# Essex Coach \$1345

## To See It is to Want It

The Price Makes It Easy

All want such advantages as the Essex Coach combines, They were beyond most pockets in the past.

This new type gives them in full measure—at little more than the cost of the open models. Is it any wonder the Coach met such instant success?

Or that its first welcome has steadily grown? Prior to the Essex Coach, consider what a buyer could get around \$1400. He had the choice of a closed car without distinction and little performance ability. If he

wanted better performance he had no choice at that price except an open car. The Coach now couples the beauty, comfort and luxury. of an unusually fine closed body, with the exceptional reliability and performance of the well-proved Essex

chassis. But it does not mean greatly added price. And it continues the savings of its first cost in its economy of fuel, oil and tires, as well as small cost of upkeep. Come see the Coach. You will surely want it. Price is now no bar to owning the fine quality, performance and distinction that heretofore cost more than most men
