

Ills of Business Due to Taxation, Kiwanians Told

Chicagoan, Speaking Here,
Says Assessors and Burglars
Look for Rich Man—
Calls System Unjust.

"There is nothing the matter with business except the unequal method of taxation," John Z. White, Chicago, declared before members of the Kiwanis club at Hotel Rome Friday noon.

"Taxation," he said, "is a business proposition, and should be levied from a purely business standpoint. There are 100,000,000 acres of land in the United States used for grazing, agriculture and forestry. One-fifth of all the people in the world are on that land and one-fourth of all the world's wealth is in this country. The land represents one-half the tangible property of the nation, the other half is made up of products of legalized institutions. The land pays one-fourth the taxes and the producing agencies pay three-fourths the taxes. Half the agricultural land and city lots stand vacant.

Saturday A Wonderful Showing of New Spring Merchandise

Complete Showing of Tailored Suits for Spring

The much ado about clever little gad-about suits of tweed has deprived the quiet, refined twills and tricotines, and picotines of the publicity they deserve. The pert cape that accompanies one of the tailleurs is a new fashionable conceit. Some jackets conceal a one-piece frock with contrast top of silk. All are attractive tailleurs—the tweeds in black and white, tan and white, heliotrope, and various blues; the others in black, navy and sand.
