

Propose to Make
Nov. 11 Perpetual
Thanksgiving Day

American Legion Resolution
Adopted at Kansas City Will
Be Submitted to State
Chamber of Commerce.

Falls City, Neb., Nov. 17.—Plans are under way to ask congress to pass a law making Armistice day a perpetual Thanksgiving day and in accordance with the movement the following resolution was adopted here by the Chamber of Commerce and will be submitted at the meeting of the Nebraska secretaries of Chambers of Commerce by Ronald Kingley, secretary of the Falls City Chamber of Commerce.

Test of Resolution.
"Whereas, The significance of Armistice day is, and will ever be dear to the heart of every service man, and

"Whereas, The observance of this day bids fair to be crowded out by commercial interests, and the proximity of Thanksgiving day, and

"Whereas, The cessation of slaughter on November 11, 1918 is cause of thanksgiving to the whole world,

"Therefore, be it resolved, That the American Legion, in national convention assembled, stand firmly and use every possible influence to the end that the date of Thanksgiving day be perpetually fixed on November 11. This will forever keep the significance of armistice before our people and secure its proper observance."

Legion Favors Plan.
The above resolution was submitted to the national convention of the American Legion recently held at Kansas City by Dr. Whitefield Bowers of Michigan City, Ind., and adopted by the convention.

Which shall it be?
The puzzled young aviator to the right of Betty Compson, star in the late George Loane Tucker's last picture, "Ladies Must Live," seems, like Barkis, "to be willin'," only he can't quite decide between Betty and Marcia Manon.

Today's Attractions.
Strand—Douglas Fairbanks in "The Three Musketeers."
Sun—"The Grim Comedian."
Moon—"The Mysterious Rider."
Rialto—"Wife Against Wife."
Empress—Justine Johnstone in "Sheltered Daughters."
Muse—Conway Tearle in "Society Snobs."
Grand—Dorothy Dalton in "Idol of the North."
Hamilton—"Kazan."
Victoria—"Paying the Piper."

Betty Compson will be starred shortly in a William D. Taylor production temporarily titled, "The Moose," said to be a distinctive departure from her recent finished photographic dramatic version of Barrie's, "The Little Minister," directed by Penrhyn Stanlaws. The new picture was adapted by Monte M. Katterjohn from a story by Constance Lindsay Skinner, published in Ainslee's Magazine.

Did you know that most of the bricks used in construction of motion picture sets are made of plaster of Paris? These bricks are made in slabs of 35 each of one-quarter inch thickness. By the use of fiber these bricks are made so tough that they can be nailed to boards and when they are painted they look like real bricks. Every day in the plaster shops of west coast studios more than 1,000 of these bricks are made.

Several cages of pink-eyed white rats, others containing beautiful white fantail pigeons, several holding ring doves and pens with game cocks constitute the "zoo" at the Lasky studio—or a part of it. Only occasionally are animals used in pictures nowadays—save in jungle films—but very frequently pigeons and doves are used as well as chickens, in the films.

E. L. Weatherford, arrested for investigation following the death of Ruby Brown, drug addict, was discharged yesterday, after a hearing before United States Commissioner Boehler. The Bee Free Shoe Fund
For Youngsters.

Every cent you give to The Bee free shoe fund is used to buy shoes for children of desperately poor families. No "overhead expenses."

Each case is investigated by a school teacher who goes with the child to the home and inquires. In many cases the father is dead or has deserted his family.

Many little boys and girls are on the waiting list, hoping, hoping that the fund will come rapidly so their turns will come soon to get the prized new shoes, to protect their tender feet from winter's chilly blasts.

Perhaps you can spare something to help a little waif. Perhaps you can do it by depriving yourself of something you want.

According to Reeser, the basement where the stuff was found is merely a hole in the ground under the house, and he did not know that the liquor was there.

Twin Kills Herself So
Sister May Have Lover

Geneva, Nov. 17.—The love tragedy of twin sisters who drew lots for death by poison became known recently in the Innsbruck courts when one of them was tried for murder. She was acquitted after she told her story.

The girls, daughters of a farmer named Goldheim, fell in love with a former Hungarian officer, who was unable to distinguish the girls and courted both, thinking he was always with the same sister. The officer when he realized the situation asked the girls to decide which should marry him.

They solved the problem by preparing a glass of water and a glass of poison. They drew lots and the loser drank and died. When the surviving sister was arrested the officer disappeared.
