

Ambiguities in Light Ordinance Excite Comment

Revision of Wording Proposed and Conference in Regard to Emergency Rate to Be Called.

Ambiguities contained in various clauses of the new ordinance pertaining to electric rates, exposed in The Bee yesterday, caused a great deal of comment among business men yesterday. This was especially true of men representing concerns classed as big users whose rates were subjected to increases.

In speaking of the ordinance yesterday, W. A. Ellis, secretary of the Manufacturers' committee of the Omaha Chamber of Commerce, said: "The manufacturers discussed the new ordinance at great length at several meetings. These ambiguities were pointed out and discussed. Then, suddenly, all interest was lost in the new ordinance. Just why the discussions were dropped I have never learned."

Interest revived. Representatives of the Building and Managers' association said yesterday that the organization would probably take a new interest in the ordinance and that it should be couched in English plainer than that used at present.

W. T. Graham, secretary of the organization, said the ordinance wording would probably be discussed at a meeting of the Chamber Friday. The discovery of inequalities in the application of the ordinance resulted in a conference by Corporation Counsel W. C. Lambert and City Commissioners H. B. Zimman, the father of the ordinance, yesterday.

Conference Planned. Both agreed to the unreasonable-ness of the "emergency electric service" of the company and that \$18 per horsepower was a prohibitive rate.

Zimman stated that a conference would be held between representatives of the power company and interested users of electrical energy for the purpose of arriving at an understanding.

Girls Victimized by Ads, Is Charge

William Morris, Commission Man, Jailed on Young Woman's Complaint.

William H. Morris, dealer in poultry and eggs, at 1008 Howard street, was arrested by police detectives Monday night and held for investigation.

According to Chief of Detectives Van Dusen, the man advertised in several daily papers for the services of a girl to assist him in his office house work. The complaint that led to his arrest was made by a young woman who told police she applied to Morris for a position and that he made improper remarks and suggestions.

The police chief also received an unsigned note from the father of a girl, saying his daughter had been victimized by Morris. Police refused to divulge the name of the young woman who appeared in police court yesterday to testify against the man.

Morris is a widower and has a 12-year-old son, police declare. He has no residence but uses part of his office for sleeping quarters. He is being held at police headquarters pending further investigation.

Numbers by Russian Baso in New Victor Releases

Feodor Chalopin, Russian basso, has sung the "Song of the Flea," "The Two Grenades" and "When the King Went forth to War" for the Victor company. The records are among the varied and interesting numbers in the March release.

Other notable artists to be heard on March Victor records include Alida, Kreisler and Rachmaninoff, who plays the "Polka de W. R.," a composition by his father. "They Call It Dancing," from the Music Box revue, is one of the numerous dance pieces released by the Victor this month. Whiteman, Club Royal and the Original Dixieland jazz band orchestras are among those playing the dance pieces.

Brief City News

Twenty-two Days for Overcoat—Jack Simon, an overseas soldier, was given 22 days in jail for creating an overcoat by Judge Foster yesterday.

Preparing to Pave—Establishment of 42 new paving districts in Omaha was approved yesterday by the city council. The matter was introduced by Commissioner Joe Koutsky.

Major Cole Returns—Major R. B. Cole, assistant chief of staff of the 38th reserve division, Army building, Fifteenth and Dodge streets, returned Monday from a month's leave of absence spent in Columbia, S. C.

Open Motorcycle Bids—Bids for the purchase of 19 new motorcycles and four side cars to supplant those in use on the police department were opened yesterday in the city council. The purchase of a new emergency car for the South Side station was authorized by the city council.

No Sermon—Just Facts

What do MEN want At the Sun—Starting Sunday

Mrs. Kammerer Freed of Kidnaping Charges

Through the assistance of her daughter, Robina, Mrs. Julia Kammerer, 1114 Frederick street, was freed of the menace of a jail sentence yesterday. An order made out in June, 1920, finding the woman guilty of contempt of court for assisting her son, Charles, in kidnaping his 3-year-old child, Ruth Naomi, from his divorced wife and taking the child to Canada, was vacated by Judge Sears in the district court yesterday.

While Judge Sears was in Burgess-Nash store the other day Robina stopped him and pleaded for her mother, adding that the aged woman had been ill since the order was given because of the menace of jail.

Comfort's Orders Changed: Will Command Navy Tender

Orders issued recently by the Navy department, relieving Capt. J. H. Comfort as head of the navy recruiting service here, and assigning him to duty on the U. S. S. Ohio, have been changed. Capt. Comfort has been ordered to take command of the Altair, a tender, to relieve a similar ship in Asiatic waters. He is expected to leave in a short time. As yet no successor has been named to fill the vacancy created by Capt. Comfort's departure. According to navy recruiting officials, recruiting in Omaha is practically at a standstill.

Met Man in Store.

