Romance in Origin Of Superstitions

By H. IRVING KING.

Touching the Dead. In Mrs. Bergen's "Current Super-stitions" appears the following com-munication from Westport, Mass.: "I have noticed at funerals of the aged that when elderly people passed by the casket they would touch the forehead of the dead person. I was confident that there was some super-stition connected with the act be-cause the same look was apparent on every face; but on being asked why this was done they pretended it was bidding an old comrade good-bye. At last one told me that it was that they might not dream of the dead or see them."

It would be interesting to know

how wide-spread this superstition is. It is probably more general than most people imagine. People who "hold by" such superstitions are apt to be extremely reticent about them when talking with "unbelievers" partly from a fear of ridicule and partly because of that feeling which causes certain savage people to "Hold his fetish from the white man's gaze

The turquoise, today's talismanic gem, was credited by the Persians with the power to bring good fortune, resulting from the attainment of wealth, to those who saw the new moon reflected in its depths. However, the stone must be one which was a wift to the wearer, not purchased by him.

his fetish from the white man's gaze apart;" a primitive instinct.

The superstition in question is patently a survival of that most an-cient belief in the power of the touch. A good example of this is the custom of touching for the king's evil, alias scrofula, which was practiced by the English monarchs down to the time of Queen Ann. Some superior power residing in the monarch was transmitted by the touch and expelled the demon of disease. And chased by him.

The diamond, today's natal stone, should also be a gift if its wearer is to enjoy good fortune in love affairs; to exert its powers to the full, it should be set in gold and worn on the left arm. It is an idea of primitive man who appears to have conveived a sort of magnetic spiritual fluid flowing from the finger that touched. Common Sense

By J. J. MUNDY.

A Word to the Knocker. Are you one of those persons who are always passing judgment on those around you. You do not let it be mental judgment, either; you ex-

press in no uncertain terms just what you think, Of course, after you have been heard in the matter and your opin-ion proves to be of no value, you

cannot get to cover gracefully, you have to stand a lot of odium. But why so positive for or against a certain thing before you have all It is so much easier to suspend judgment and line up in the right way in matters concerning the public good rather than to fly off on a tangent and have to be put in your place rather hard by those who real-

ly have the facts and can down your eiforts.

Don't be a pest about it unless you

are sureo f your ground.

In any case it does not pay to be

women. It is somewhat easier to cultivate the debating spirit rather than to get down to work and attend to your own business, but if you are not careful to be right in your attitudes you injure yourself.

Where It Started

Journal. The origin of the word "journal" is peculiar. It is derived from the Latin "dies," meaning "day." The progress of its derivation is thus made clear; dies, diurnus; then into the Italian, with the "d" softened to g"-giorno; then into French, with he same sound, but different spelling; jour, with the last syllable added by the English, we arrive at "journal," a daily record of events.
