# Rail Labor Men **Bolt Hearing on** Wage Dispute

Executive Heads Quit Meeting of Labor Board When Evidence on Behalf of Public Is Given.

By The Assectated Press. Chicago, April 29.—Although executive heads of the railroad employes bolted from the wage hearing at which outside organizations were allowed to present evidence on behalf of the public, it failed to stop the presentation of the industrial side of the dispute in which the National Industrial Traffic league asked the United States railroad labor board to throw out all controversy and revert the matter back to the employes and

the corporations. The railroad men refused to sit in the hearing when J. H. Libby attempted to introduce the shipper's views. Frank P. Walsh, attorney for the employes, presented a protest to the labor board in which he said the employes are not going to be placed in the position of being drawn into another hearing.

The employees also presented a brief

another hearing.

The employes also presented a briet to the board in which they protested the bringing in of outside parties not interested in the dispute. The whole controversy hinged around whether the board had the right to bring in outside witnesses.

In ruling that the outsiders had a light to interest the controversy.

right to intervene, not as a party to the dispute, but as an outsider, Ben G. Hooper, chairman of the board, said: "The board holds that these parties cannot intervene here as parties to the dispute because the stat-ute does not authorize it, but the board has the power to hear such evidence if it so desires, without obligating itself to do so at other hearings. The board has in this instance not gone out of its way and asked these men to appear here."

The railroad men walked out following the decision of Chairman

Railroad labor has been a preferred class receiving wages "out of harmony to those paid to comparative
employment in commercial industries," John F. Burchmore of the National Industrial Traffic league, declared at the wage hearing. Mr.
Burchmore also said the labor board
should set aside all wage orders and
decision not in force and discondecision not in force and discon-tinue 'the present so-called hearings." If disputes have arisen, he said,

stitute hearings properly conducted." The case grew from the request of carriers for authority to reduce wages of railroad labor approximately 10 per cent and to include maintenance of way men, shop crafts, dining car em-

ployes, signal men, dispatchers and telegraphers in the reduction.
"It is common knowledge," Mr. Burchmore said, "that railroad labor in many instances has been a prefer-red class, receiving wages out of har-mony to those paid to comparative employment in commercial industries and it is neither right nor to the pub-lic interest."
