All Institutions Will Be Given Reserve at End of Quarter As Announced For University.

Lincoln, Nov. 16.—(Special).—Following his agreement with the state university regents 10 days ago, whereby the 10 per cent reserve set aside from the maintenance funds of that institution at the beginning of each quarter, becomes available for use when the quarter is ended, Governor McKelvie is notifying all other departments and activities of the state that the same rule will be applied to them.

"The amounts to be released at the end of each quarter shall take into account previous withdrawals from the reserve, and in the event that contingencies do arise, which call for the expenditure of any part of the reserve during a given quarter the expending agency shall file, for approval of the governor, supplementary estimates covering such additional needs," the governor wrote in an open letter to the expending agencies.

### 19-Year-Old Speed Cop

Columbus, Neb., Nov. 16.—(Special).—Reckless motorists and speeders are warned to stay away from Columbus. When the city council decided to wage war on violators of road rules they determined that the driver of fast cars should not escape. A search was then started for a man who would drive just a little faster than the fastest motorist. It is customary to have all police officers over 21. This was not found feasible in Columbus as the older men failed to reach the council's demand for recklessness.

Jack Lehman, 19, was then appointed. He loves speed and with his motorcycle tuned up to a racing pitch he seldom fails to bring in "his man." His steady, faithful work has won him the respect of the entire community.

Mince, pumpkin and other kinds of pie will be served, depending upon the available supplies and taste of the cook at each institution.
