To freshen salt fish always remem-ber that you should place it in the water with the skin side up, the flesh side down. The salt then as it soaks out of the fish sinks to the bottom of the dish. If the skin side is down the salt soaks into the fish and is caught by the skin, and so there is as salty a taste as ever when the fish is cooked, for the salt has all collected in the skin.

Remember that smelts spoil more easily than most fish, and should, therefore, be kept most carefully. When you are cooking oysters in their shells always place them in a hold as much juice as possible.

### Date Pudding.

One-half pound dates, five egg whites, one cupful sugar, one pound nuts, three teaspoonfuls baking pow-Stone and chop dates; shell and shop nuts; beat the egg whites until stiff and dry; mix the baking powder with the egg whites and add the sugar; fold the chopped dates and nuts into the mixture; pour the mixture into a shallow baking tin and bake for 20 or 30 minutes.
