

## Omahans Should Observe Arbor Day, Says Mayor

Nebraskans Ought to Feel Proud of Harding's Proclamation for Event, Asserts Dahlman.

Mayor J. C. Dahlman and Superintendent J. H. Beveridge of the public schools desire to arouse interest in the golden anniversary of Arbor day, Saturday, April 22.

The mayor believes that Omahans and Nebraskans should be proud that President Harding has issued a proclamation asking for nationwide observance of the day, which was established in Nebraska by a Nebraskaan.

**Urges Planting of Trees.** "Let us all express the spirit of the day by planting trees and shrubbery," said the mayor. "We may observe the occasion by planting and cultivating flowers, by beautifying our yards. Plant a rose bush, if not a tree. Our state will be brought to the attention of millions of school children and elders on Arbor day this year. Let us not be backward in observing this golden anniversary."

When the public schools are reopened next Monday, principals will receive from Superintendent Beveridge circulars reading: "Will you please arrange for appropriate exercises for Arbor day? We will leave this entirely in your hands, but are asking that you be certain that

some exercises are held in every room in your building."

**School to Observe Day.** Arbor day will be observed at Miller Park school on Friday, April 21, according to Alice D. Orr, principal. The "21 club" of this school will have charge of the exercises. Three years ago the Mothers' circle of this school planted 12 trees on the school ground in honor of 12 pupils of the school who were in service during the world war. These heroes and their mothers will be invited to attend the Arbor day program.

Commissioner J. B. Hummel of the park department said he will observe this event by planting many trees and shrubs.

## Husband Wants Erring Wife; Child to Stay

Archie J. Lambert, Zimmerman, Minn., whose wife ran away with Edward Herbert Russ, salesman, two years ago, is to take the woman back. This solution of the "hypnotic triangle" was reached yesterday. The unnamed child, born to Russ and Mrs. Lambert, is to remain in Omaha in charge of a welfare organization.

Russ agreed yesterday afternoon to borrow enough money to defray the railroad fare of Mrs. Lambert back to her husband.

## Postoffice to Have Bureau for Tourists' Information

The central postoffice will be broadened into an information bureau for tourists and travelers, under orders received from Washington. A supply of road maps and time tables will be kept on hand. Travelers are to be kept posted on conditions of roads, on points of interest in the city and the like.

## Police Take Five Alleged Members of Begging Ring

Fireman Amusing Self With Binoculars Sees Money Divided in Hotel Room—Calls Cops.

How the war and chance led to the capture of five men yesterday for investigation on a charge of having fraudulently begged \$1,000, largely along Omaha's motor row, was told last night by detectives.

From the war came a pair of powerful binoculars, C. E. Urban, fireman at Station No. 1, has them and at odd moments sits in a window and looks off to the east, sometimes through the windows of the Windsor hotel, Tenth and Jackson streets.

**Saw Money Divided.** When he looked yesterday he says he saw four men dividing a large roll of currency in a room in the hotel. He notified city detectives and the men were soon arrested, Charles Hyatt and Robert Dunlap, firemen, assisting.

Andrew Trapp, detective, estimated last night that contributions to the quintet totaled not less than \$1,000. Forty-one firms along motor row (Farnam street) contributed sums up to \$6.50 each. In some instances the five men are said to have duped physicians, several names on the donating list having the letters "M. D." written after them.

## Settlement of Light Rate Fight Expected

Aurora, Neb., April 7.—(Special.)—Litigation between the city of Aurora and the Public Service company apparently has reached a stage where the city will accept the following proposals of the company, submitted to the council:

Reduction of the lighting rate permanently to the 1916 ordinance rate as demanded by the city.

Reduction of high rates from 70 cents to 60 cents.

Discount heat bills 10 per cent instead of 5 per cent and reduce the rates should the price of coal decline.

Reduce price of current for power 5 per cent with every 50 cents decline in the price of coal.

If this agreement is entered into, the suit now pending in federal court, to which it was appealed by the Public Service company, will be dismissed.

**Safe Milk.** For Infants & Invalids NO COOKING. The "Food-Drink" for All Ages. Quick Lunch at Home, Office, and Fountains. Ask for HORLICK'S. Avoid Imitations & Substitutes.

## The Dawn of a New Day

*ALL progress depends on the success of the farming and live stock industry in the vast region covered by The Omaha Bee. A half century of up-building service in Nebraska and adjoining states has built an enduring prestige for this paper among its reader friends.*

For 50 years the paramount policy of The Bee has been the upbuilding of the state. It has championed every cause whose aim was the development of the state's natural resources, the betterment of social conditions, the reform of political policies. Its good influence has long been felt over all the west.

The Bee stands today as ever—the staunch advocate of a bigger and better Nebraska, the champion of the state's most vital interests, the herald of prosperity and good cheer.

In the center of the richest farming region in the world, The Bee many years ago recognized the fact that the prosperity of the state was, as it is today, predicated upon the prosperity of

the farmer and stockraiser. It was the first powerful champion the farmer had, waging relentless warfare upon selfish interests which deprived the farmer of the fruits of his toil.

Today The Bee horoscope reveals the approach of an unparalleled era of progress and prosperity. It is committed to the task of fostering every effort to promote the commerce and industries of the state. There are big things in store for our city and state. The Bee's constructive policy will continue to be a strong factor in the development of the resources of the country which gave it existence.

In short, The Bee today is living up to the best traditions of the past.

## Effective Fashions for Men's Easter Dress

*Hart, Schaffner & Marx and Other Good Makes*

## Men, Why Not Prepare Tomorrow for the Big Easter Parade

FASHION is always true to itself as an art in grooming a man with refinement, distinction, individuality, quality and good taste. When your apparel does not do that, it is not fashion, but a misdirected subterfuge. Our clothes are developed up to the highest fashion ideals—the styles, the textures, the patterns and the method of coordinating them into the finished garment. Such suits and topcoats greet you here, now, in this extensive Easter display.

THE SUITS are of fine tweeds, chevots, soft and hard finished worsteds, cassimeres, homespun, flannels, gabardines and serges, in new sport effects or semi-conservative sack coats, single or double breasted. Very handsome patternings.

THE TOPCOATS are in new polo treatments with sport embellishments of belts, yokes, pleats and novelty pockets and cuffs. Also raglan effects and conservative dresscoats. Many are silk lined. Most of them are of waterproofed fabrics. Beautifully tailored.

**\$25, \$30, \$35, \$40, \$45, \$50 to \$65**

Spring is dress-up time. Easter is the deadline before which you are expected to provide those dress-up essentials—a Spring hat, new gloves, a jaunty cane and the other factors that characterize a well-groomed man.

**Stetson Easter Special \$7.00**
