Russ Delegates Peevish at Delay on Part of Allies

English Proposals Would Require Russia Acknowledge All Obligations, Favor Cut in War Debt.

Genoa, April 29.—(By A. P.)— Foreign Minister Tchitcherin of Rusis today sent Premier Facts of Italy, as president of the economic conference, a note expressing the dissatisfaction of the Russian delega-tion with the delay in reply to its note of April 20, and saying the note would be withdrawn and the Rus-sians would resume their initial posi-tion unless they were assured that the credits necessary to restore Rus-sia would be granted.

Genoa, April 29.—(By A. P.)—In line with Prime Minister Lloyd George's declaration that the new allied proposals to the Russians must be considered as a whole, a special drafting committee was endeavoring today to frame a document which would harmonize the differences in the demands submitted by the Bri-tish and French delegations.

The preamble was completed last

The preamble was completed last night and the Graft was expected to be ready for submission to the full subcommittee on Russian affairs, scheduled to meet today.

While the French document states that "agricultural reconstruction should come before other things," the British program dealt more fully with credits for Russia, favoring a reduction in her war debt favoring a reduction in her war debt and conceding that foreigners for-merly owning property in Russia be granted the use of it instead of a return of actual ownership, which would conflict with the soviet prin-ciple of nationalization.

In their desire to have the allied nations pay back the money which they borrowed from the United States during the war, the American people some times forget that some of these allies, particularly Great Britain and France, the two largest debtors of the United States, dug down to lend money to other hard pressed allies during the conflict. Great Britain loaned a total of \$9. 465,336,000 to the allies-a sum most as large as that owed the United States by the foreign nations. To Russia and France Great Britain loaned in excess of \$2,700,000,000 each, and to Italy in excess of \$2,-300,000,000. France also was a gencrous lender, with a total of \$2,717,-888,500, more than \$1,000,000,000 of which went to Russia. These obligations, according to the latest in-formation available here, have not yet been "funded" and occupy a position similar to those held by the United States.
