," has returned to New York to commence selecting costumes for her featured role in "The Prodigal Judge."

Catherine Calvert, who headed the all-star cast in the notable production, "The Heart of Maryland," has been engaged by Charles Frohman, Inc., to play a prominent part with Otis Skinner in "Blood and Sand," a stage play founded on the novel by Blasco Ibanez. In "Blood and Sand," she is to impersonate Dona Sol, described by Ibanez as "the most glittering creature in Madrid."

## AT THE THEATERS

THERE are two special features for the children at the Empress this last half. One is the new comedy by Gardner, featuring some registered pedigreed bulldogs and fighting terriers and the other the sensational novelty offered by Deveau Dell and Joe. La Fine and Emery are comedians, singers and dancers of ability. A most talented vaudeville artist is Charles Seabury, the comic cartoonist, whose offering is a decidedly distinct novelty.

A steady and lively demand for seats at the Orpheum box office Thursday, for the opening next Sunday, evidenced how welcome will be the resumption of activities over at the cozy and popular home of big-time vaudeville. Cy Wilkes, the genial treasurer, was back on the job with his pleasing smile and was the recipient of felicitous greetings from hundreds of the old guard who called around to see they were properly registered on the books for season reservations. A bill specially calculated to make the opening a fitting occasion is proclaimed. Blossom Society, with new songs, will be the stellar attraction in a novel skit called "Miss Syncope." With Miss Sealey will be Benito Field, comical exponent of con songs, Sam Miller and Harry Stover, Billy Arlington, the established favorite in the category of comedian stars and his company in "Mistakes Will Happen," and the dispenser of blues, Joe Brown, in a monologue entitled "A Timely Sermon," will constitute two featured attractions.

## WHY YOU NEED IRON---

To make you strong and "bravely" and put the power into your blood to overcome disease germs.

PRACTICAL ADVICE ON HOW TO DEVELOP GREAT ENERGY AND ENDURANCE

The food you eat contains carbon. When your food is digested it is absorbed from the intestines into the blood. When the carbon in your food comes in contact with the oxygen carried by the iron in your blood, the carbon and oxygen unite and by so doing they give off tremendous energy, thereby giving you great force, strength and endurance. Without iron your blood is thin and without oxygen there is nothing to unite with the carbon in your food, so that what you eat does you no good—you do not get any strength from it—it is like putting coal into a stove without a fire. You cannot get any heat unless the coal unites with the fire.

The strongest weapon with which to prevent and overcome colds, pneumonia, kidney trouble, rheumatism, nervous prostration, in fact almost any disease or disease germs is plenty of good rich, pure blood, strength, energy and endurance and the greatest carrier in the body is organic iron, not metallic iron which people usually take, but organic iron like the iron contained in what is known as organic Nuxated iron, which may be had from almost any druggist.

If you have been taking metallic iron without benefit such is no proof that organic Nuxated iron will not help you. Nuxated iron often increases the strength, energy and endurance of weak, nervous, run down folks in two weeks time. It is such an extremely valuable product that even the Pope at Rome wrote especially of its merits in a communication to the Pharmacologic Normen. It has been used and recommended by former United States Senators, Members of Congress, Judges of U. S. Courts, many physicians and prominent men.

Over 4,000,000 people are now using it satisfactorily. Satisfactory results are guaranteed or the manufacturers will refund your money. Sold by all druggists in tablet form only.
