

THE OMAHA BEE

MORNING-EVENING-SUNDAY. THE BEE PUBLISHING COMPANY. MEMBER OF THE ASSOCIATED PRESS.

BE TELEPHONES. Private Branch Exchange. Department of Person Wanted. AT 1212.

A Party Deserted. From Lincoln comes news of strange things being done or attempted in Nebraska politics.

These are the moves of the actors on the stage. But who writes the lines? Who pulls the wires that shift the scenes?

It is not by chance that these things happen. Not by chance is Mr. Bryan caressed at the very moment that third party leaders are attempting to make this ambitious organization a mere tail to the democratic donkey.

"Batter Up! Let's Go!" Open season on grandmothers, and other calamities that overtake office boys, begins today.

Communism in Army and Navy. Aiming at no particular organization, Secretaries Weeks and Denby have broadcasted a warning to army and navy against what they denominate "insidious propaganda."

Clean-Up Week in Omaha. Having set about the annual job of removing the accumulated debris of winter from the premises, Omaha should see to it that the job is a thorough one.

Et Tu, Chicago. Citizens of Chicago maintain a bureau of public efficiency which is carefully scrutinizing what happens to the money contributed to the municipal treasury.

However, only 37 cents of the Omaha tax dollar goes to education, while Chicago spends 40 cents. The need for persistent and consistent scrutiny and criticism of board policies and methods by an impartial body intelligently interested in getting the best results from the educational system is emphasized by the Chicago editor.

Peace in Europe. First day's proceedings at Genoa imply that Lloyd George is going to be kept busy pouring oil on the troubled waters.

Peace in Europe depends on the recognition of certain outstanding facts. France and Belgium expect to be indemnified for losses sustained during the war.

Germany, according to all accounts, is busy; factories are working overtime, output is sold months ahead, and dealers contract on the basis of the American dollar.

Restoration of Russia involves something more than the opening of the country to external communication. Industry must be built from the ground up, and this will take a longer time than it does in France.

Omaha has plenty of wealth, you know. And the folks spend their money to make it grow.

AN APRIL ROMANCE. Skies may be gray, things out of tune, And Time may seem a picaroon.

SAYING IT WITH SIGNS. At Twenty-ninth and Leavenworth: "We Make Our Own Furs."

AFTER-THOUGHT: April is saying it with showers. "Yesbutters." We found a new word in a little magazine a few days ago that appealed to us.

THE HUSKING BEE - It's Your Day - Start It With a Laugh

FRONT PAGE STUFF. Far and wide through the nation There's a feeling that is tense.

PHILO-SOPHY. The man who kicks the hardest on a poor exhibition is the guy who gets in on a pass.

WITH SIGHS IMMENSE. A great big, fat girl will, No doubt, Admit that she's a tri-Fle stout.

TODAY'S IDLE THOUGHT. Ancient cavemen were a rough, uncouth lot, but they never beamed the umpire with a pop bottle.

THEM SLOGANS. The results of our recently inaugurated epigram contest have proven beyond the shadow of a dispute that Omahans have a strangle hold on the Anglo-Saxon tongue.

TALK OMAHA. "Omaha—Acme of Opportunity." "Omaha Has—A Home for You—A Job for You—A Fortune for You! Try Omaha First."

Omaha is not the largest city in the West, But when it comes to doing things, we think it is the best.

AN APRIL ROMANCE. To W. T. M. Skies may be gray, things out of tune, And Time may seem a picaroon.

SAYING IT WITH SIGNS. At Twenty-ninth and Leavenworth: "We Make Our Own Furs."

Somebody should tell John Bath's driver that HE is the "careful florist."

Yesbutters. We found a new word in a little magazine a few days ago that appealed to us.

AFTER-THOUGHT: April is saying it with showers. "Yesbutters."

How to Keep Well

By DR. W. A. EVANS. Questions concerning hygiene, sanitation and prevention of disease, submitted to Dr. Evans by readers of The Bee, will be answered personally, subject to space limitations. Address letters in care of The Bee.

