BLACKHEADS SURE

There is one simple, safe and sure way that never fails to get rid of blackheads and that is to dissolve them.

To do this get two ounces of calonite powder from any drug store—sprinkle a little on a hot, wet sponge—rub over the blackheads briskly—wash the parts and you will be surprised how the blackheads have disappeared. Big blackheads, little blackheads, no matter where they are, simply dissolve and disappear, leaving the parts without any mark whatever. Blackheads are simply a mixture of dust and dirt and secretions from the body that form in the pores of the skin, Pinching and squeezing only cause irritation, make large pores and do not get the blackheads out after they become hard. The calonite powder and the water simply dissolve the blackheads so they wash right out, leaving the pores free and clean and in their natural condition. Anyone troubled with these unsightly blemishes should certainly try this simple method.

Magical Effect of New Face Peeler

To maintain a clear, soft, youthful complexion, there's nothing so simple to use and yet so effective as ordinary mercolized wax, which you can get at any drug store. Just apply the wax at night as you would cold cream; in the morning wash it off with warm water. If you've never tried it you can't imagine the magical effect of this harmless home treatment. Mercolized wax causes the worn-out scarf skin to come off in minute particles, a little at a time, and soon you have entirely shed the offensive cuticle. The fresh young underskin now in evidence is so healthy and girlish looking, so free from any appearance of artificiality, you wonder why you had not heard of this marvelous complexion renewing secret long ago.

To get rid of your wrinkles, here's a formula that is wonderfully effective: One cunce powdered saxolite, diasolved in one-half pint witch hase!. Bathe the face in this and you will be simply astonished at the results, even after the first trial.
