

May Tells Why She Didn't Meet Charlie Chaplin

"Not That Sort of Girl," Miss Collins Explains Absence at Station—Happy Over Return.

Los Angeles, Nov. 12.—The mystery of why May Collins did not go to the station with all the others to greet Charlie Chaplin on his return from Europe is a mystery no longer. She solved it herself in eight words: "I am not that sort of a girl!"

Over tea in the Alexandria room at a secluded little table where no one could hear, Miss Collins chatted confidentially about her affairs and discussed love, ambition and careers with a quiet mixture of 7-year-old ingenuousness and the sophistication of 70.

Praises Her Picture.

"He said it was the very nicest one he could find in Europe. Wasn't that nice of him? And he went to see a private view of my picture 'All's Fair in Love' while he was in New York, and almost the first thing he told me was how much he liked me in the role. I think I don't think anything in the world could make me quite so happy as praise like that, for I think Mr. Chaplin knows more about what good acting should be than—well anybody else; and then, best of all, he never says anything he doesn't mean; he never flatters anyone."

International Cork Co. Opens Offices in Omaha

The International Cork company of Brooklyn, with branches in eight other cities, has opened an Omaha branch which will serve more than 1,000 factories, jobbers and wholesale houses in this territory. J. L. Williams is branch manager.

I. Shuler to Attend Meeting of National Realty Board

I. Shuler, member of the executive committee of National Association of Real Estate Boards, and C. G. Glover, president of the Omaha Board, will go to Des Moines Monday to attend the quarterly meeting of the committee.

Former Home of H. Wyman Is Purchased for \$82,500

The old Henry Wyman home at 125 North Thirty-second avenue, occupied for the last few years by W. R. Kennedy, has been sold by Mr. Kennedy to Mrs. Catherine Brady for \$82,500. The sale was made by Glover & Spain.

Two Produce Brokers Lease Wholesale District Stores

Two more commercial leases in the wholesale district were announced last week by Harry M. Christie. One is a storeroom at 1107-9 Howard street, owned by the Union Outfitting company to Martin J. Vinter, produce dealer.

\$18,000 Paid for 75 Feet on Twenty-Fifth Near Farnam

George F. Jones last week purchased from Mrs. C. Vincent, 75 feet of ground on Twenty-fifth avenue, between Farnam and Dodge, for \$18,000. There are two eight-room houses on the property. Mr. Jones bought it as an investment.

Shafter Plant Bought For Local Firm, Belief

Although Harry A. Tukey, who last week bought the Shafter building at Seventeenth and Webster for \$78,000 at a forced sale, refuses to say whether he was bidding on his own account, it is generally understood that he bought the building for a local plant. Some out-of-town concerns were also figuring on this property.

\$99,000 Paid for Six Modern Homes

Six houses have been sold in the last month in Edgewood addition, just east of Elmwood park, for \$99,000, according to Benson & Carmichael, realtors in charge of the addition.

New Resident of Omaha Buys In Edgewood Addition.

Four of these houses were purchased by one man, D. J. Howard, a Canadian, who has come to Omaha to live.

Realty Sales of Last Week Fall

The following sales of real estate for \$4,000 or more were officially recorded last week in the office of Registrar of Deeds, J. P. Jones:

One-Fourth of Farmers Work Co-Operatively

Joint Marketing of Crops Brings in Revenue of \$4,755,140—Purchases Total \$9,660,107.

Lincoln, Neb., Nov. 12.—The number of farms reporting co-operative marketing of farm products through farmers' organizations in 1919 was 32,543, or 26.2 per cent of all farms in the state, according to a report of the U. S. Department of Agriculture.

The number of farms reporting co-operative purchasing of supplies through these organizations was 27,335, or 22 per cent of all farms, while the amount of purchases totaled \$9,660,107, the bulletin shows. The latter figure averages \$353 in purchases per farm.

Nearly 8 per cent of all farms in the country reported co-operative marketing in that year. Minnesota leads with 43 per cent of all farms in the state, the bulletin states. "Sales through these organizations in the United States amounted to \$721,983,639, or an average of \$1,412 for each farm reporting. The most important products marketed in this manner were grain, milk and cream, fruits and truck crops."

More than 20,000 farms in six states purchasing farm supplies through co-operative purchasing organizations are reported. Iowa led in this ranking with 32,530 farms, Nebraska fourth with 27,335, Kansas was second, Missouri third, Wisconsin fifth and Ohio sixth.

Agricultural News About Nebraska and Iowa Farmers

Plain Speaking on Life on the Farm

By a NEBRASKA WOMAN.

