Cattle—Receipts, 1,100 head. Packers all appeared to need a few cattle today to fill out their weekly kill and the limited supply of fat steers and cows sold readily at steady to strong prices. There was nothing extra good here. About half of the receipts were stockers and feeders most of which were not on sale. For the week beef steers are about steady, but yearlings and she stock mostly 25c higher and stockers and feeders strong to 15@25c higher.

Hogs—Receipts, 8,000 head. Early trade was mostly to shippers at prices ruling fully steady. Packers started bidding a shade lower but the market developed on a basis of fully steady to 10c spots strong. Light hogs sold from $10.00@10.10, with top price of $10.15. Mixed loads and butcher weights, $9.60@9.95, and packing grades, $9.25@9.75, with extreme heavies $8.75@9.20. Bulk of sales was $9.80@10.10.

Omaha Grain

Omaha, April 7.

Omaha receipts totaled only 76 cars, consisting of 16 cars of wheat, 36 cars corn, 18 cars of oats and 6 cars of rye and barley and compared with a total of 43 cars last year. Shipments of wheat were very heavy at 123 cars, destined principally to Chicago. Shipments of corn were also fairly heavy at 65 cars. Other grains were light.

The shipments of wheat from Argentina to European countries have been very heavy this year, aggregating 57,000,000 bushels since January 1 to date, as compared with 20,000,000 bushels last year, and their remaining surplus for export is estimated at 63,000,000 bushels.

A wire from Buenos Ayres says of the proposed German loan that $42,000,000 is to be spent for grain, part of which Germany plans to ship to Russia in exchange for raw materials.

There was a fair demand for cash wheat on the floor today and offerings were taken at about unchanged prices. Corn was in rather slow demand, the white selling at unchanged prices, while yellow and mixed sold ½@1c lower. Oats were generally unchanged. Rye was unchanged and barley was firm and unchanged.

Government Report.

Dun's Trade Review.

New York, April 7.—Dun's tomorrow will say:

"With recognition of the unsatisfactory phases which still prevail, the fact is nevertheless clear that the business revival is being extended. Close observers of conditions do not disregard the deleterious influence of present labor troubles nor the unsettling effects of readjustments, but a basis unmistakably exists for the statement that the scope of the recovery is widening. While uniformity of improvement is conspicuously lacking, irregularity of demand and prices is a natural concomitant of commercial recuperation, and its absence now would be surprising. The maintenance of a conservative policy in many quarters is more to be desired after the experience of the last two years, than a repetition of unwholesome inflation, and prudent action at this time affords a solid foundation for subsequent progress.

"That confidence has strengthened rather than lessened is indicated, and gains in actual transactions have exceeded expectations in some important industries."

Chicago Grain

By CHARLES D. MICHAELS.
Omaha Bee Leased Wire.

Chicago, April 7.—News surrounding the grain markets, although regarded as bearish, had evidently been well discounted, as breaks were not extensive and short lived and rallies met fair selling prices and held fairly at the last. The finish was at net gains of 1-2c to 3-4c on wheat, with September leading, while corn gained 1-8c to 3-8c, the latter on May. Oats were up 1-4@1-2c for the distant futures and May unchanged for the day, while rye soared 1-4c to 3-8c over the previous day's finish. Provisions were easy and 5c lower on lard and 5c to 7 1-2c off on short ribs, while pork gained 75c with only one trade.

Action of the wheat market was about what the trade expected prior to the issuance of a government crop report. Trading was of good volume, but mainly local within a narrow range. No one desired to extend their commitments to any extent. Good buying by commission houses was on around the inside $1.30 1-2 to $1.31 for May, and $1.18 3-4 to $1.19 for July and $1.12 1-2 for September. The close was around the intermediate figures.

In and Out Market.

In all it was an in and out market on the part of the local interests, with no large individual operations. One of the most significant features was the unexpectedly large exports from Argentina, 6,082,000 bushels, of which 1,800,000 bushels were for orders, compared with total exports of 4,192,000 bushels last year.

Lower Liverpool cables, spotted crop reports with the bulk of them showing improvement and purchases of 100,000 bushels at Omaha to come to Chicago were factors which attracted attention. Purchase of new crop futures against 2,000,000 bushels new No. 2 hard sold for export from half of August at 5c over July, c. i. f. Montreal, assisted in making a stronger close.

Corn and oats trading was small and local, with the undertone rather stronger than expected and the range of prices small, both closing around the top. In oats, changing by cash and elevator interests at 2¾c difference from May to July, was the feature, while in corn trading was without importance. Late seeding of oats and reports that parts of Kansas will reduce acreage 50 per cent, owing to lateness, were the main strengthening factor for September.

Rye was sold by Duluth holders, who also sold cash lots at May price, c. i. f. Buffalo, while there were large purchases of May by seaboard exporters, which made a net gain of ⅝c to ½c.

Pit Notes.

A winter wheat crop of 572,000,000 bushels is suggested by the government crop report, issued late today, which is about what the trade expected, being intermediate between the highest and lowest of the private estimates. In April, last year, the estimate was 621,000,000 bushels and final harvest 587,000,000 bushels.

The estimate is based on the average estimated abandonment of acreage and influence on the crop from now until harvest. Condition of 78.4 was 2.4 points above last December and compares with 91 last year and a 10-year average of 84.3. Conditions in states east of the Missouri, which were highest in December, show 2 to 6 points lower this month, although Illinois shows no change. In the southwest where conditions were lowest last fall there have been gains of 5 to 15 points.

