

Increased Cut in Appropriations. Committee Plan

Normal School Head Wins Preliminary Fight Against Reduction of Peru Building Fund.

Lincoln, Jan. 25.—(Special Telegram.)—Governor McKelvie recommended to the legislature that it reduce appropriations for 1922, \$1,980,505.83, excluding a \$750,000 reduction on real property taxation, if the gasoline tax bill is passed. The finance committee of the lower house proposed an even greater reduction in its report adopted tonight, which will be presented to the house for consideration tomorrow. The committee proposes reducing the 1922 appropriation \$66,000 more than the governor recommended. If the house and the committee's report are approved, appropriations will be reduced \$2,146,505.83, not including the gasoline tax. The committee recommended cuts in the following appropriations: \$50,000, agricultural extension; \$25,000, and minor reductions in other departments, amounting to a total of \$101,000. The governor has refused a \$35,000 reduction in the Peru Normal appropriation that the governor recommended. The committee, as agreed by the committee, will not touch the Peru Normal appropriation, but the bill as reported to the house, Peru, president of the state normal board, announced before it that to stop construction on the building now under construction would be poor business. It voted to grant the \$100,000 appropriation to complete it, leaving the total reductions in appropriations from \$100,000 to \$65,000. Other reductions proposed by the governor were accepted.

Amended Charter for Omaha Passes Senate

Lincoln, Jan. 25.—(Special.)—The Robb bill, amending the Omaha charter to defer payments of interest on assessments for public improvements over a 10-year period, passed the senate without a dissenting vote. The bill bears the unique record of being the first to pass the senate in so short a period of time. The upper branch, aside from voting to seat Governor McKelvie's senatorial appointees, contented itself with passing the resolution calling for the appointment of a committee to investigate the cost of highway construction under state and county direction.

House Member Asks Cost of Highways

Lincoln, Jan. 25.—(Special.)—Representative Bock of Butler county, democratic member of the lower house, introduced a resolution directing Governor McKelvie to ascertain from the department of public works the cost of construction of state aid roads per mile, by counties, and the names of contractors and amounts paid to them on original and subcontract. The actual amount of state and federal aid money spent in each county also is requested. Consideration of the resolution was postponed for 24 hours under the house rules.

Franklin Representative May File for Governor

Lincoln, Jan. 25.—(Special.)—Representative A. H. Bryum said that he was giving serious consideration to a proposal of his friends that he become a candidate for the republican nomination for governor. Mr. Bryum, whose home is at Franklin, served two terms in the house.

House Passes Resolution Urging Waterway Project

Lincoln, Jan. 25.—(Special.)—The Foster resolution urging congress to make necessary appropriations to initiate the St. Lawrence waterway project, which provides for a water outlet for midwestern products, was passed by the lower house unanimously.

Beatrice Man Arrested for Nonpayment of Alimony

Beatrice, Neb., Jan. 25.—(Special Telegram.)—William Cook of this city was arrested near Cortland, where he has been visiting with relatives, on the charge of failure to pay alimony to his divorced wife, Minnie Kirkwood.

Markets for Export Proposed at Meeting

(Continued from Page One.) The maintenance of an open market in which farmers' elevator companies might compete on equal terms with individual dealers and line elevator companies" by the efforts of the Chicago Board of Trade. Fifty-six per cent of grain received at Chicago, he said, comes from farmers' elevators. "The Board of Trade," he asserted, "looks on the farm bureau movement as the greatest forward step taken by American agriculture in the last 40 years."

Waterway Recommended.

Recommendation for the construction of the St. Lawrence-Great Lakes waterway project was voted by the subcommittee on waterways. Recommendation for repeal of the commonly known guarantee clause of the transportation act and return to the state railroad commissions of control over state rates was voted today by a subcommittee on railway transportation of the general transportation committee of the conference. The vote on the repeal of the guaranty clause was 12 to 5 and on the return of the state railway powers, 11 to 6.

Proposes Export Markets.

Governor Parker of Louisiana, addressing the conference, proposed as a means of combating the present farm depression the opening of export markets through extension of long time credits to foreign buyers through the federal reserve system. "Have the federal reserve banks," the Louisiana governor suggested, "send their own representatives to the capitals of those European nations sincerely desiring to purchase our products and unable to pay for them. Look up the standing and character of these purchasers as well as their financial responsibility. Sell them not on very short time as is customary now, but on six, 12 and 18 months, taking their acceptances, with the indorsements of the local bank and the co-operation of the great banking institutions of each nation, and authorize the spinners, manufacturers and dealers to sell their products on equally long time, all drafts, acceptances and notes in payment to be deposited in trust until the claim of the federal reserve bank shall have been paid in full."

