

MORNING-EVENING-SUNDAY. THE BEE PUBLISHING COMPANY. MEMBER OF THE ASSOCIATED PRESS.

The circulation of The Omaha Bee for March, 1922. Daily Average 71,775. Sunday Average 78,365.

Meaning of Genoa Conference. Hope for the Genoa conference has been revived by the statement of leaders that a way has been found to prevent its collapse.

Germany and Russia are outsiders; they seek protection and strength in union. Whether the Treaty of Rapallo be considered an alliance or not, it will be accepted as evidence of intention on part of the signers to act together in matters affecting either at Genoa.

What About Public Safety? A dangerous criminal has a second time escaped from custody in Illinois, and the chief of police in Chicago advises the public when assailed by this man to quietly submit to being robbed, as he certainly will stay if resisted.

Conan Doyle's Heaven. Most folks, nurtured on the vision of John in Patmos, will smile at the picture of heaven presented by Conan Doyle. It seems fantastic, yet it is not so grotesque, after all.

Another Hughes' Success. Secretary Hughes scores again. From Paris and from London he has received assurance that the equity of the American claim in the matter of maintenance costs for the Rhine army will not be disputed.

Rail and Water Rates Compared. In outlining its reasons for supporting the Great-Lakes-St. Lawrence waterways project, the Associated Industries of Massachusetts tabulated certain data as to transportation costs by water and by rail.

Pilgrims of Trade. The Omaha trade excursion will go further this year than last, from Carroll and Sac City, Ia., to O'Neill, Neb., and Winner, S. D.

Enough Farmers Now. There is always a certain amount of pressure from well-meaning back-to-the-landers for the opening up of new deserts and swamps for settlement. At present these propagandists do not receive much attention, and they should not.

A Discreet Man. Mayor Couzens of Detroit, it is announced, will shun the senatorial race in Michigan. No one can possibly blame him, considering what Mr. Newberry showed the world about Michigan senatorial races.—Chicago News.

THE TWO TWILIGHTS. There are two twilights: Of the night and of the dawn. To those who 'neath an evil star were born. This is not known. To them, each dim half-light. Can nothing mean but the approach of night.

Announcement Extraordinary. By a fortunate purchase from a manufacturer who needed cash we are able to offer to the people of Omaha and vicinity a brand new, full size, 88-note, fully guaranteed Piano—complete with bench, scarf and rolls—in assorted woods—at the unheard of price of \$359.00.

When a Reform Runs Wild. The statement issued by First Assistant Postmaster General John H. Bartlett on the higher reaches of civil service reform loses none of its force from the fact that he was formerly president of the United States Civil Service Commission.

How to Keep Well. Questions concerning hygiene, sanitation and prevention of disease, submitted to Dr. Evans by readers of The Bee, will be answered personally, subject to proper limitation, where a stamped, addressed envelope is enclosed. Dr. Evans will not make diagnosis or prescribe for individual diseases. Address letters in care of The Bee.

MEASLES PROTECTION. In their great work on epidemiology Vaughan and Palmer prove the impossibility of controlling an epidemic of measles in an army. But the evidence by which they prove their point helps to prove that, under the condition of life in a civilian population, measles can be controlled.

Congressmen in Training. For anything because of God. Fit for a Fine Physical Director. (From the Washington Star.) Members of congress can go into the campaign they are facing with unusual vigor and vitality, for, as the Washington Star says, the type of congressman being developed—by exercise, ventilation and food.

About the Navy Bill. A thoroughly mixed-up affair is that of the naval appropriations bill. As the partisan dust settles it appears that the republican representatives have been approximately evenly divided on this bill, and only a record vote will show where the democrats stand.

MEASLES PROTECTION. In their great work on epidemiology Vaughan and Palmer prove the impossibility of controlling an epidemic of measles in an army. But the evidence by which they prove their point helps to prove that, under the condition of life in a civilian population, measles can be controlled.
