

Rancher Hangs Self on Day Set For Theft Trial

Alliance Man Depressed by Criminal Charges Ends Own Life in Basement of Home.

Alliance, Neb., Nov. 14.—(Special Telegram)—Charles Coker, 30, prominent pioneer ranchman of this section, committed suicide by hanging himself in the basement of his home here. The body was found suspended from a beam in the basement with an electric iron cord about his neck.

Two weeks ago he was arrested on a charge of selling cattle from the Hall and Graham ranch in Morrill county, after officers had found a hide bearing the brand of the Hall and Graham ranch buried in his barnyard. He was released on \$1,000 bond pending preliminary hearing which was to have been held today at Bridgeport. Immediately following his release on bond he disposed of all his property for cash at a great sacrifice. It consisted of his ranch of 5,100 acres which was sold for about \$4 an acre, or one-fourth its value, together with 200 head of cattle, a bunch of horses and farm machinery, his town residence property, two vacant lots here and a new auto. All of his property was sold for a fraction of its value.

A week later Coker was arrested on a charge of arson in connection with the mysterious burning of a York branch barn on the Glen Gentle ranch near his own several years ago. It was reported that while the barn was burning Gentle looked out of a window in the vicinity of the barn. Coker was taken to Bridgeport and released on \$1,000 bond on the arson charge.

Since his last arrest he was down east and Saturday night was drinking heavily, local officers said. He had been dead several hours when the body was found. The body was discovered by W. J. Leo, plumber, who had been engaged to make some repairs in the basement of the Coker house.

Coker was unmarried and lived alone. He had been a prominent rancher in this vicinity for 25 years. He is survived by one brother, Cy Coker, and one sister, Lizzie Coker, both of Alliance.

Man in Whose Bed Lincoln Died Lives in Alms House

New York, Nov. 14.—Thomas Proctor, in whose bed Abraham Lincoln died in all probability will spend the remainder of his life in the alms house on Blackwells island.

Old friends of the former soldier started a fund to provide for Proctor in his old age but Proctor himself is far from anxious to leave the alms house. He said today he has many friends in the alms house and fears to venture forth.

It has been established that four of the persons present at the death of the martyred president are still living. They are Proctor, Dr. Charles A. Leslie, who, as a young army surgeon, was the first to attend Lincoln after he was shot, Robert T. Lincoln, the only surviving son of the emancipator and Cor. James Tanner, of Schoharie county, New York.

Movies To Dangerous for "Greatest Yank," Says Wife

Washington, Nov. 14.—"Woodie shall never be a movie actor, no matter how many offers he gets—it is far too dangerous," excitedly declared Mrs. (Captain) Woodfill, wife of the "greatest hero in the American Army."

Standing near her broad-shouldered, six-foot husband, who carries himself with Indian erectness, she appeared strikingly slender and delicate—but still quite strong enough to make her "soldier boy" follow whither she leads—and she plans to lead him far, far from the paths of danger. No movie vamps shall ever get a chance to ensnare him with beguiling looks nor shall he ever take such dangerous, death-inviting challenges as those of Douglas Fairbanks.

A search had been made for Mrs. Pullen since she left her home Saturday. Mr. Pullen stated she had been in ill health for some time.

Bounty on Rat Tails; Small Boys Collect With Insulated Wire

Bay City, Mich., Nov. 14.—A new species of "con man" has been discovered here.

The city put a bounty of 10 cents on rats, and for obvious reasons, required only the tails of the dead rodents be presented for "cashing in." This counting developed into a rather perfidious performance and then it developed that some of the ever-present "small boys" were mixing in pieces of insulated wire and even small pigtails with the rat appendages.

Fire Spreading in Ship, Burning in Mid-Atlantic

New York, Nov. 14.—The steamship San Francisco, Marseilles for New York, which caught fire yesterday about 1,000 miles southeast of New York was heading toward Bermuda today, radio messages from the ship said. The fire was spreading. The steamship Ramon D'Larrinaga was standing by.

World War Vets' Association Asks Hard to Free Debs

Washington, Nov. 14.—An engagement was made today with President Harding by eight members of the World War Veterans' association and others who won congressional medals of honor or distinguished service awards during the late war, to present memorials asking the pardon of Eugene V. Debs, now serving sentence in Atlanta penitentiary.

The memorials also asked the release of 140 other men confined in federal prisons.

Call Is Issued For Convention Of Third Party

Meeting Will Be Held at Grand Island December 8—County Meetings Set For December 3.

Lincoln, Nov. 14.—(Special)—F. L. Bollen, Lincoln, chairman of the temporary executive committee of the third party, issued a formal call for the state convention to be held at Grand Island, December 8.

The specific purpose of the meeting, according to Bollen's call, is to bestow a name on the party and to perfect its organization. Whether an attempt will be made to write a platform is not set out.

Bollen asks that all persons believing in the third party meet at the court house in each county seat on December 3 and select delegates for the convention. He states that anyone who doesn't attend the county convention and wishes a voice and a vote at the Grand Island convention will be granted same if he is at Grand Island on the forenoon of December 8.

Judge Arthur G. Wray is known to favor "Liberal party" as the emblem of the new flag of promise, which falls in line with the name advocated by "forty-eighters." Others are reported to favor individualism in the Nebraska party, and divorce from the "forty-eighters" national third party plans.

Christian Influence Needed in Colleges

Columbus, O., Nov. 14.—"One of the worst things that could happen to the universities of the United States would be the withdrawal of

the Christian influence," declared Dr. W. O. Thompson, president of Ohio State university.

"It should be carried further, into the high schools as well. We cannot leave religion out of the lives of these young people at the very time when the purposes of life are being formed and decisions are being made.

"Last year we had over 2,000 Methodists in Ohio State. We had more than 1,400 Presbyterians. There are many schools of both these denominations with less students than that. The church cannot give them a four-year vacation from church service and care. The state university represents the state. But it represents only the best

ideals of the state, not the worst," President Thompson said.

Hog Workers of Chicago Packing Company Strike Chicago, Nov. 14.—Hog and killing workers at the Western Packing company plant walked out this morning. Dennis Lane, local presi-

dent of the Amalgamated Meat Cutters and Butchers Workers' union, said the strike had not been called by union officials.

Local presidents of packing house unions in all the principal live stock centers will meet here, this week, probably Thursday, to discuss the action to be taken under the recent strike vote.
