

### Composer Hears Gypsy Sing Song

Evangelist Gives Composition Of Tekamah Woman at Noonday Service.

Mrs. Alameda Hall Tarrant, Tekamah, Neb., author of "Will Your Heart Ring True," a favorite song which has been sung as a solo many times by Gipsy Smith, was at the services at the Brandeis theater yesterday noon and for the first time heard the song given by the evangelist.

O. E. Excell, composer of sacred songs, set the song to music several years ago. Gipsy Smith has made it famous.

In his sermon to the business men and women, the evangelist urged them to take advantage of the present opportunities and the closeness of Christ to accept Him. "No man or woman dies without having had a chance at eternal life," he said.

Rev. M. R. Laird, of Westminster Presbyterian church delivered the first sermon.

### Shot Fired Into Hospital Narrowly Misses Nurse

A bullet crashed through a window of St. Joseph hospital Tuesday afternoon, narrowly missing Miss May Sheridan, a nurse, and burying itself in the floor, police were notified yesterday.

It is believed that it was fired from an airplane because of the course it took from the window to the floor.

## Two-Minute Sermons

Written Especially for The Bee by Gipsy Smith

We've only one life in this world and if we play the fool with it we have to answer somewhere and to somebody. If a man wastes his physical energies and destroys his health by his own sin, then all the doctors will tell him that he must stand before the judgment bar of health. Nature and the physical laws, whether we like them or not, always present their bill for payment. Too often youth does not realize the value of life and the wisdom of living it as it should be. Their need is not to prepare for death, but for showing a life approved by God.

Oliver Lodge, the greatest living scientist, and he will say that although an agnostic in his younger days, by sheer scientific research he was driven at the end to belief in Jesus Christ as the one real power and Savior of the world.

William Ewart Gladstone told the world that after all his experience as a statesman, all his thinking and reading, that he had come to the conclusion that all men had to receive Jesus Christ as a little child. These are only samples of the greatest minds in history. If these colossal brains could accept the teachings of Jesus Christ and believe Him the Savior of all men, surely where these could afford to tread, we may follow and find pardon for sin and strength for right.

### Grain Exchange Urges Cut In Rail Rates Immediately

A resolution was adopted yesterday by the board of directors of the Omaha Grain exchange, urging railroads to make effective immediately the lower grain rates ordered recently by the Interstate Commerce commission for "not later than November 20."

Farmers and others will hold back shipments until the lower rates go into effect, the resolution points out, thus causing slack railroad business now and a probable congestion and glutted markets when the new rates become effective.

Immediate promulgation of the new rates would stimulate business, increase tonnage, bring the farmers quicker returns for their products and lower prices to the consumer, says the resolution.

### Delusion—

Sometimes when sitting in a train in the station, we are surprised to find on looking out of the window, that we are moving ahead of schedule.

For a minute we are deceived and then find it is a neighboring train moving instead of our own.

How many who are only being carried along by the group of which they are a part, are forever deceived by this optical delusion of progress.

Each one of us would do well to look into our own lives, to be sure that we, and not only our neighbors, are forging ahead.
