

**Think Harding
Stand on Bonus
Clever Stroke**

Leaders in Congress Believe President Has Played Clever Politics on Compensation Bill.

By EDGAR C. SNYDER.
Washington Correspondent Omaha Bee.
Washington, Feb. 11.—(Special Telegram.)—Congressional leaders generally expressed the opinion today that President Harding had played clever politics when he put up to congress a general sales tax to meet the bonus or an abandonment of the bonus until the condition of the treasury became better able to take care of the enormous drain the bonus would entail.

"Puts Democrats in Hole."
As Chairman Fordney of the ways and means committee expressed it, "President Harding played trump, and has put the democrats in a hole as well as those who are against the sales tax, but enthusiastically in favor of the bonus."

The ways and means committee, as at present constituted, consists of 17 republicans and 8 democrats, with only two republicans in opposition against the sales tax. Fear of Wisconsin and Wyoming of North Dakota. If these two republicans should join the democrats and vote against the bonus bill, with a sales tax added, the republicans on the committee would still have a majority of five to order a favorable report on the bill. It would therefore seem almost impossible to defeat the measure in committee and when the bill comes to the floor of the house it will be interesting to note those who vote against the president.

Oppose Half-Measure.
Both Senator Smoot and Representative Fordney have insisted all along that it would be the height of political folly to pass a bonus bill and not provide the ways and means for raising the money.

**Blow Restores Sight
Lost 12 Years Ago**

Joliet, Ill., Feb. 16.—A blow over the left eye, blind since babyhood, brought sight back to Miss Maude Ann Nasmith here last night when she and her brother were performing gymnastic stunts at their home.

Miss Nasmith is a daughter of Prof. John Nasmith, physical director of the University of Kansas, credited with being the originator of basket ball.

She came here from Kansas recently to live with her brother, Jack, physical director in one of the high schools. She is 17 and for more than 12 years has been unable to see with her left eye, although the defect was not noticeable.

While going through some exercises with her brother in their apartment last night, Miss Nasmith bumped her eye on a bar. Instantly her sight was restored.

**Mellon Holds He Has Not
Contravened Law in Office**

Washington, Feb. 16.—Basing his view on legal advice, Secretary Mellon considers that he has not contravened the law prohibiting the secretary of the treasury from engaging in commerce or business, it was declared today by high administration officials in commenting on the attack yesterday by Senator Watson, democrat, Georgia.

The law was called to Mr. Mellon's attention, officials said, before his appointment. Legal authorities were consulted, it was declared, who gave it as their opinion that the mere ownership of stock did not constitute engaging, directly or indirectly, "in commerce or business."

**Quick Action Saves Flyer
After Plane Crashes Down**

Houston, Tex., Feb. 16.—Heroic action by Serg. Emmett T. Collins at Ellington field today saved Capt. George Tinsley after his plane crashed into a building, and quick work on the part of the entire personnel of the field prevented what appeared likely to be a disastrous fire.

Captain Tinsley's plane struck a hangar as he was trying to land, bounced off and crashed through the glass walls of a gymnasium. Sergeant Collins rushed in and dragged Captain Tinsley out of the wreckage, just before the engine exploded and set fire to the building, which was destroyed.

**Mellon Opposed to U. S.
Credit for Railroads**

Washington, Feb. 16.—Secretary Mellon was said at the treasury to be opposed to the suggestion, attributed to Secretary Hoover, that the status of the railroads should be improved through lending governmental credit to the carriers.

In a formal statement, Mr. Mellon announced that newspaper reports to the effect that he "approves of the plan to give a government guaranty to issues of equipment obligations by railroad companies are entirely without foundation."

**Mary Says Wicked Stories
About Movies Are False**

Albany, N. Y., Feb. 16.—The convention of motion picture theater owners which yesterday discussed the Taylor murder case, today received a telegram from Mary Miles Minter in which she says: "The many wicked and misleading stories in connection with the Taylor case will be proved false. Public opinion today already is turning and several newspapers are calling for fair play from the public."

**Pastor-Autoist Indicted
on Manslaughter Charge**

Cairo, Ill., Feb. 16.—A warrant charging manslaughter was issued today against Rev. Joseph Reich, Catholic priest, in connection with the death of John Burton, 38, who died as the result of injuries suffered when he was struck by an automobile driven by the priest January 3. The coroner's jury exonerated Father Reich, but the warrant was issued following the priest's indictment yesterday.