This last winter, while in Lincoln, I had an interesting talk with a student at the State College of Agriculture. He is working his way through college because his father declined to lend him (the matter of giving money to a child, a mere faded imitation of what she used to be as a young woman, and was working far beyond what strength she had. His father owns a section of wheat land in western Nebraska, and is rated as one of the financially successful members of his community. But father had hitched up a big team and said that the stubble in the south field should be turned under, so there was the little chap, not more than 6 years old, plowing, sturdily walking along with hands on the plow handles. His mother sighed and shook her head.

Discouraging the New Generation. Was it Schopenhauer or some other cynic who said: "Paternity is a cheap office, accomplished without cost, pain or risk. The only thing of which a man should boast is a divine maternity."

I heard not long ago of about as plain a piece of meanness as a parent can be guilty of to a child. Pig club work was started in the central Nebraska county, and because there was no club near-by, a farmer gave his 14-year-old son a pig to own, and raise, and exhibit at the county fair in September. Fair time came, and the boy's pig won the blue ribbon in the futurity class. An offer of \$75 was made for the pig, which was a good price in 1920 when money was tight. It seemed a big sum to the boy when the check was handed to him, so he patted the pig goodbye and went home with the check. The father is a partner in a business, and the woman will ever suffer such treatment from me as my mother has had from my father. The other children at home are still doing field work for him, and they never see a cent of pay for it. He gave us the district to raise a pig, and he would not give us any more. The banker told me before I left home that father was worth \$40,000 besides his land, and mother has to beg for a pair of stockings.

Poultry Breeders to Hold Pure-Bred Sale in Johnson County

Johnson County, Neb., Nov. 12.—(Special.)—At a meeting of the Johnson County Live Stock Breeders' association, it was decided to hold a sale of poultry at the fair grounds in Tecumseh November 19. This is believed to be a new departure, announced nowhere else in the country up to this time. It is expected that 500 chickens will be sold to be pure-bred and of any breed. The poultry will be taken to the sale pavilion a day or two before the sale, where an experienced judge will judge the birds and mark the cards.

Wheat Crop Would Fill Train 1,300 Miles Long

Regina, Sask., Nov. 12.—A train 1,300 miles long would be required to haul Saskatchewan's wheat crop. The Saskatchewan department of agriculture reports a crop of approximately 175,000,000 bushels. If this were placed in forty ton cars, each holding a thousand bushels, the train would extend from Chicago to Salt Lake City.

Bayard Merchants Plan Barbecue and Bean Bake

Bayard, Neb., Nov. 12.—Bayard merchants are planning a big barbecue and bean bake November 23. The American Legion is planning to put on a musical comedy in the evening, the parts to be taken by local talent.

Buffalo County Farmers Seek to Abolish Offices

Kearney, Neb., Nov. 12.—Farmers in Buffalo county are circulating petitions to discontinue the office of county Farm Bureau agent, county highway commissioner and county assessor.

Bayard Public Library Doubles Number of Books

Bayard, Neb., Nov. 12.—The number of volumes in the Bayard public library has more than doubled in the past year. The number November 1, 1920, was 500. The annual report just submitted shows the number to be 1372.

Wheat Crop Would Fill Train 1,300 Miles Long

Regina, Sask., Nov. 12.—A train 1,300 miles long would be required to haul Saskatchewan's wheat crop. The Saskatchewan department of agriculture reports a crop of approximately 175,000,000 bushels. Nebraska Judging Team Recruits 10 Months Ago

Lads Who Win Second Place At National Dairy Show Average 17 Years Of Age.

Grand Island, Neb., Nov. 12.—The Hall county dairy judging team that placed Nebraska second at the National Dairy show in competition with teams from 15 other states has an average of 17. The youngest is 16 and the oldest 18. The members were recruited in judging dairy cattle 10 months ago, and they went to the national show with three days' training on pure-bred herds.

Nebraska's prize judging team is directly responsible to the boys and girls of the county. The team was the crowning point, a history of the Hall county club shows, of a persistent endeavor to encourage better dairy herds. It started with a Holstein Calf club in May, 1920. Eight boys and two girls made up the first club and they settled on Holsteins. Their herds were purchased. The members did well during the season, but interest in the club waned. The calves were exhibited at the county fair and made a good showing.

Much Redtop Clover Seed Comes Into U. S.

There arrived, subject to the seed importation act, at New York, during the two weeks ending October 31, approximately 97,000 pounds of red clover, mostly from Germany; 37,000 pounds of crimson clover from France; 45,500 pounds of white clover from Portugal; 123,200 pounds of orchard grass from Denmark, Germany and Holland; 74,700 pounds of rye grass, mostly from Great Britain and 132,000 pounds of rape seed from Holland. The arrivals at Baltimore were small, being about 44,000 pounds of crimson clover and 14,000 pounds of orchard grass, both from Germany. The exports for the same period from New York were 30,000 pounds each of alsike clover and timothy to Great Britain; 278,000 pounds of redtop to Great Britain, Germany and Holland; and 50,000 pounds of meadow fescue to Denmark. Baltic meadow exports consisted of timothy seed only and amounted to 148,400 pounds billed to Ireland, Germany and France.

