WHY DO YOU **CODDLE CORNS?**

A Simple Touch Can End Them and At Once Why pare a corn and keep it? Why pad it and let it remain?

Or why treat it in old ways, harsh, crude and uncertain? Millions have found a new way. It is Blue-jay—the plaster or the liquid. A touch applies it, and the pain stops instantly. Then the whole corn quickly loosens and comes out. The way is gentle, scientific, sure.

A famous expert evolved it. A world-famed surgical dressing house produces it.

Well, friend from out-of-town, how are you? Come to partake of Ak-Sar-Ben joy, eh? Well, have a good time.

while you are here.
And it's a plant well worth visiting too. Once here you will readily see WHY Dreshers do such an immense Cleaning and Dyeing business. You'll see WHY shipments arrive here from not only your town but from every western state. You'll see one of America's largest, and

surely America's finest cleaning plant, in action.
Incidentally if you have any Fall and Winter cleaning work to have done see Dreshers about it while you are here. Dreshers can show you how new styled clothes may be "reborn" from old garments, and, without the aid of a pencil you will readily note that it's far cheaper to have Dreshers fix up old clothes than for you to buy new ones.

Remember that well meant glad hand—and if you get a chance drop in and see Dresher the Tailor, at 1515 Farnam street, too. Dreshers phone number is Atlantic 0345.
