

### Fairbury Bank is Turned Over to State Board

Stockholders Ask Liquidation—Depositors' Accounts Taken Over by Other Institutions.

Fairbury, Neb., Jan. 4.—(Special.)—The Goodrich Bros. Banking company of Fairbury did not open for business Tuesday. The stockholders of the bank held their annual meeting Monday. All the stock was represented and by vote the department of trade and commerce was requested to take over the institution and settle its affairs. The other banks of Fairbury have agreed to take over the depositors' accounts and the patrons of the bank will suffer no inconvenience.

The Fairbury Savings bank, which has always been an adjunct of the Goodrich Bros. bank, is not affected by the closing of the main bank. It will continue business and was moved

to temporary quarters in the First National bank building. Secretary Hart of the state banking board says that the difficulties of the bank grew out of irregularities going on for the past few years. Talk of the bank's condition caused an unrest among the depositors. During the past 30 days liquidation has been quietly going and the deposits have been reduced from \$400,000 to less than \$200,000. The Goodrich Bros. bank was organized in 1886 and has always enjoyed the confidence of the people. This is the first bank failure in Fairbury.

### Fremont Dental Offices Robbed of \$150 in Gold

Fremont, Neb., Jan. 4.—(Special.)—Thieves visited every dentist's office in the city and secured gold valued at \$150. In one office building, where four dentists are located, the burglars "jimmied" their way through the door. Nothing but gold, such as fillings, crowns and scrapings was taken. Seven offices were entered. Among the victims are Dr. Iva Keim, \$65; Dr. R. E. Dooley, \$20; Dr. Lloyd C. Blackman, \$25; Dr. H. D. Muir, \$40. This is the third time that the dentist offices of Fremont have suffered from like incursions.

### Broader Activity in '21 Reported by Federal Reserve

There Was Lessened Demand for Bills of Activity During Year, Declares Board's Survey.

Washington, Jan. 4.—Lessened demand generally for bills of acceptance, but a somewhat broader activity, was reported by the federal reserve board today in a year-end survey of conditions in the acceptance markets of the 12 reserve districts. Activity prevailing in the bill market in November did not continue in December, Boston reported, and sales during one week were described as the lowest for the year. The influence of tax payments coming simultaneously with the new certificate issue and the year-end adjustments had a deterrent effect on the investors, according to the survey. A considerable decline in the

country's foreign trade during 1921, in addition to the fall in prices, resulted in a reduction in the amount of bankers' bills in the New York market, the survey continued, adding, however, that there was a steadily broadening market. "A highly important development of 1921," the report said, "was the growth of a market for call money lent against the security of bankers' acceptances and treasury certificates."

A general falling off in acceptance transactions during November was reported by Chicago, the greater part of the bills drawn being against meats, meat products, tobacco and canned goods.

Bills originating on the Pacific coast, the San Francisco bank declared, were appearing in larger quantities but the supply was still insufficient to meet the investment demand, and prime eastern bills continue in good demand.

During the latter part of November, the bank said, "the demand for acceptances was steady with a heavy call for bills which would fall due before the end of the year. At the same time a gradual broadening of the market was noticeable, chiefly among country banks, but to a larger extent among corporations and individuals."

### Federal Reserve Bank in Europe Urged by Owen

Institution Would Be Linked With American Reserve System, From Which It Would Draw Resources.

Washington, Jan. 4.—The establishment of a European federal reserve bank, providing a gold secured currency and linked inseparably with the American reserve system from which it would draw its resources and reserves was advocated today by Senator Owen, democrat, Oklahoma, as a basic move toward restoration of stable economic conditions throughout the world.

In an extensive speech in the senate, the Oklahoma senator suggested in connection with the proposed reserve bank, the following proposals for American aid in world rehabilitation:

1. That we should postpone the

final payment of the world war debt in the United States by extending the payment over 30 years; that we should not for 10 years collect any amount under the sinking fund.

2. That in arranging the payment of Europe's debt to the United States we should extend time to Europe necessary to enable them to readjust their affairs and regain their productive power and that we should not for 10 years demand of them the payment of interest due but allow it to merge with the principal.

3. That we should put the interest rate at 3 per cent on Europe's debt to the United States.

### To Amend Federal Reserve.

Mr. Owen at the same time submitted to the senate a bill to amend the federal reserve act so that establishment of the foreign bank would be possible. He proposed that the European bank should be owned by the reserves system of the United States and that from the 12 banks here it should draw a total of \$500,000,000 in gold as a reserve. This, he claimed, would in no way impair the reserves or resources of the American institutions yet it would enable the foreign banks to issue \$2,500,000,000 in notes, backed up by gold as well as 100 per cent commodity bills.

### Fremont Light Plant to Be Bought by City

Fremont, Neb., Jan. 4.—(Special.)—The city of Fremont has authorized the purchase of the electrical distribution system from the Doherty Gas and Light company for \$25,000. The purchase price will be paid from the earnings of the city light plant. This transaction gives the city exclusive operation of electrical power in Fremont. In addition several surrounding towns secure power from the Fremont plant. The sale of the electric light property by the Doherty company is the culmination of a long drawn out attempt of the city to obtain full rights to the electric plant. The Doherty company will continue to furnish gas service in Fremont.

### Soldier Patients at U. S. Hospitals Threaten Strike

New York, Jan. 4.—Soldier patients in the Fox Hills, Polyclinic and Hudson hospitals, threatened today to walk out because of an order reducing their daily ration allowance from \$1.10 to 80 cents. Maj. William F. Deagan, state commander of the American Legion, obtained their promise to hold off pending action by Washington.

### Accessory Thieves Steal Five Autos in Fremont

Fremont, Neb., Jan. 4.—(Special.)—Five automobiles were stolen in Fremont during the past week but all were recovered when they were abandoned by the thieves. Police are of the opinion that a band of auto thieves are working in this territory. The abandoned cars have been found on the outskirts of the city and nearby towns where they were stripped of extra tires and other accessories. The autos were all taken from the business section where they were parked by the owners during the day.

Every Cold Weather Department in This Big Store Comes to the Front With Price Reductions on

# Warm Things for Winter

**"Snow at Last"** That was a common exclamation Wednesday when the people of this section were greeted by practically the first snowfall of the season. Do you know how important generous snowfall is to this country? Physicians will tell you that a "warm winter" in Nebraska is not conducive to health. What we need is a touch of the normal climate that has given Nebraska its reputation as one of the healthiest states in the union. But abundant snowfall is important to the farmers and therefore essential to the business interests of the state. Snow is a great fertilizer. While Nebraska soil generally does not need fertilizing, the subsoil does need thorough drenching. It gets it through heavy snowfall. Heavy snowfall insures abundant crops. All of this reminds us, too, that with the snow comes the need for the "warm things." You will find them in great abundance at this store and all at prices that place these great comforts within the reach of all.