"When I went to the C. E. Nelson grocery store to buy some food

Mrs. Rose Goes on Stand to Explain Husband's Charge

Says "Other Man" Was Stranger Who Supplied Food When Grocery Credit Was Denied.

Mrs. Augustus Rose yesterday denied her husband's charges in their divorce case being heard in the court of domestic relations. Mrs. Rose denied that she was "familiar" with other men or that she corresponded with a soldier in Texas.

In regard to the testimony of her husband, who charged infidelity, and said he found a man in his home, Mrs. Rose testified that the man was known as "John." She said she did not know his last name.

A portable belt conveyor for loading loose materials into trucks that a New York man has invented is mounted on endless tracks so it can work on soft ground.

Tamale King on Trial on Charge of Murder

J. Weston, declared to be the "hot tamale king" of Omaha, went on trial yesterday in district court, charged with first degree murder. The state alleges that on December 6, at 1319 Jones street, Weston killed William Lewis, a hot tamale dealer. Lewis is said to have disputed Weston's supremacy in the tamale business, and during the quarrel which ensued Weston seized an ax. Former Chief of Police Marshal Eberstein was called as a juror in the case.

Regulation of Barber Shops by Ordinance Is Proposed

A proposed city ordinance regulating sanitary conditions in barber shops and barber colleges will come up for discussion before the city council at 10 next Monday morning. Commissioner Henry Dunn introduced the ordinance in the city council yesterday. It establishes a special board of examiners to inspect barber shops and issue licenses.

Illinois Central System Says Service Is Keynote in Handling Freight

The freight service of the Illinois Central System is founded upon prompt and regular movement of freight and the considerate treatment of patrons' wants by an organization which tries to render a service of satisfaction. We hold those to be the requisite elements of freight service.

The Illinois Central System is among the leading railroads of the country in handling perishable freight. Fruits from the tropics arriving by steamships are moved north from the port of New Orleans in solid trainloads for distribution to marketing centers throughout the country. Domestic fruits and vegetables produced in Louisiana, Mississippi and Tennessee are loaded at stations on our lines and shipped to principal points throughout the United States and Canada, moving largely in solid trainloads. Vegetables from the Rio Grande valley of Texas move in substantial volume through the Baton Rouge gateway and are handled by the Illinois Central System from Baton Rouge to principal points in the North and East. Solid trainloads of meat and packinghouse products are handled between Omaha, Sioux City and Chicago. Through trains from Council Bluffs to Chicago carry California vegetables and fruits.

Transportation of quality and quantity is an essential for the well-being and development of trade in commodities commonly classed as perishable freight. Without rapid and dependable transportation service consuming centers would have to depend on supplies from relatively nearby points of production, and trade generally would be contracted. The accurate maintenance of schedules is important in handling perishable freight. As an example of the kind of service rendered by the Illinois Central System, it is worthy to note that during the past six months our fast freight trains handling perishable and other high-class freight long distances have made scheduled early morning deliveries 99 per cent on time. A bureau in the office of our car accountant at Chicago receives telegraphic advices of the movement of cars loaded with perishable freight and is able at any time to furnish shippers of such cars or consignees the exact location and probable time of arrival or delivery to connecting line.

Fast merchandise trains are operated out of all the principal cities on the Illinois Central System on schedules which enable specialization in forwarding the freight the same day received.

The Illinois Central System also ranks among the leaders of the railroads in originating coal and lumber traffic. This class of traffic does not require such rapid movement as perishable freight and merchandise, but does require regular and dependable service, which we are enabled to give through a well-equipped transportation plant and special attention to the freight movement. To a large extent these commodities are classified into solid trains and handled long distances intact, thus minimizing detention at terminals.

Not all cars are handled without delay. Delays occur from causes beyond our control—others from causes under our control. The delays, however, are extremely small, taking into consideration the thousands of cars handled daily. A loaded car found delayed is immediately placed in a preferred class, through special carding and notation on waybill, and handled in fast freight trains to avoid further delay and, if possible, to overcome that already sustained.

We are continually adding to our equipment in the effort to keep abreast of traffic demands. We own 1,700 locomotives and 69,127 freight cars. Since the return from federal control we have purchased and received 150 locomotives, 1,000 refrigerator cars, 300 stock cars and 200 flat cars. We have recently placed orders for 2,000 additional gondola cars and 1,000 additional refrigerators.

We are striving constantly to perfect all departments of our service. We realize that our worth to the public is measured by the service we give, and we invite the public to call upon us for any service, small or large.

Constructive criticism and suggestions are invited.

C. H. MARKHAM, President, Illinois Central System.

BURGESS-NASH COMPANY.

"EVERYBODY'S STORE"

A Notion Sale That Is Different

"Three Articles for the Price of Two"

On Wednesday every purchase of three articles of a kind in notions will cost you the price of two—in other words, you may select three articles of a kind, but pay for only two.
