Cattle—Receipts, 11,000 head. Supplies of cattle were even heavier today than Monday and the market ruled extremely dull at sharply lower prices. It was late before very much trading was done but the earlier sales on both beef steers and she stock was fully 25c lower and bids in many cases showed even more of a decline than that. It took strictly choice heavy beeves to bring $8.35. Stockers and feeders were also draggy at 10@35c lower prices.

Quotations on Cattle—Good to choice beeves, $7.75@8.25; fair to good beeves, $6.50@7.75; common to fair beeves, $4.35@6.45; good to choice yearlings, $7.75@8.50; fair to good yearlings, $7.00@7.75; common to fair yearlings, $6.25@7.00; good to choice heifers, $6.75@7.50; fair to good heifers, $5.25@6.75; choice to prime cows, $4.00@6.65; fair to choice cows, $3.50@4.00; fair to good cows, $3.00@3.50; common to fair cows, $2.50@3 ; good to choice feeders, $7.00@7.60; fair to good feeders, $6.25@7.00; common to fair feeders, $5.75@6.25; good to choice stockers, $6.75@7.40; fair to good stockers, $6.50@6.75; common to fair stockers, $6.00@6.50; stock heifers, $4.50@5.25; stock cows, $4.25@5.50; stock calves, $5.50@7.75; veal calves, $5.50@9.50; bulls, stags, etc., $3.50@5.25.

Chicago Grain

By CHARLES D. MICHAELS.
Omaha Bee Leased Wire.

Chicago, March 14.—Liquidation ran its course in grains and provisions at the opening. A bulge of 2 1-2@3 1-4c from the low point on wheat followed. Local sentiment generally was bearish, but the close was unchanged to 1 3-8c higher on wheat, May leading. Corn was 1-4 @1-2c higher, oats unchanged to 1-8c lower and rye 1 1-4c lower to 1-8c higher.

All deliveries of wheat sold at a new low on the present downturn, with the inside figures 14 1-2@18 5-8c under the recent high.

While the opening was weak, 1¼c under the previous close, there was very little selling on stop loss orders. Strong commission houses bought freely, absorbing the surplus in the pit. It took little buying to start values upward. The local traders were forced to cover. General covering up was in progress at the close.

Little Export Demand.

There was little in the export demand to attract attention until near the last. Then Toronto reported 2,500,000 bushels Manitobas worked abroad on Monday. Germany was said to have taken a carload at the seaboard. The unsettled foreign exchange market continues to restrict buying. The general run of news was rather bearish with favorable weather and crop report from the southwest. Milling demand showed improvement. Sales here were 60,000 bushels, receipts, 21 cars.

Weakness in Liverpool, where prices were 1d lower, had no effect, for a brief early period. Buenos Aires was off 1¼c at the opening, a decline in the exchange rate being a factor. Worlds available supplies decreased 832,000 bushels for the week. They are, however, 37,000,000 bushels in excess of this time last year. A European authority estimates that the world's carryover, at the end of the season, will be around 80,000,000 bushels.

Liberal Buying Orders.

Commission houses had liberal buying orders at 60c for May corn. They absorbed all the offerings at that figure. That checked the decline in May corn. The market seemed oversold. While there was little in the news to cause any aggressive buying, the finish was well toward the top. Cash grain gained ¼ @¾c as compared with May. Receipts were 122 cars; shipping sales, 75,000 bushels. Export business was reported. Country roads have broken up. Offerings to arrive were small.

Oats followed corn, but the bulk of the trade was in changing from May to the July. Shipping sales, 129,000 bushels, with receipts 78 cars.

Houses with northwestern connections were good sellers of rye. Duluth received 103 cars. Germany bought a cargo of July-August shipment at the seaboard the first new crop business so far this season. Commission houses sold futures rather freely.

Pit Notes.

Sir James Wilden, representing the United Kingdom at the International Institute of Agriculture at Rome, estimates that at the end of the season the world's carryover of wheat will be 80,000,000 bushels.

Seaboard exporters generally are talking very friendly on rye, and feel that 60 to 65c sales are fair and the prospective demand from Germany, Scandinavia and Russia will result in higher prices later. Norway has bought 1,000,000 bushels.

South African corn crop suffered considerable damage recently and the crop this year is estimated at 40 per cent less than the previous season.

Indian flax seed crop is estimated at 16,000,000 bushels this year compared with 10,200,000 bushels last season. Exportable surplus is 11,200,000 bushels, against 6,000,000 buahels last year and 10,000,000 bushels two years ago. New seed is commencing to move freely.

New York Sugar.

