

Gross Wealth of Farmers in 1921 Third Below '20

Value of Products Totals \$12,366,000,000, or Little More Than Half Value of Output in 1919.

Washington, April 21.—The gross wealth produced by farmers in 1921 had a value of \$12,366,000,000, or about two-thirds of the aggregate value of the farm products of 1920, and little more than one-half the aggregate for 1919, the Department of Agriculture estimated today.

Four crops of 1921 together had a value greater than one-half of the total value of all crops for that year. Corn was valued at \$1,303,000,000, or 10.5 per cent of the total; hay and forage, \$1,165,000,000, or 9.4 per cent; cotton lint and seed, \$755,000,000, or 6.1 per cent; wheat, \$737,000,000, or 6.0 per cent; and the four crops, \$3,960,000,000, or 32.1 per cent.

Several groups of crops are prominent in the department added, the cereal \$2,563,000,000, or 20.7 per cent of the crop total. The vegetable, including potatoes and sweet potatoes, \$1,104,000,000, or 8.9 per cent; fruits and fruit products, \$525,000,000, or 4.3 per cent; and fruits and vegetables together \$1,629,000,000 or 13.2 per cent.

Of the total value of animal products in 1921, the dairy products were nearly one-half, \$2,410,000,000, or 19.5 per cent; the animal raised \$1,937,000,000, or 15.7 per cent, and the poultry, food and eggs produced \$945,000,000, or 7.7 per cent.

\$20,000,000 Involved in Gould Family Court Row

Represented by the largest array of brilliant legal talent ever engaged in a property fight, George Jay Gould, opposed by his sisters, Anna (Duchess de Talleyrand) and Helen, and his brother, Frank J. Edwin and Howard, locked horns in the New York supreme court before Justice Delehanty in a finish fight for their respective shares in the \$100,000,000 estate of their father, the late Jay Gould.

Although the amount in question before Justice Delehanty was the comparatively small one of \$645,000, it was brought in by William H. Johnson. But Officer Davis refused to fondle the remains of the pests and says that job will be up to the mayor because it's his contest.

This week the city street cleaning department wagons hauled off all garbage and refuse free of charge for residents.

Huge Ape Slain in Death Battle With Zoo Keeper

Policeman Fires Bullet Into Brain of Animal to Save Life of Man—Bomb Hurling Into Home.

Toledo, O., April 21.—Tony, mammoth ape, whose mimics had long entertained crowds at Walbridge park, is dead. He was killed by a policeman after he had attacked Louis Scherer, chief of the zoo, and badly injured him in a terrific battle.

Swinging from a trapeze, Tony leaped upon the keeper, sinking his fangs into his flesh and clawing him with his forepaws. After the battle had continued several minutes a policeman sent a bullet through Tony's skull.

Formerly, Tony toured the country in vaudeville, but in later years he became unmanageable and was placed in the zoo. On two previous occasions he attacked keepers, injuring one of them severely.

Bomb Hurling Into Home. San Francisco, Cal., April 21.—Police were investigating today the explosion of a bomb disguised as a stick of firewood which last night buried itself in a fireplace in a home in the Richmond district here, narrowly missing Mrs. C. E. Pierce, who sat by the hearth. The charged log crashed through a window.

Mrs. Pierce's husband had found the log, which looked innocent enough in his wood pile. Police said it had been stuffed cleverly with some explosive.

Mr. and Mrs. Pierce could assign no motive for an effort to harm them. The authorities, however, were inquiring into the possibility that the bomb might have been intended for the couple's son, Wilbur F. Pierce, an attorney, who recently defended 17-year-old Henry Heuer, charged with the murder of Manuel Cabral. Heuer was acquitted. The attorney does not live with his parents.

Scores Injured in Oil Explosions

Twelve Seriously Hurt in Blast at Stations Near Los Angeles.

Downey, Cal., April 21.—Twelve people were seriously hurt and scores were slightly injured here when two explosions followed in rapid sequence, shattering buildings and windows, throwing debris in many directions and severely damaging adjacent structures.

The first explosion was that of the underground tanks of an oil station at Fourth and Crawford streets. The second explosion was that of an oil truck, which happened to be near the station at the instant of the first blast.

Because of the smallness of Downey, a town 15 miles southeast of Los Angeles, the Los Angeles police and fire departments were unable to cope with the situation. Calls for aid were sent to the sheriff's office and automobiles loaded with deputies were hurried out, followed by ambulances.

Dr. C. E. Stanley, in charge of the local hospital, said 15 persons had been treated at his institution, of whom 12 were seriously hurt, but that none of them would die. He said that there appeared to be a great many cases of persons having been thrown to the ground by the shock of the explosion, struck by flying fragments and, according to their reports, hurled bodily through the air.

Fremont, Neb., April 21.—(Special.)—John A. Carlson, Omaha contractor, is fighting for \$1,050 damages from Lew Spath, Scribner, in district court here following an automobile accident near the Scribner baseball park in June, 1921.

Spath asserts that Carlson was watching the ball game. Instead of the road and was traveling on the wrong side of the highway. In a counter-claim, Spath asks \$300 damages to pay for damage to his car.

Mix a thick paste with some powdered delatone and water and spread on hairy surface. After 2 or 3 minutes rub it off, wash the skin and every trace of hair has vanished. No burn or inconvenience results from this treatment, but be careful to get genuine delatone and mix fresh.
