

Irish Soldier Stops Speech of Michael Collins

Armed Officer Says Speech Will Not Be Allowed Until Shooting of Soldier Explained.

Belfast, April 22.—(By A. P.)—Michael Collins, upon his arrival this afternoon at Killarney to deliver an address, was met outside the depot by an Irish republican army officer, armed with a revolver, who warned him he would not be allowed to speak until an incident at Listolow, County Kerry, where the officer alleged one of his men was fired at, had been cleared up.

Mr. Collins, who was accompanied by Commandant Gen. John McKeown, proceeded into town, where upon the Irish republican army officer ordered the troops occupying the railroad hotel to surround the platform at the market place where Mr. Collins was to speak. A number of men in uniform carrying rifles and bayonets rushed out of the building from which a man carrying a machine gun also emerged.

Gen. McKeown, when he heard the order, said that as an Irish soldier he claimed the right to go through Ireland and would not be deterred. The Irish republican officer, however, appeared excited and determined. To a priest who endeavored to dissuade him in his purpose, he replied that he would not allow the meeting to be held and called his men to follow up the order he had given.

Gold to Pave Streets in Colorado Springs

Colorado Springs, Colo., April 22.—Streets in this city will be literally paved with gold, according to an announcement made by Russell H. Kimball, engineer for the company in charge of the city's paving program.

Dust from the dumps of a nearby mill will be used in the paving operations here instead of stone dust, according to Mr. Kimball. As the dust, or "slime," as it is more commonly called, is from gold ore, it necessarily will contain gold, the engineer said.

Continental, New Noonday Club, Elects Officers

Officers for the Continental club for the year beginning May 1 are: R. M. Switzer, president; A. E. Burf, vice president; Paul E. Sturges, secretary; Perry Hendricks, treasurer. These officers and the following comprise the new board of directors, elected Friday noon at the Strand restaurant: Frank Martin, Dr. Delmar, L. Davis and E. W. Byrn.

Los Angeles Woman, 85, Charged With Bigamy

Los Angeles, April 22.—Mrs. Alice Parker, who gave her age as 85, was arrested yesterday and placed in the county jail, charged with bigamy. The complaint was made by Philip La Tiz, who told the district attorney that he was married to the defendant in 1918 and that he had learned she had married Nathan E. Parker in 1921.

Germany Recall Woodrow Wilson's Fourteen Points

Application for Patent Is Made Basis of Lament on Alleged Perfidy.

Berlin, April 22.—"Wilson fourteen points" was the proposed trademark under which an applicant the other day sought to register an article of merchandise with the imperial patent office. The application was denied on the ground that such a parody of former President Wilson's peace program was "politically objectionable."

Moreover, the patent office in a statement to the applicant elaborately set forth the history of the 14 points, declaring: "The enemy, by deliberately ignoring them, basely deceived Germany and brought the country to the brink of ruin."

The mere mention of Wilson's 14 points brings a blush of shame to the cheek of every honest American and arouses abhorrence and indignation in all true Germans.

Einstein Remarks Kindnesses of French

Dr. Albert Einstein, discoverer of the theory of relativity, returned from Paris full of appreciation of the friendly reception he received here. He said none of the French scientists attempted to assume an attitude of victor and that they were fully agreed that a continuance of artificial repression of international scientific relations was most undesirable.

The question of war guilt was still troubling many minds, said Dr. Einstein, but a frank exchange of views between leading scientists of good will and open minds should succeed in bridging the remaining divergencies of opinion.

Rights of Child Held Above Those of Parents.

The rights of the child are above those of parents, who must renounce their effete patriarchal notions regarding parental authority and enter wholeheartedly into the life and studies of their offspring, co-operating with and complementing, not curbing, the labors of teachers. This is one of the tenets promulgated by the social democratic teacher's congress which met in Hamburg.

The congress unanimously adopted a resolution providing that teachers must instill socialistic ideas in the juvenile mind and show a united and firm front against reactionary tendencies. The congress called upon the government to introduce immediately legislation providing for further secularization of state schools.