New York, March 14.—There was a decline of 1-16c in Cuban raw sugar prices today, spot declining to 2 1-4c or 3.86 equal to 3.86 and April to 2 5-16 cost and freight, equal to 3.92. Porto Ricos were quoted at 3.86. There were sales of 35,000 bags of Cuban in Port and 40,000 bags for April shipment, and nearly 100,000 bags of Porto Ricos for April shipment at quoted prices. There were also sales of 10,000 bags of cubas for May shipment at 3.98 and 102,000 bags of Philippines April-May at 4c.

Raw sugar futures were easier early in sympathy with the decline in the spot market. Prices at one time showed declines of 1 to 3 points, but offerings were light and on renewed buying by outside interests and some covering firmed up again, closing unchanged to 4 points net higher. May, 3.48; July, 3.87; September, 3.84; December, 3.89.

There was no change in refined sugar with fine granulated listed at 5.50, but the demand was less active.

In the refined futures there were sales of two lots of May at 5.35, or ten points above the previous close. Final prices were 5 lower to 20 higher. Closing May, 5.35; July, 5.90; September, 6.00.

Lard—Steady; middle west, $11.35@11.45.

Other articles unchanged.

New York Cotton.

New York, March 14.—The tone of the cotton market improved today as the session progressed. Early trading was narrowly gauged. In the first hours there was a heavy undertone, influenced by the more favorable weather in the belt. Another faction factor was the unsettlement of foreign exchange. Under pressure of liquidation March dropped 21 points, while other options were off only 2 to 14 points. There was recovery at midday. The last soon thereafter made new high levies for the day.

The level was up 7 to 54 points net in the last half hour. December at 15.54c was 54 points better than Monday's close. Final bids were within a point of the day's high.

Financial

The New York Times.
By ALEXANDER DANA NOYES.
Omaha Bee Leased Wire

New York, March 14.—In the markets whose prices had been falling rapidly on Monday, notably sterling exchange in wheat, the decline was checked today by what appeared to be strong buying. Meantime prices on the investment bond market did not yield and the stock market moved forward again, with active trading.

To some extent the strength of the day's markets was attributable to the continuance of easy money, in face of the immediately impending income tax collections. This is not a new experience, for the treasury and the banks, acting through the federal reserve, have now acquired the highest efficiency in financing these huge payments without commotion in the money market.

Money rates did not rise on the eve of March 15, even in the more unsettled market of a year ago. But they declined when the payments had been effected. In fact, that was actually the week when the downward readjustment of rates for time loans began. If we are to have still easier money this coming season, the next few weeks will very possibly give some evidence of it.

Rails Lead Advance.

Today's rising stock market attracted the more interest that the railway shares led the advance nearly a dozen of them moving up 1 to 2 points on a fairly large business.

There have been so many short lived movements of this sort that recovery in the railway stocks is apt to be regarded with skepticism. Still, there is reason to expect something more of encouragement in the forthcoming reports of earnings. In January the weekly average of gross earnings ranged from 15¾ to 24¼ per cent below 1921; in the first week of February the decrease of the reporting roads was 17¼ per cent and in the last week only 2¼. It is true that this would affect comparison with the present year.

But, on the other hand, the downward movement of gross railway revenue in February and March last year was clearly foreshadowed by rapid decline in weekly "car loadings," whereas last month's loadings were far in excess of those of January.

Sterling in Slump.

It is not to be forgotten that the question of rates, including the decision as to what rates are "fair," is now in the hands of the Interstate Commerce commission, which, of recent years, has displayed great easiness and judgment in its attitude.

In today's earliest trading sterling exchange declined to $4.27¾, the lowest rate since July, but this decline brought such strong buying into the market that before the close the rate had recovered 5½c to $4.33⅜, the highest price of the present week to date. Other European exchanges advanced with sterling, the exception being the German mark, which went to the lowest of the year. The wheat market moved almost precisely like the sterling market. A cash decline carried today's prices to the lowest in nearly five weeks; but from the $1.31¾ reached by May delivery a recovering to $1.34⅛ occurred, on what was described as the best kind of buying. Usually a turn of just the kind which occurred today in these two markets would mean that the reaction had run its course; the next day or two will show more clearly the character of the present position.

New York Bonds

(The Bee is the only Omaha Newspaper which publishes the official close of the New York stock exchange bonds.)

New York, March 14.—Responsive to the recovery in sterling exchange, British bonds rallied smartly in today's broad but comparatively light dealing.

United Kingdome of 1922 were the outstanding feature of that group. Continental, Japanese and Mexican bonds of various descriptions were irregular. The strongest feature of the domestic list was Reading 4s, which rose 2 points on the buying of railway stocks in the last half of the season.

Weakness was shown by Distillers 5s, which lost 2 points, and Peoria and Eastern incomes and Cuba cane 8s. Final prices for Liberty bonds were mainly a trifle lower.

Total sales, par value, aggregated $12,790,000.
