Farmers' Fair Held at State University

Lincoln, May 6. — (Special.) — Students at the state agricultural col-lege, surrounded by papas, mammas, sisters and brothers by the hundreds, held their annual Farmers' fair on the

### An Open Letter to Albert Cahn

Dear Al:

I am not quite sure, but I think you were the first man in Omaha to sign up as a Pantorium customer when we started in business August 15th, 1898. At least, you were our first landlord, for we started in your building at 14th and Farnam.

During all the intervening years you have stayed with us constantly, and what a satisfaction it is to feel that we can hold the confidence of such men as you!

Do you know, "father," that I've always envied you your ability to play so many different games. There isn't a man in Omaha who excels in so many games as you. You play an excellent game of billards, you are a fine golfer, play a good game of cards, and are also a fight fan, baseball fan and a regular patron of clean sports.

And here is the beauty of it: You get fun out of them all, it's PLAY to you, while many fellows of our age, who did not learn to play when young, make work of their pleasure. Look at most of the golfers of fifty—they make the hardest kind of work out of it, while you and I extract a world of pleasure out of every game, no matter whether we win or lose.

MORAL: Learn to play when young.

The present generation does not realize the advantages they have today, what with Playgrounds, Athletic Fields, Swimming Pools, Golf Courses, etc., they will have no excuse for not knowing how to play and, when the time comes to retire from active business, have something to occupy their leisure hours.

Well, Al, more skill to your eye and arm for another quarter of a century. So long-see you at five o'clock.

Luy Liggett

P. S.=Al, did you know we had reduced the price for cleaning men's suits to \$1.50? That ought to bring in the biz, hadn't it?

Druggists Guarantee First Pint Bottle of Allenrhu to Show the Way to Complete Recovery.

Mr. James H. Allen of Congress Ave-ue, Rochester, N. Y., suffered for years with rheumatism. Many times this ter-ible disease left him helpless and unrible disease left him helpless and unable to work.

He finally decided, after years of ceasuless study, that no one can be free from rheumatism until the accumulated impurities, commonly called uric acid deposits, are dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.
