There allo was apparent in some quarters a mounting hope that the question of the Shantung railroad, the only point on which the two delegations have found themselves deadlocked, would be settled soon on the lasis of American and British com-promise specifications now under con-sideration in Peking and Tokio. The halting progress of the dis-cussions, however, coupled with sus-

pension of conference negotiations on other subjects, led to renewed rum-blings of disappointment from foreign delegations anxious to get home. Conference officials were talking tonight of a resumption of the ses-sions of the far eastern committee ext week, although 24 hours before bey had indicated that the committee old not reassemble until the

Today Dr. Chung-Hui Wang, Chinese delegate, furnished by the women who were ssued a statement reaffirming the attacked determination of China to press its request for conference discussion of the "21 demands," despite objections of the Japanese. Meantime, among other delegations there developed evidences that not only this request, but the Chinese proposal for abolition of spheres of influence and for restoration of leased areas face a dubi-

Compromise Only Way Out. Among officials close to the Shantung conversation, the oninion prevailed that both China and Japan must be ready to adopt a compronising attitude on the railway ques-tion, which caused the deadlock of two weeks ago, if they hope to reach a settlement of the Shantung problem here. In other words, both countries must agree to some formula which would preserve some of the final suggestions of both parties but

It is believed a formula under discussion is that Japan provide a loan by Japanese capitalists for the restoration of the railway, but with the abandonment by Japan of its claim for the appointment of Japanese railway experts to such posts as traffic manager and chief accountant.

The delegates today advanced far the discussion of the restitution leased territory of Kiao Chow. The Japanese agreed to turn over to China, all official documents which have been accumulated, notably those referring to land titles. On Monday the delegates will take up the question of how soon the territhe question of now soon the term go tory is to be restored and then go on to the questions of the salt fields City Bustle Blamed and the iron and coal mines.
