

Last Conference On Ireland Will Be Held Oct. 11

Note Sent by Lloyd George to De Valera Considered Final in Exchange of Messages.

By The Associated Press. London, Sept. 29.—Leaders of the Irish Sinn Fein have been invited to take part in a conference in this city on October 11, in the note dispatched to Eamonn De Valera by Prime Minister Lloyd George. This communication was dispatched early today and was considered to be the British government's final word in the exchange of messages between London and Dublin.

Mr. Lloyd George informed Mr. De Valera, however, that the British government could not alter its fundamental position which was vital to the empire's existence. This position was that Ireland could not be allowed to separate from the British empire, but must base its propositions upon self government as a member of the sisterhood of British dominions.

By The Associated Press. Peking, Sept. 29.—China's delegation to the conference on limitation of armaments and far eastern questions, left this city for Shanghai today on its way to Washington, intending to make the voyage across the Pacific on the Steamer Hawkeye State.

Dr. W. W. Yen, foreign minister, who has been expected to be chief of the delegation, did not leave today but it was said he would follow provided China's Shantung policy was determined soon enough for him to reach the American capital for the opening of the conference. If Dr. Yen should find it impossible to go to Washington it is probable that Dr. Wang Chu-Hui, a jurist of international repute, will be chief of the Chinese representatives.

The remainder of the party consisted of 22 technical experts, 19 secretaries, assigned to various departments; 19 attaches, 17 translators, and several foreign advisers.

Ukuleles Banished From Chicago Park; Declared Vicious

Chicago, Sept. 29.—Ukuleles have been banished from all playgrounds controlled by the Lincoln park board, it was announced.

Admirable, you say? No doubt you're right, but there is a mystery in the banishment. None of the excellent reasons that occur to you actuated the park board. Ukuleles are under the ban, not because they are instrumental hits, but because they are vicious.

William H. Weesby, superintendent of the park, confirmed the announcement. When pressed for reasons for the banishment, he stammered, but finally explained as follows:

"Ukuleles have vicious functions. They are among the reasons why—er—people leave home and that sort of thing."

The Young Women's Christian association, in its announcement of its fall term, is offering courses in ukulele playing.

Shantung Award Banned by Japan For Discussion

Will Not Permit "Scrapping" Of "21 Demands" Agreement With China, Declares Statesman.

Tokio, Sept. 29.—(By The Associated Press.)—As a part of her fundamental policy at the Washington conference Japan will not permit the "scrapping" of the "21 demands" agreement with China and will not tolerate interference in the Shantung question, it was declared by The Associated Press yesterday by a Japanese in an authoritative position. He asserted Japan considered these matters as accomplished facts which concerned China and Japan directly in the general discussion of Far Eastern matters, however, Japan was said to be willing frankly to explain her position regarding these questions.

The government is preparing to issue special instructions to the Japanese delegates concerning the limitation of armaments, says the Nichi Nichi, Sun. It is indicated that the project for the building of eight battleships and eight battle cruisers originated in the idea that this program was necessary for the national defense, but that Japan has come to recognize the project has lost its original significance. She is therefore prepared in agreement with the powers, to carry out such curtailment, it is said as would make her navy strong enough to maintain the peace of the Far East. The choice of Prince Tokugawa as head of the Japanese delegation meets with national favor and gives the Keisei-Kai, or opposition party no ground for attack upon the government.

Chicago Tribune—Omaha, the Leased Wire, White Plains, N. Y., Sept. 29.—Lewis Gouverneur Morris, senior partner of the Wall street brokerage firm of Morris & Pope, which failed for more than \$1,000,000, testified before County Judge Young that he was virtually penniless, that he had disposed of some of his golf sticks to meet expenses and that his wife had paid his dues of \$600 in half a dozen clubs so that he would not be dropped from membership.

Morris was seeking discharge from the "jail limits" of Westchester after three months' restriction under the judgment of "poor debtors law." Counsel for Charles Morgan, one of the principal creditors, opposed Morris' release. Both sides were directed to submit briefs by Monday.

Voting Most Important Duty of Each Citizen Says President Taft

Washington, Sept. 29.—There is no more important duty for the citizen than this of voting on the one day in the year when his vote means something. President Harding wrote, in reply to a letter from C. S. Stoler of the Alexandria (Va.) Republican club, in which the president was asked for an expression of "the duties of a citizen." "Quite regardless of effect on the fortunes of particular political parties," the president wrote, "I am impressed there is need particularly for an appeal to the citizen's duty at the ballot box on election day. If the result of a majority of any other state should prove disastrous to the party of which you or I chance to be a member, we should at least know that we had heard the voice of the people and would be more ready to acquiesce in their decision. There is no more important duty for the citizen than this of voting on the one day in the year when his vote means something."

The Teacher Best Remembered

It is easy to remember the two contrasts in temperament of the two teachers. One was a sweet faced, good natured woman with her whole mind on her task of directing young America. The other was—Oh! So Irritable!

The former everybody loved for her patience. All in the world that caused this great difference in temperament was the condition of their feet. Suffering feet destroys all patience.
