

U. P. Announces Further Cuts in Freight Rates

Reduction of 14 to 30 Per Cent Made in Charges on Certain Commodities From Omaha.

Further reductions in freight rates between Omaha and Pacific coast points were announced yesterday by F. W. Robinson, freight traffic manager, Union Pacific system.

Ground spices, in which business Omaha has a number of manufacturers, is given a reduction of 30 per cent from Omaha to all points on the coast.

Northwest Included. Iron and steel barrels, drums and kegs, also manufactured in Omaha in large quantities, were given a 15 per cent reduction both to north Pacific coast points as well as to California.

Glycerine, manufactured in South Omaha in large quantities, is given a reduction of 30 per cent under the new rates, the new rate being \$1 per hundred as against \$1.42, the former price.

Soda fountain supplies were given 25 per cent reduction from Omaha to the Pacific coast. Proportionate reductions will extend from points as far east as New York.

Benefits Candy Makers. The cut in carboard rates, as announced by Mr. Robinson, will affect Omaha in nut kernels, used in all the candy factories, ice cream factories, in the city.

As in the case of westbound rates, similar reductions are made in east-bound rates as far east as New York.

SLEEPY-TIME TALES THE TALE OF MASTER MEADOW MOUSE

CHAPTER XV. The Flood. "This means another move for me," said Master Meadow Mouse.

Fatty Coon had broken into the house in the shock of corn where Master Meadow Mouse had been living. And Master Meadow Mouse had fled.

Somehow he felt that a change of scene would be good for him. Although he had dwelt but a short time in the cornfield, he had no longer any desire to stay there. For Fatty Coon had given him a great fright.

"It seems as if I were always moving," Master Meadow Mouse mused. "It's lucky for me the world is wide. Thank goodness there's plenty of places left where I can go. I've tried the meadow, Farmer Green's woodpile, the tangle beside the pasture fence and the cornfield. And now—now let me see! I believe I'll settle along Black Creek, under the bank."

He was talking with Long Bill Wren, who had a nest in a marshy spot near the creek. "Oh, don't make yourself a home under the bank!" Long Bill cried. "The fall rains will come soon. The creek is sure to rise. And then where will you be?"

"I'll be in the water, I suppose," Master Meadow Mouse answered. "Correct!" said Long Bill Wren. "And you want to avoid that. Maybe you've noticed that my wife and I build our nest off the ground. We fasten it to the reeds so we'll be dry, no matter if there's a freshet in mid-summer."

"Ah!" Master Meadow Mouse exclaimed with a smile. "I see you don't like water as much as I do. The fall rains won't trouble me. If the creek rises as high as my house it will be all the more fun."

Long Bill Wren gave him an odd look. "You're a queer one," he remarked. "Anyhow, you can't say I didn't warn you. If there's a flood when the fall rains come, and you get drowned out, you can't say it's my fault."

"Certainly not!" cried Master Meadow Mouse. "And I thank you for your kind advice. But I'm not going to be drowned out. I can swim!"

Long Bill Wren shook his head. "I hope you'll escape," he said. "I shall not be here to know whether you do or not. For we're starting for the south tomorrow. But I hope to find you safe and sound next May, when I return." And then he went home, to tell his wife that Master Meadow Mouse was a very daring young fellow.

Master Meadow Mouse built himself a house under the bank of Black Creek. And later the rain fell heavily for several days and nights.

QUICK RELIEF FROM CONSTIPATION Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative. No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth"—bad breath—a dull, tired feeling—sick headache—torpid liver—constipation, you'll find quick, sure and pleasant results from one or two of Dr. Edwards' Olive Tablets at bedtime.

Thousands take them every night just to keep right. Try them, 10c and 25c.

Just as Long Bill Wren had expected. The creek rose fast. Yet Master Meadow Mouse didn't worry. When the water lapped at his doorway he only laughed. And when it caught at his house and bore it down stream Master Meadow Mouse held his fat sides and roared. The flood brought much rubbish with it. But Master Meadow Mouse saw nothing that took his fancy, until at last a floating board caught his eye.

Master Meadow Mouse swam out to it and scrambled upon it. "Hurrah!" he squeaked as the board carried him along with the current. "This is fine! I've got a raft. And I'll go a-traveling!"

In Indiana there is a law which makes it compulsory for drivers of all kinds of vehicles to make a complete stop at every railroad grade crossing before going over it.

NEVER FAILS TO BUILD ME UP, SHE SAYS

"Nothing on Earth Gives Me Strength and Energy Like Tanlac," Declares Lincoln Woman.

"Tanlac is my standby. I always keep it in the house and whenever I feel myself running down a little I take a few doses and it always builds me up again," said Mrs. Barbara Gallagher, 1000 Plum St., Lincoln, Neb.

"I first began taking Tanlac several years ago for rheumatism. At that time I had a severe attack both of muscular and inflammatory rheumatism."

"Tanlac restored me to health and I have never had an attack of rheumatism since and my general health has been excellent. However, at times I feel a little exhausted and tired and I find that nothing builds me up and gives me strength and energy like Tanlac."

Tanlac is sold in Omaha by the Sherman & McConnell Drug Co. and by leading druggists everywhere.

ADVERTISMENT HOW TO DARKEN GRAY HAIR

A Cincinnati Barber Tells How to Make a Remedy for Gray Hair.

A well known resident of Cincinnati, O., who has been a barber for more than 40 years, recently made the following statement:

"Anyone can prepare a simple mixture at home, at very little cost, that will darken gray hair, and make it soft and glossy. To a half-pint of water add one ounce bay rum, a small box of Barbo Compound and one-fourth ounce glycerine. These ingredients can be bought at any drug store at very little cost. Apply to the hair twice a week until the desired shade is obtained. This will make a gray-haired person look 20 years younger. It is easy to use, does not color the most delicate scalp, is not sticky or greasy and does not rub off."

ADVERTISMENT Pepsodent

There is a way to prettier teeth, and millions of people have found it. It consists in removing the dingy film. You see the results everywhere—on teeth you envy, maybe. And those glistening teeth are often one's premier attraction.

Now you may combat it. Dental science has long been seeking a daily film combatant. Now two effective methods have been found. Able authorities have proved them by many careful tests. Leading dentists, nearly all the world over, now advise their daily use.

Film clouds the teeth. Your teeth are coated with a viscous film. You can feel it with your tongue. It clings to teeth, enters crevices and stays. It forms the basis of dingy coats. The tooth brush used in old days does not end it, so nearly everyone has suffered from that film.

It is the film-coats that discolor, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acids. It holds the acids in contact with the teeth to cause decay. Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea. Thus most tooth troubles are now traced to film.

Now advised by leading dentists nearly all the world over. All druggists supply the large tubes.

dentifrice called Pepsodent which you are urged to test.

Multiples two forces Pepsodent brings two other effects which authorities now desire.

The saliva contains two great tooth-protecting forces. One is a starch digestant, to digest starch deposits on teeth. The other is alkali, to neutralize mouth acids, which attack the teeth.

These forces usually need frequent stimulation. Certain foods will stimulate them, but most people fail to eat these regularly.

Pepsodent, with every use, multiplies these tooth-protecting forces in the mouth. It largely increases the starch digestant and the alkali. Thus night and morning it gives these natural forces a multiplied effect.

That alone marks tremendous progress toward better tooth protection.

Watch the changes Present the coupon for a 10-Day Tube, then watch the delightful results. You will see at once that Pepsodent does what has not before been done.

Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear. The mouth, left in alkaline condition, also feels refreshing.

You will want these effects continued when you know how much they mean. Go get the free tube and see. Cut out the coupon now.