PROHIBITION IN 30 YEARS. Even the most skeptical are convinced William Allen White was right when he said that it takes a people about 30 years to get on to the water wagon.

BETTER BE VACCINATED. "They will change cars at Kansas City and will be there a few hours. Should they be vaccinated again before they love?"

SO IT MUST BE ALL RIGHT. S. R. writes: "Kindly let me know if it is dangerous for children, aged 9 and 10 years, to wear woolen socks in the winter, the knees being exposed."

WHILE THERE'S LIFE. Deaths from automobiles increased 13 per cent in 1921 over 1920. Practice makes perfect.—LIFE.

Very careful comparisons show that if the death rate of total abstainers was set at 100, that of non-abstainers was 132. When it was argued that the relatively low death rate of the abstainers was due to occupation or to temperance in other directions, Dr. Porter of the Mutual Life and Dr. Lounsbury studied that question.

Very close examination as to the effect of the quantity of alcohol used by these moderate users on the death rates was made.

A study by Dr. Fisher of the Northwestern showed: Total abstainers, 100; moderate (that is, occasional) users, 119; daily users of beer, 133; daily users of spirits, 168.

The figures furnished by the medico-actuarial investigation were: Conservative daily users, 118; liberal free users, 186.

A long time ago Austie said that a drinker was a good insurance risk so long as he kept below a daily dose of one and a half ounces of alcohol.

There appears to be no limit within which alcohol may be entirely harmless. The damage persists as long as the use of alcohol has been discontinued.

When you talk Omaha you are talking Dollars and Sense.

Century via the water level route. FOLLOWING the water level route of the New York Central lines between Chicago and New York, the Twentieth Century Limited is known among travelers as the most comfortable long-distance, fast train in the world.

Rock Island '21 Report Shows \$5,780,259 Dividend Chicago, April 11.—The Chicago, Rock Island & Pacific Railway company in its annual report for the year ending December 31, 1921, made public today, showed a balance of income available for dividends of \$5,780,259.22, of which \$3,567,695 was applied to the payment of full dividends on the preferred stock.

Women Equals of Men; Should Take Same Marriage Vows New York, April 11.—Women in the United States are, in nearly all respects, the equal of men, and therefore the promises and vows of the man and woman at marriage should be reciprocal.

Better Do Vaccinated. "They will change cars at Kansas City and will be there a few hours. Should they be vaccinated again before they love?"

So It Must Be All Right. S. R. writes: "Kindly let me know if it is dangerous for children, aged 9 and 10 years, to wear woolen socks in the winter, the knees being exposed."

Contains No Alum Leaves No Bitter Taste. Send for New Royal Cook Book—It's FREE. Royal Baking Powder Co., 130 William St., New York

Inviting vs. Accepting Banking Business

In earlier days the banking institution held aloof from the daily life of commerce—a place to which the merchant came, hat in hand, and his business was ACCEPTED or not accepted.

Today, every up-to-date, progressive bank realizes that its own well being and growth hinges on the extent of its usefulness to the business life of the community. It INVITES business.

Just as every merchant is eager for as large a volume of trade as his establishment can properly handle, so are we eager for the banking business of reputable merchants, manufacturers and individuals, to the limit of our ability to care for it—and we INVITE it.

Our Officers cordially welcome conference on any banking questions. The Corn Exchange Nat'l Bank "The Bank With an Interest in YOU" 1503 Farnam Street

Is the Exhaust Pipe of Your Auto Attached to Your Pocketbook?

Motorists lose thousands of dollars each year by using such heavy gasoline that much of it fails to explode and goes out the exhaust in the form of gasoline vapor.

A GOOD gasoline has complete and uniform explosion, the last drop is as good as the first and ALL of it explodes and NONE goes out the exhaust—a good gasoline is a straight-run gasoline.

Blitzen and Vulcan are good gasolines. Nicholas Oil Corporation "Business Is Good, Thank You"
