

Wattles To Be Questioned In Street Railway Rate Case
Members of the Nebraska State Railway commission announced unofficially yesterday that they expect-

ed to call G. W. Wattles as a witness in connection with the hearing of a rate application of the Omaha and Council Bluffs Street Railway company.
Mr. Wattles, now chairman of the

board of directors of the traction company, was president of the company for years. The state commissioners wish to have the benefit of his knowledge of the financial history of the company.

One-Minute Store Talk

"Ak-Sar-Ben and The Nebraska make a double-headed attraction in Omaha that offers the visitor to the city examples of the progressiveness of this community," commented a visitor to our store. Everybody accepts great progress as a matter of course these days—but here's store service entirely without precedent in cities of many times Omaha's size.

AK-SAR-BEN VISITORS, OUR STORE AND STORE SERVICE IS AT YOUR COMMAND.
