

Market, Financial and Industrial News of the Day

Live Stock

Receipts were light. Hogs, April 1. Official Monday... Official Tuesday... Official Wednesday...

Omaha Grain

Receipts of wheat were light at 17 cars, as compared with a heavy run last year of 62 cars. Corn and oats receipts were heavy, 87 cars of the former and 33 cars of the latter being reported in. Shipments were light, with the exception of corn, 79 cars of the cereal going out.

Chicago Grain

By CHARLES D. MICHAELS. Omaha Bee Leased Wire. Chicago, April 1.—Scattered liquidation was on in wheat early, and while there was a strong rally from the low point on week-end evening up and short covering, closing traders were at net losses of 1-2-7-8. May and September corn and May oats sold at a new low on the present downturn, but corn rallied sharply on buying by the seaboard and closed 1-4c higher. Oats were easy and 1-4-8c higher. Rye was off 1-4c.

Financial

The New York Times. By ALEXANDER DANA WOODS. Omaha Bee Leased Wire. New York, April 1.—The week closed in Wall street as it had opened, with the noteworthy movement of the strength of the bond market. Twenty or 30 separate bonds, mostly of the railway or industrial class, went to the year's highest price, which meant, with the majority of them, to the highest since the first half of 1919 or the last half of 1918. Comparisons of today's closing with those of the preceding Saturday show a net advance in the whole of 1-1/2 per cent.

New York Bonds

New York, April 1.—Strength was the outstanding characteristic of another week of offerings made here. The most significant feature was the ease with which the offerings were absorbed. The demand for Liberty was unusually large. All of the 4 1/2% made new tops and the 4 1/2% made new tops in importance was the steady rise of underlying, and especially western and southern, western issues.

Cattle—Receipts, 400 head. Most of the cattle received today were not on sale and the market was therefore steady. The week receipts have been very fair, about 2000 head, and at one time a considerable number of fat cattle were being higher but with the exception of a few, the market was quiet and steady. The advance was later wiped out and some of the receipts were being sold at a price lower than a week ago. Cattle and feeders have held about steady.

WHEAT. No. 2 hard winter: 1 car, \$1.25 (50 per cent); 1 car, 14 (100 per cent); \$1.25. No. 3 hard winter: 1 car, \$1.15. No. 4 hard winter: 1 car, \$1.15. No. 5 hard winter: 1 car, \$1.15 per cent.

Crop Reports Mixed. Crop reports from the southeast were mixed, and while a majority of the private returns indicated good conditions, there were reports of heavy growing damage in the East (Ohio) territory. Reports from the West were generally of a less favorable character. The trade here is a fair decrease in the wheat supply, Monday, but the preliminary statement as to the amount of wheat to be raised is a small increase in grain going to Europe.

General Markets Described. Today's grain dealings were quiet, for instance, cotton and foreign exchange—moved in a purely desultory way today. The market for wheat was quiet, with a few scattered transactions. The market for corn was quiet, with a few scattered transactions. The market for oats was quiet, with a few scattered transactions.

Business Man's Investment I offer \$12,500.00 of 10% Two-Year notes in denomination of \$500.00 each, the unpaid portion of an allotment of an issue that is to be sold at this time. These notes are secured by a first mortgage Trust Deed covering the property of the Standard Potash Co., located at Lakeside, Neb. The property alone cost over \$750,000.00 and the Trust Deed also includes the lease held by the Standard Potash Co., running for about forty-five years, covering 24,000 acres of land. On about 14,000 acres of this leased land there are strong indications of both oil and gas. A development company, backed by some of the strongest financial and best business men in Omaha, are now sinking an oil well on this property and have drilled up to this time down 2,700 feet, with the expectation of striking oil sand at about 3,300 feet. This paper, backed by the security, is a safe investment, owing to the fact that the junk value of the plant would be considerably more than the amount of the notes that will be sold at this time, and in case of development of oil and gas the holders of the notes will have the first opportunity to make further investments on developing this property. I will be glad to go over this matter with business men who believe in and are willing to take a chance for the development of oil in Nebraska. Will meet you by appointment, which you can make by addressing me care Standard Potash Co.'s office, 712 Omaha National Bank Building, Telephone JA cks on 0246, or at my office, JA cks on 2674, when I will give full particulars in regard to this matter. JOHN G. WOODWARD

Large jobbing firm in Omaha needs additional working capital and wants to borrow \$45,000 for five or ten years. Will give as security first mortgage on new plant and property on tractage valued at close to \$125,000. Address Box Y 1837 Omaha Bee for personal interview.
