Problems That Perplex Answered by BEATRICE FAIRFAX

Dear Miss Fairfax: I am a girl taking my first year in a university. I have a great fault that I am very I have a great fault that I am very desirous of overcoming before I go to a strange school next year, where I am unacquainted, and I would appreciate it if you could tell me how to go about to correct it. I have sort of an aloofness that keeps me from mixing well with the other students, especially the ones I want to mix with. I once had a teacher who told me

ed with: he recognized that as one of my faults and that he did not to keep her from jumping the pasture like me at all until he had some fence. It was a heavy, clumsy thing special work to help me with and became acquainted with me. I do not mean to say that I have no friends—eventually I get plenty of them and they are good ones, but I cannot seem to get acquainted soon and be pals with all.

I am not bad looking (at least I do not think I am), and not extreme in any one thing, although I am very fond of athletics and dancing. I would sooner be shot than have a scrap with anyone.

Of course, there were others in the herd, like the little red cow and the big white one, that made disagreeable remarks. When they said unkind things to her the Muley Cow pretended that the poke didn't trouble her.

"Don't you know," she said to them

"Don't you know," she said to them one day, "that it's an honor to wear ing and boarding, thus making it impossible to invite many people to the house, so please do not suggest that for a remedy. Sincerely, A STRIVING STUDENT.

I think your difficulty is one that I think your difficulty is one that many young people experience—and outgrow. You will outgrow it, especially if you continue in school where you will become accustomed to meeting people. The best suggestion I can make to you is that you take a sympathetic interest in other people and forget yourself. Make yourself be agreeable, be truly unselfish and considerate of others. You probably expect people to come You probably expect people to come You probably expect people to come to you. Try going to them. Then, too, there is much wisdom in the thought, "Laugh and the world laughs with you." Dancing and athleties ought to be great help.

To Marcella.

The letter from Marcella, asking advice about marrying a man of different faith, has aroused considerable interest. Here is "more advice" for her from some one who signs himself "An interested reader."

Dear Miss Fairfax: As I am a reader of your column in The a reader of your column in The Bee I became interested in a letter written by Marcella, March 22, thus wear the poke because he doesn't am sending my view of her prob-In the first place, what under- from jumping, you'd soon have had

standing do we get from the scrip-tures if it is not that we should all the youngestly a find increase our brotherly love for our fellow citizens, and to cling to and light for right and justice for all? fight for right and justice for all?

Love is the key to higher ideals for mankind. As for the different creeds and faiths I would say there are only three orthodox ones, that is ones that should never come together: (1) Those who worship graven images, which also includes those who give up everything else for money and riches of this earth. (2) Those who worship their physical powers, trusting little in anything else. (3) Those who worship and fear of God.

Now, my advice to Marcella is to

thing else. (3) Those who worship and fear of God.

Now, my advice to Marcella is to first ask herself if she really loves. She must fully realize that there will be some hardships to face in life under any circumstances, and that they must both trust in Jehovah in everything in life. Second, she must find out before going farther as to the nature of this young man, whether he is of the dull-minded sort who has a quick temper and thinks what he don't know is not worth knowing. If he is of this type it will be hard for any woman to make her home happy with him, but on the other hand, if he measures up to these standards, she may be fully assured that her future will be full of happiness with him if he is kindiust, forgivable, broad-minded, eager to gain understanding, slow of temper and decisions in all things, faithful and true always.

It is my belief that brotherly love could do more for the people of this earth than anything else, and without it I say we cannot possibly be true followers of God.