Individual sales in wheat on the bulges were bought back on the quiet of the dips. Leading interests are bearish on wheat. A few in the trade have it that the market will turn for the better on Tuesday. This is given for what it is worth. There is an apparent accumulation of July and September wheat by strong interests, while May is being depressed by constant reports of wheat moving from the Missouri river to Chicago. So far 1,950,000 bushels is understood to have been bought and 85 cars are enroute from Kansas City for the Armour Grain company.

E. P. Leland & Co.'s Minneapolis office wired:

"Our July wheat is beginning to show considerable strength. Yesterday there was noticeable selling of May and buying of July. As our stocks are decreasing fairly rapidly and very little wheat can be brought here from other markets and the last opportunity that the mills will have to get spring wheat before the new crop, make me think our July wheat will be a very tight future. Think it a purchase against sale of Chicago September."

"The Modern Miller said:

"More growing weather is awaited in important areas of the southwest to determine amount of wheat that will be left standing for harvest. Stooling is backward. Progress fairly satisfactory in central and eastern portions of Kansas."

Boston Wool.

Boston, April 7.—The Commercial Bulletin tomorrow will say:

"The demand for wool, while varied in its scope, has been small in volume, fabrics are about steady at the decline noted last week of 5 to 10 per cent high level. The trade is waiting for the tariff to be settled still, and the belief is common that some compromise will be effected between the house and senate measures.

"The situation at the mills is very discouraging for the moment. Demand for goods is small and irregular and the strike situation is worse instead of better. Sale of about 1,000,000 pounds of wool is reported from Arizona at about $1 clean landed basis."

The Commercial Bulletin tomorrow will publish wool prices as follows:

Wisconsin half-blood, 36@37c; 3-8-blood, 35¼c; blood, 34c.

Scoured basis:

Texas, fine 12 months, $1.05; fine 8 months, 90c.

California: Northern, $1.05; middle county, 95c; southern, 80c.

Oregon: Eastern No. 1 staple, $1.05@1.10; fine and fine medium combing, $1.00; eastern clothing, 85c; valley No. 1, 80c.

Territory: Fine staple or choice, $1.05@1.10; half-blood combing 95c@$1.00; 3-8-blood combing, 75c; quarter-blood combing, 62@65c.

Pulled: Delaine, $1.05; A. A., 95c; A. Supers, 80@90.

Montana: Best combing, 24@27c; best carding, 23@26c.

New York Sugar.

New York, April 7.—The raw sugar market was easier, but the demand was light and no sales were reported. Cuban are offered at 2.7-16c, cost and freight, equal to 4.04c for centrifugal, for April shipment and at 2¼c, cost and freight, equal to 4.11c for May.

Raw sugar futures were easier under realizing and scattered liquidation by commission houses, owing to the lower ruling of the spot market. At the lowest prices showed declines of 4 to 7 points, although there was a partial rally near the close on covering. Final quotations were 3 to 6 points net lower; May, 2.53; July, 2.72c; September, 2.89c; December, 2.94c.

The market for refined was unchanged at 5.35c to 5.50c for fine granulated, but the demand was less active.

Refined futures were without transactions. Closing: May, 5.85c; July, 6.10c; September, 6.25c.

Chicago Potatoes.

Chicago, April 7.—Potatoes—Weak; receipts, 43 cars; total United States shipments, 507; Wisconsin sacked round whites, $1.50@1.60 cwt.; Minnesota sacked round whites, $1.40@1.50 cwt.; Minnesota sacked early Ohios sandland, $1.00@1.15 cwt.; Idaho sacked rurals, $1.50@1.60 cwt.; Idaho sacked Russets, $1.70@1.75 cwt.

New York Produce.

New York, April 7.—Butter—Firmer; creamery, higher than extras, 33¼@36c; creamery extras, 35c; firsts, 33@34½c.

Eggs—Irregular.

Cheese—Unsettled; state whole milk flats, fresh specials, 18¼@19½c; state whole milk twins, fresh specials, 18½c.

Financial

The New York Times.

By ALEXANDER DANA NOYES.
Omaha Bee Leased Wire.

New York, April 7.—For the fifth consecutive time this week, transactions on the stock market passed 1,000,000 shares, no such instance of a week marked by such transactions on every full business day having occurred since May, 1920, when the New York Stock exchange was suddenly confronted with the first shock of comprehension that a great business reaction was impending.

Along with this continued activity prices advanced again though with still more irregularity of scope on the day's net changes. A few industrial stocks rose one to four points, but more of the changes in that group were only fractional and there were some declines. Railway shares, on the other hand, were notably strong, advances of a point or more occurring in half a dozen of the active stocks.

Bond Market Strong.

There was no halt to the general forward movement of the bond market. Nearly all of the liberty bonds went to the highest of the year. Among foreign government loans an interesting incident of the day was an advance of 1¼ points in the new Czecho-Slovakian 8s above the subscription price.

Among railway bonds there were several rather striking forward movements, perhaps because the imagination of investors had been touched by the northern Pacific protected and unusual refunding announcement. It was hardly a year ago that this company and the Great Northern, confronted with near maturity of $215,000,000, 4 per cents, leased them in 1905 on the Burlington and Quincy property, sold $250,000,000 of new 6½ per cents at 96½.

Yet so rapidly and completely has the investment situation changed during the intervening 12 months that the Northern Pacific is now seeking authority to exercise its option, under the loan contract, of redeeming at 103½ such of these bonds as are still outstanding; the market now being such that a 5 per cent loan can be issued to replace them. It would be difficult to get a more dramatic sidelight on the reversal of conditions since last April.
