Saturday--Splendid Values in

Sport Skirts

For Women and Misses
Unusual Values at

3.95

There is the greatest variety offered in this group. Many are manufacturers' samples and but one or two of a kind. It is hard to say whether it's the lovely spring colorings, among them rose, French blue and beige, the charm of

rough, shaggy homespuns and tweeds, the dashing plaids and stripes of the prunellas, or the smart slashing of pockets that make the chief attraction of these skirts. And perhaps not least among the attractions is their very low price.

Afternoon and Street Frocks

For Women and Misses
Reduced From 19.00 to 35.00 **17.00**

The character of this dress offering is far beyond what would be expected from the price marking. The predominating material is Canton with some smart Krepe Knits in sport styles. Many of the lighter colors--periwinkle, lavender and jade--are elaborately beaded, while simpler styles are shown in street shades of navy, black, henna and beige. These are especially good values.