The question which has become bitterly controversial during the past few months is becoming more acute and the Catholic clergy is endeavoring to repeal what they call a fresh onslaught against denominational teachings.

Heroic Measures Are Taken Against Burglars.

The extraordinary increase in the number of daring warehouse burglaries recently has led to the adoption of ingenious counter measures. Whole business blocks in Berlin, by joint arrangement, have placed all their tenants in the care of special squads of night watchmen, with an elaborate system of army signals keeping the watchmen in continuous communication with each other.

It is claimed that these new methods insure complete immunity for burglary. Nobody can leave his premises unexpectedly or surreptitiously, whether over the roof or through the wall, so complete are the signaling devices. Last year there were 53,000 burglaries in Berlin, as compared with 600 20 years ago.

The city's 5,000 streets are divided into 90 precincts and each is patrolled every night by four squads of patrolmen, but, owing to the great distance to be covered, no building has been under continuous control. The cost of the new safety service is relatively high, but it is considered the risk warrants the outlay, which is shared by all of the firms occupying the same block.

The picturesque town of Quedlinburg, in the northern Harz mountains, is holding the celebration of its founding tomorrow. Quedlinburg has been conspicuous throughout German history and legend, and is known particularly as the birthplace of the famous German poet and savant, Friedrich Gottlieb Klopstock, in 1724.

The cathedral there contains the tomb of Henry the Fowler, founder of the old German empire.

Tree Planted in Memory of South High Teacher

A tree was planted on the campus of South High school Friday afternoon to the memory of Miss Sadie Fowler, dean of girls, who died December 19.

The ceremony, attended by the student body, followed memorial services in her honor in the auditorium of the school under auspices of the Science club.

Miss Helen Nightengale sang a solo. Margaret White gave an appreciation from the student body for the work of Miss Fowler. Miss Myrtle Graham, former student and fellow teacher of Miss Fowler, paid tribute to her character.

Guenn Fowler, nephew of the dead teacher, represented the family at the services.

Spring Exodus to Europe at Maximum; 4,000 Sail

New York, April 22.—The spring exodus to Europe reached its maximum today with the departure of approximately 4,000 passengers booked to sail on six transatlantic liners.

The Olympic, largest of the outgoing fleet, had about 2,000 travelers. The 600 in the first cabin including Elinor Glynn, novelist; Prince Mohamed Ali Ibrahim, nephew of the khedive of Egypt; Tito Ruffo, singer, and Mr. and Mrs. Frederick W. Vanderbilt.

The cabins of the Touraine, the Cedric, the Finland, the President Pierce and the Araguaya also were crowded with socially prominent persons.

Chauffeur Battles Man He Says Stole Beef From Truck

Sidney Gordon, 23, 112 South Thirty-fifth street, driver for the Food Center, 1814 Farnam, hadn't been bringing home the bacon, and it worried him.

Watching his delivery car closely yesterday, he saw Walter Whitlow, Tenth street and Capitol avenue, take 30 pounds of beef off his delivery wagon and run, he told the police.

Gordon and Whitlow, who carried the beef in a sack, battled seven blocks through busy streets in the neighborhood of Fourteenth and Farnam before policemen arrested Whitlow and charged him with petit larceny.

To Investigate Verdict.

Chicago, April 22.—Recommendation of a coroner's jury that a confessed slayer be released because he was "intoxicated and therefore not criminally responsible" will be investigated today, a coroner's spokesman announced. The verdict of the jury returned yesterday, recommended release of Fritz Mennshausen, who signed affidavits acknowledging the slaying of Mrs. Anna Peters.

"The law makes no allowance for intoxication in killings," said Coroner Hoffman, "so this verdict easily becomes the most astonishing any coroner's jury ever brought in during my period in office."

English Prince Quits Tokio.

Tokio, April 22.—(By A. P.)—The prince of Wales said farewell to Tokio today, leaving for Yokohama on the special train provided for his use while in Japan.

