### **Bank Call Shows** \$10,000,000 Gain In Deposits Here

Loans and Discounts Increase By \$1,000,000 Over June 30 Reports; Bankers Pleased With Situation.

Omaha banks for the September 6 call show a decided increase in almost every instance in their deposits since the last national call issued June 30. While the total increase in deposits in all banks is less than \$10,000,000, the rise in deposits is taken as a harbinger of better times, as the call of June 30 showed a substantial increase over the previous call, showing a steady gain in de-

Loans and discounts increased more than \$1,000,000 over the June 30 call, while the previous call in April showed a decided decrease. The rise in loans shows a tendency to "looser" money, although bankers still cling to their program of conrervatism until they are entirely out of the "tight money" woods. Local bankers expressed their sat-

isfaction with the financial situation as shown in the last nitional call. Following are the figures for the last two calls:
