Opinion Railways Will Voluntarily Reduce Charges In Near Future.

May Ask Wage Cut Later

By The Associated Press.
Washington, Oct. 9.—Developments which were declared to presage early reduction in railroad freight rates and a clearing of the railroad situation generally, came here from several quarters.

A group of prominent ralroad executives conferred with President Harding and Senator Cummins, republican, Iowa, chairman of the senate interstate commerce committee, and discussed steps toward Man Who Shot Joe Moran treight rate reductions, preliminary to the executives' meeting at Chicago,

Rate reductions also was the principal topic on the program at a meeting last night of democratic and republican senators, comprising the unofficial agricultural "bloc." Senators attending the meeting said there was a wide and vigorous demand for rate cuts, as imperative to the agricultural interests.

Cummins Optimistic.

Senator Cummins, after his conference with the railway executives, said he believed they would adopt at their Chicago meeting, his suggestions for an immediate reduction of freight rates. No definite assurances to this effect were given him at today's conference, he explained, but he expressed the opinion that the reductions would be made by the carriers voluntarily.

or appeal to congress for legislation to meet the situation caused by the voluntary rate reductions.

The railway executives in the con-ference included T. Dewitt Cuyler, supporting a railway securities holdorganization; Samuel Rea of the Pennsylvania system; President Smith of the New York Central, President Holden of the Burlington system, and Julius Kruttschnitt, chairman of the Southern Pacific.

Want Wage Reduction.

"The railway executives," said Senator Cummins, after the confercncd, "feel that the only substantial way to reduce rates is to reduce wages. They also feel that the wage-fixing functions of the railroad labor board should be transferred to the interstate commerce commission, which has the rate-making, or return

Senator Cummins said he did not gather that the railway executives favored of aplete abolishment of the labor board, but believed that the same federal authority which estab-lishes railroad rates or returns should have power to establish wages. This would require amendment by congress-of the transportation act, and may be brought up later, after the Chicago conference.

Fragrant of Flywheel Hurled Through House Mile and Quarter Away

Chicago Tribune-Omaha Bee Leased Wire. Petersburg, Ind., Oct. 9.—The generator blew up at the Ingle mine No. 7 at Ayrshire last night and pieces of a fly wheel that weighed four tons were scattered over a radius of two miles. One, piece weighing 1,000 pounds was hurled a distance of a mile and a quarter and struck the two-story residence of Elmer Woods. The huge piece of iron went through the roof, both floors and buried itself in the basement. In passing through the house, it penetrated a bed, the mattress, steel springs and a feather bed. The Woods family was eating supper-when the crash came. Several thousand dollars' worth of damage was done at the mine, but none of the workers were seriously injured.