At Yokohama the royal visitor officiated at the unveiling on the bluff of the allied war memorial erected by the foreign residents of the city in honor of the men from the foreign communities in Japan who fell during the war. The memorial is in the form of a granite gateway to the foreign cemetery, with appropriately inscribed bronze tablets.

London Expects 200,000 U. S. Tourists at \$1,000 Each

Inaugurate "Brighter London" Campaign in Hopes of Keeping American Dollars Heretofore Spent in Paris—Ready to Receive the May Vanguard of Visitors.

London, April 22.—Europe's spring cleaning for the annual invasion of thousands of American tourists is completed and England is ready for the May vanguard of transatlantic visitors. Whether tourists will come in the expected numbers is a matter of speculation.

Steamship agents are optimistic, but American officials here believe that the combination of the "hard times" in the home land and the desire to see America first will curtail traveling abroad.

The estimates, however, range from 50,000 to 200,000 American tourists for the season and at a minimum of \$1,000 apiece for the trip will be welcomed as a material aid in the much discussed rehabilitation of financially distressed Europe.

In previous years England has been too much tooled and transfer point between New York and Paris and the continent, but because of the "Brighter London" campaign it is hoped that the money-spending contingent will stay longer in the British Isles.

The British Spa federation has appealed to the railway authorities for cheaper fares in order to meet the competition of the continental resorts. England is unusually anxious to welcome visitors, for its political household is infinitely better than in recent years and the people from overseas will no longer be able to ask such embarrassing questions about Ireland, Egypt and India as formerly.

Princess Mary and Husband Keeping House. Since Thursday, when they returned from a visit with the king and queen at Windsor castle, Princess Mary and Viscount Lascelles have been housekeeping in their town house just off Park Lane. It was there that Col. House was quartered when he was a guest of the government.

Mary has begun in earnest the duties of running a large London house, but did not spend the first evening at the home fireside for, with her husband, she occupied the royal box at Drury Lane theater. One of the first functions at Mary's home will be a private housewarming.

American Radio Craze Spreads to England. America's radio craze has hit England, but is expected to be handled differently here, where government control over wireless is exerted. The big radio companies will rent, instead of sell. Several broadcasting stations are to be erected throughout the British Isles.

Society and Titled People Figure Largely in a Portion of the Divorce List for the Easter term published today. It contains 440 cases. Among the cross-petitions asking a decree of judicial separation is one brought by Lady Du Cros and her husband, Sir Arthur Du Cros, M. P. Lady Du Cros obtained a decree of restitution in April, 1921.

Lady Spicer seeks a divorce from Sir Howard Spicer. She obtained a decree of restitution last May. The list contains many cases held over from the last term, including Viscountess Rhonda's suit for restitution against Sir Humphrey Mackworth, Lady Huntington's divorce suit against Sir C. P. Huntington and Lady Belper's suit for divorce against Lord Belper. Lady Belper obtained a decree of restitution in July.

H Per Cent Cut in Second Bids on City Sewers

Officials Believe Action in Rejecting First Offers Justified by Bids Opened Friday.

City Commissioner Joseph Koutsky, in charge of the department of public improvements, and Herman Beal, city engineer, believe their recent action in rejecting various sewer bids has been justified.

New bids opened Friday sustained Mr. Koutsky's opinion that the bids opened a few weeks ago were too high. On the occasion of the opening of the first bids the commissioner asserted his belief that there had been collusion among some of the large sewer contractors and he offered estimates of the city engineering department to show that the work could be done for considerably less than the low bids offered.

Mr. Koutsky threatened to go before the city council and ask for approval of a plan that the city go into the sewer business on its own account if the contractors did not bid reasonably near the estimates of the city engineering department.

A specific case is offered to show the result of the re-advertising. One of the sewer districts extends from Eighteenth and F streets to Thirtieth and J streets, the specifications calling for a structure of a storm water sewer from four feet to five feet, six inches in diameter. The low bid at the first opening on brick and concrete construction was \$51,306, offered by James Jensen. The low bid offered yesterday for the same work was \$45,740, by Russell Condon, a difference of \$5,566, which is a reduction of 11 per cent from the first low bid.