Children Featured At Poultry Show

Columbus, Neb., Nov. 12.—(Special.)—Special department has been created for the boys and girls in connection with the sixth annual show of the Poultry and Rabbit and Pet Stock association, which will be held in Columbus December 6 and 7. The boys and girls will bring to the show the chickens they raised this year and special premiums will be awarded them.

Things to Be Done During November

Protect Fruit Trees—Young fruit trees may be protected from injury by mice and rabbits by mounding the soil around the tree trunks. Another method is to wrap wood veneer or heavy paper around the trunks.

Cultivate Alfalfa—To destroy grasshopper eggs, thus reducing the number of hoppers next year, alfalfa growers in grasshopper infested districts should cultivate their fields before the grasshoppers hatch. Cultivate with spring-toothed harrow or cut-away disc. Growers who have used this method find that it does not increase winter killing of alfalfa.

Care of Machinery—This is the time of year to put farm machinery away for the winter. If a dry, well ventilated shed is available, that is the place to store it. Most farmers store the "dry-ally" shed, which is always well ventilated and nearly always dry. This is good economy for few farm implements can afford to lay rent on a high priced machine shed. More important than the place of storage is the condition in which the machinery is put away. All woodwork should be painted to prevent warping and checking. Bearing surfaces should be well oiled and mould-board and shares should be covered with axle grease. Most machines "rust out" faster than they wear out. Depreciation charges may be cut in two by using a light paint and grease this fall.

Mulching Under Trees—Heavy mulching under the orchard trees will keep against weeding, freezing and hence against winter-killing. However, this mulching should not be closer than a foot from the trunk of the tree.

Freight Rates Halt Nebraska Sales of Alfalfa

Water Rate From Western Seaboard to New York Same As Nebraska Freight To Chicago.

Lincoln, Nov. 12.—Alfalfa growers on the western seaboard are enabled to market their hay in New York and other eastern markets at a little more than western Nebraska growers are compelled to pay for freight charges to Chicago, according to a report made by the state bureau of markets. The comparative cheapness of water transportation from the Pacific coast is responsible, the report states.

Market Weakens

The price paid for growers of No. 1 sacked Domestic Scotch No. 9 was \$1.50, but under heavy shipments from other sections and a subsequent falling off in the demand from outside consuming districts, the local market weakened to a range of \$1.15 to \$1.25 around October 1. Growers refused to haul in quantity at these prices, however, and the market gradually recovered by October 13 to a range of \$1.50 to \$1.60, only to suffer another relapse under the pressure of continued heavy shipments from other sections, and dropping prices to \$1.25. Most growers sort Burals and Pearls on October 22 were mostly \$1.25.

Pioneer Bloomfield Editor Celebrates 68th Birthday

Bloomfield, Neb., Nov. 12.—(Special.)—W. H. Needham, editor of the Bloomfield Monitor, celebrated his 68th birthday and in the evening a number of his friends gathered to celebrate the occasion. Mr. Needham is the oldest newspaper man in northeast Nebraska in line of continuous service, having edited the Monitor for 31 years. He recently acquired the plant and subscription list of the Bloomfield Journal and consolidated the two papers.

Lincoln County Poultry Show to Be Held Dec. 14

North Platte, Neb., Nov. 12.—(Special.)—The annual show of the Lincoln County Poultry association will occur December 14, with what promises to be the largest exhibit in any year since the initial show six years ago. The second annual Lincoln county corn show will be held in connection with the poultry show.

Gage County Poultry Show Will Be Held in December

Beatrice, Neb., Nov. 12.—(Special.)—Poultry fanciers have arranged to hold an exhibition in Beatrice the first week in December. Business men of this city have contributed to a fund for the financial support of the affair.

Farmers Near Bloomfield Complete Corn Picking

Bloomfield, Neb., Nov. 12.—(Special.)—Farmers in this community are making rapid progress with their corn picking and quite a number have finished. Practically all the corn will be out by November 20. The quality of the corn is said to be very good.

Wheat Crop Would Fill Train 1,300 Miles Long

Regina, Sask., Nov. 12.—A train 1,300 miles long would be required to haul Saskatchewan's wheat crop. The Saskatchewan department of agriculture reports a crop of approximately 175,000,000 bushels.