"Instant Relief."

Governor Parker told the conference that this plan "would afford almost instant relief, would mean the employment of many American ships for carrying to those nations the cotton to give profitable employment and the foodstuffs to keep many of them from starving; would add to the value and activity of the merchant marine; would put energy and spirit into business and bring to this country the good will of all older nations."

Opinion Divided.

Opinion among delegates was divided today as to the probable effect of the statement criticizing the conference issued yesterday by J. S. Wannamaker of South Carolina.

Stomach Is Acid, Gassy

Stomach feel good. It settles down, sweetens, goes about its business of digesting the food and you feel content and active. Eat what you like, turkey dressing, plum pudding, rich soup, sausage, baked beans and so on. You may go the limit provided you always follow with a Stuart's Dyspepsia Tablet. Get a 60 cent box at any drug store today and test your eating abilities.

I Could Tell You---

a lot of things in this space about our splendid line of Electric Washers and Household Appliances, but you'll be attending the ANNUAL BUILDING SHOW, and while you're there you'll see my displays, so it would only be a waste of time to try to tell in this space the wonderful performances of these appliances. We have on display the LAUNDRY QUEEN, 1900 CATERACT, THE EASY, THE NATIONAL VACUUM and SIMPLEX IRONER. You'll have an opportunity to compare the work turned out by the various types, and be better enabled to select the washer you'll want.

Wallace Replies to Charge Anent Farm Conference

Sole Purpose Is to Help Agriculture, Says Secretary—Urdike Committee Preparing Report.

Washington, Jan. 25.—(Special Telegram.)—Secretary of Agriculture Wallace, in answer to charges made by a southern delegate that the national agricultural conference now in session was set up in the interest of the fellow who farms the farmer, and not in the interest of the real tiller of the soil, declared that all he was trying to do was to help agriculture. "This conference has not been engineered nor is it being railroaded in any manner whatsoever," said the secretary. "The officials of the department of agriculture sat around a table for two whole days picking out the delegates to go on the various committees, which are now considering the big questions before them. Any charge that this is a hand-picked conference is just made out of the whole cloth, and that's all."

Urdike at Farm Bloc.

"Selection of the committees has been made in such a manner," he said, "as to suggest that those responsible for such service are either totally ignorant of the qualifications of the delegates or have lent themselves to a cut and dried scheme to prevent the forward looking farmer representatives from bringing any good whatever from out of the conference."

Ord Farmers Getting Ready to Ship Cattle to Market

"Hogs are bringing around \$8 in the country," said Carl Jensen of Ord, who was a stockyard's visitor, "and I think that is the reason for the big run of 18,500 which were received Wednesday. "A decline in the market will stop these big runs. Hogs have been shipped to market pretty early, which is the cause of so many light hogs being brought in. Cattle will continue coming in from my section soon. "There will be no cutting of corn acreage and the farmers have decided to feed their surplus, which pays better than to let it go at small prices. The hog has been the salvation of many in my section for the last two seasons and most of the farmers are planning to get more sows and breed on a larger scale."

Man Accused of Failure to Support Child Bound Over

Beatrice, Neb., Jan. 25.—(Special.)—Fred Eichhorn, jr., who was arrested a few days ago on the charge of failure to support his minor child, was brought before Judge Ellis and pleaded guilty. He was bound over to the opening day of the district court and was released on \$300 bond.

Woods to Submit Plan.

Congressman Jeffers has been chapering Mark Woods of Lincoln about the capital for the past day or two and arranging for conferences with the committee dealing with waterways. Mr. Woods having a scheme that is strongly endorsed for holding the waters of the Missouri within its banks. Army engineers have seen pictures of the beneficial effects on the Woods plan of ripping along sections of the Missouri and members of the senate speak in strong praise of the Woods plan.

Mr. Urdike said he hoped the committee would be ready to submit a report tomorrow, endorsing the utterances of the president in opening the conference in a general way. Mr. Urdike admitted that there was a movement on foot to endorse the agricultural bloc now existing in the senate but he hoped that a compromise might be effected that would keep the conference clear of rocks of this character.

Mr. Urdike and Joy Hackler, his confidential business associate, today paid their respects to Senator Norris and members of the house delegation from Nebraska, taking luncheon later with Senator Warren of Wyoming.

Hopes for a compromise.
