My Marriage Problems

Adele Garrison's New Phase of "REVELATIONS OF A WIFE"

"Katie!" I hesitated after the name for the nearer came my task of persuading my little maid that her oath was not one to be kept, the more doubtful I felt of the outcome.

"Den dot all right," she said, genuine relief flashing into her eyes. "I go tell me Mees Underwood. Not all," she amended hastily, "but some things. But you to ask her nothing, she tell you nothing, you promise dot?"

"Of course, Katie," I agreed readily, but I had hard work to keep my piqued astonishment from betraying itself. Why my little maid, upon whose absolute devotion to me and confidence in me I had always felt assured, should prefer to give her revelation to Lillian instead of myself was a mystery indeed.

There's a difference in Flour—Therefore

WHICH flour would you choose for your bread? Fancy short patent? Of course. So have the makers of BETSY ROSS.

The grade of flour used in bread is left entirely to the baker's conscience, with the result that bread may be made from inferior grades—costing \$1.50 to \$3.00 less than the best—and masqueraded as being of the finest quality.

BETSY ROSS standards demand a full measure of the finest grade, short patent flour, with the result that this loaf is supreme in quality, flavor, texture, color and food value. And at its price, BETSY ROSS is the cheapest food you can buy.

The best way to make sure of the highest standard flour in bread is to say BETSY ROSS to your grocer.
