Chicago, Aug. 19.—The United States railroad labor board today approved in effect, the seven shopcraft rules relating to overtime payment, as provided in the national agreement of the wartime railroad administration, but directed that the roads need not pay overtime for absolutely necessary work performed on Sundays and holidays. Los Angeles, Aug. 19.-Spontancous developments in the investigation of the mysterious slaying, August 5, of J. Belton Kennedy, broker, were absent here today, so far as in-

Britain to Stand Firm On Terms

Lloyd George Tells Parlia ment Outline Cannot Be Altered Nor Basis for Peace In Ireland Changed.

Issues Clearly Defined

By The Associated Press. London, Aug. 19 .- The British government, declared Premier Lloyd George today, in making its settlement proposals to Ireland had decided on putting the whole of its terms into the letter to Eamon De Valera without keeping anything back and the sequel had proved, he said, that it was right in adopting

that course.

He had heard no suggestions from any part of the world except Ireland, he remarked, that the proposals had not gone to the limit of possible con-

cession.
"I want to make it clear," continued the prime minister, "that the government did not put forth haggling terms, but put forward everything they could possibly concede to purchase peace and the good will of the Irish people. In Ireland itself, so far as I can sec, the doubt is not so much as to the terms, but as to whether the government really

Must Work Out Terms.

"That is a question of working out the terms-of elucidation and elaboration and not a changing of the terms. The outline cannot be altered nor the basis changed.
"In view of the fact that the house

"The first is the possibility of an agreement, in which case the deails will have to be threshed out, which will take time. There is alwhich will take time. There is always apt to be an atmosphere of
suspicion surrounding relations between two countries—a suggestion
of bad faith if there is a misunderstanding on the slightest particular.
