

### Firemen Engaged in Filling Cistern as Alarm Came

Department to Be Relieved of Task as Result of Delay in Squelching Blaze in Nurses' Home.

Fire caused \$5,000 damage in the nurses' home at Presbyterian hospital, 1248 South Tenth street, yesterday morning while fire fighters and equipment from Station No. 16, two blocks from the scene of the fire, were filling a cistern at 2505 South Eighth street.

Apparatus and men from Station No. 1, Eleventh and Jackson streets, succeeded in putting out the flames in 45 minutes.

Two nurses, Miss Elsie Speas and Miss Hannah Benson, were asleep on the third floor when the fire was detected. Miss Speas fled to the

second floor, then remembered that she had left her clothing. She returned to the third floor and got her clothes just as a part of the roof caved in.

As a result of the delay in responding to the fire call from the nurses' home the practice of the fire department filling cisterns will be discontinued.

City Commissioner H. B. Zimman brought the matter to the attention of the board of directors of the Metropolitan Utilities district yesterday afternoon and it was agreed that Omaha has outgrown this practice.

"It will be impossible for the fire department to continue this service and I believe it is the duty of the water department to fill cisterns in

districts where there is no city water service," said Mr. Zimman.

For years it has been the custom to pay a fee of \$1 at the water office, receive a permit, which is taken to the fire office, and then a detail of firemen would be assigned to fill the cistern.

General Manager R. B. Howell of the water department concurred in Mr. Zimman's opinion. It was agreed that Mr. Howell and Mr. Zimman

will confer on a plan. Mr. Howell stated that it is probable that his department will charge for cistern service on the basis of time necessary.

**Skinner-Dold Suit Ready for Briefing After Month**

The Skinner-Dold case is ready for briefing, after more than a month of testimony-taking, it was announced yesterday, on the return

of a party of attorneys from Chicago and Buffalo, where evidence also was gathered.

Arguments will be made soon to B. H. Dunham, special master in chancery. He will decide whether the contract by which Dold interests obtained possession of the former Skinner plant is to be abrogated.

**Truman E. Stevens Named Refinite Company Receiver**

Truman E. Stevens, a Director, was named receiver for the Refinite company in bankruptcy proceedings by Federal Judge Woodrough, yesterday. Stevens was formerly in the potash industry.

Kodak finishing by experts, in our own studios. All finishing left before 12:30 is ready same day at 4 p. m. Finishing left before 4 p. m. ready the next day at noon.

Burgess-Nash—Main Floor

**MOTHS!**

Unlike their butterfly cousins, moths are not endowed by nature with a beautiful naiment. Perhaps this explains their fondness for apparel and especially for furs. Moths, however, are lawless little creatures—they do not stop with admiration of fine clothing, but proceed to its complete appropriation. In consequence, one must take up arms against them and wage a continuous warfare.

Cold is the strong weapon which moths are unable to resist, and you can use this weapon from now until autumn by placing your fur or cloth garments and your fur rugs in our cold storage vaults. Entrust them to us and you will be relieved of anxiety over moths, and in addition need no longer consider the dangers of fire and theft.

Before your furs and winter garments are hung in their places they will be thoroughly blown with compressed air, re-modeled if you direct, and then after a cold summer will be in fine condition when you want them for next season.

Special cleaning or repairing which your furs may require will, on request, be done during the summer before August 1st at rates less than those charged during the winter season.

Telephone Douglas 2100, and our messenger will call. Out-of-town patrons may use insured parcel post or prepaid express.
