

RADIO Future of Radio Offers Big Field Wireless Telephony Is Not Passing Fancy, Say Elec- trical Experts.

What will be the future of the radiophone? Will the game last? Or is it just another fad? That remains to be seen. It is true that besides being romantic, radio is practical, and for that reason if no other, it will not only last, but will improve to the point where radio reception will reach a perfection far beyond the ordinary telephone of today. The equipment will be improved as the radiophone grows older until the voice will come through the ether as clearly as the voice of one's wife calling from the porch to bring out the children's overalls, one radiophone expert writes.

Factories Enlarged.
Radio will lean toward the farm. The time will come when the farmer will be physically aided in his work by radio, a recent article in the "suburban states." He will be able to hear market and weather reports and learn news that pertains to his calling as quickly as the newspapers get their information.

If radio were a fad, would large manufacturers of wireless apparatus enlarge their buildings and increase their output as they have in the past six months? As long as there will be broadcasting stations throughout the country to transmit news, concert and market reports, the radio fever will keep its high pitch.

Pilot Flying in Blizzard Breaks Own Speed Record

Mail Flyer Reaches Omaha From Cheyenne, 475 Miles, in 2 Hours, 57 Minutes.

H. O. SMITH MAIL FLYER.

Riding his mail plane 10,000 feet from the earth through a blizzard and sandstorm, Pilot Harry G. Smith Thursday broke his own flight record from Cheyenne to Omaha. His plane reached a speed of 174 miles an hour, according to James T. King, manager of the Omaha air mail station, and the 475-mile trip was made in two hours and 57 minutes.

This lowers by eight minutes Smith's previous record of three hours and five minutes.

Smith left Cheyenne at 11:54 Thursday morning, arrived at North Platte at 1:10, where he had to transfer mail; left at 2:59 and arrived at Omaha at 4:49 Thursday afternoon, according to Manager King's figures.

"If he hadn't been compelled to land at North Platte to exchange some mail," said Manager King, "Smith probably would have shattered the non-stop flight record between Cheyenne and Omaha."

"We received good weather reports from the west Thursday morning, but every half hour after that we were notified the wind velocity had increased 10 miles until it attained a speed of 50 miles an hour at Cheyenne."

"There it was accompanied by a severe blizzard, while at North Platte a sand storm was raging."

"Smith said he could not see the field at North Platte because of the sand storm, but he landed all right, because he is an exceptional pilot."

Losses Valuable Time.
"When he took off there for Omaha he had to circle the field several times to head into the wind, and then he had to mount to the altitude of 10,000 feet, all of which took valuable time from his record-breaking flight."

Smith has been on the Cheyenne-Omaha division almost since its inauguration, Manager King said. He also has flown on the Salt Lake and the Rock Springs divisions. He flies east from Cheyenne Thursdays and returns from Omaha Fridays.

He is married and lives at Cheyenne, where a small baby recently arrived to brighten his home.

Business Follows War Finance Aid

Excellent Reports Coming in of Better Conditions in Farm Sections.

Washington, May 12.—(Special Telegram.)—The War Finance corporation announced yesterday that from the period from May 8 to May 10 it has made 61 advances for agricultural and live stock purposes, aggregating \$3,033,000. Of this sum \$47,000 was advanced in Nebraska. The excellent results following the advances heretofore made by the War Finance corporation continue to demonstrate the wisdom of the policy adopted. Excellent reports are coming in daily of better conditions in the farming sections of the country.

Bearing on the same subject, a prominent official of the Northwestern railroad told the correspondent of The Bee that for the first week in May the road did more business than it had done in the corresponding period of 1920, which was the banner year in volume of business. This is in spite of the fact that the road is not carrying coal on account of the strike and the shipments of iron ore have not commenced, owing to the lateness with which the lake navigation is opening.

Much of the business consisted of automobiles, on their way to agricultural sections of the country.

Boy Finds Complete Still Half Buried in Dump Pile

While playing with some boys at Twentieth and Pierce streets yesterday, Joe Barone, 12, 1314 South Twenty-fourth street, found a complete still in good condition half buried in a dump pile. With Joe Bruno, 14, 1024 South Twenty-first street, he called police, who took the still to Central police station and now are seeking its owner.

Omaha Man Held for Trial for Staplehurst Robbery

Seward, Neb., May 12.—Thomas Burns of Omaha, held in connection with the Staplehurst bank robbery, appeared before County Judge Beck for a preliminary hearing and was bound over to the district court in the sum of \$10,000.

Call Letters Given All Sending Stations

Licensed radiophone broadcasting stations listed to date by the Amateur Radio Director will appear in the radio columns of The Bee daily. Additions will be made as licenses are given out. Following are the first that appear in the list:

Call Location.
IXAD—Pawtucket, R. I. Thomas Giblin.
JA—Jersey City, N. J. Jersey Television.
KJ—Deal Beach, N. J. American T. and T. company.
LH—Schenectady, N. Y. Westinghouse.
MA—Newark, N. J. Westinghouse.
PH—Philadelphia, T. F. Z. Howlette.
The call letters of other licensed broadcasting stations will appear in The Bee tomorrow.

Person who have been entertained from the station built at Roselle Park, N. J., are wondering why the station is now silent. As has been announced, this station (WDY) is being held in reserve, should anything happen temporarily to the Newark, N. J., station.

Spring Blizzards Abating in West

South Dakota Towns Inundated After Heavy Precipitation of Snow and Sleet.

Deadwood, S. D., May 12.—The sleet and snow storm that held sway in the northern Black hills for the last two days was abated last night after the heavy precipitation caused several rivers to reach flood stages and inundated the towns of Spearfish and Bellefourche. No lives were lost.

Spearfish suffered heavy property damage when the flour mill's dam broke, causing lead water to rush through the city, demolishing a large ice house and livery barn. Bellefourche was partly under water early today. Many bridges were washed out and a number of barns and frame buildings were carried away in the flood waters.

Storms in West Abate.
Denver, Colo., May 12.—Storms which swept the Rocky mountain states Wednesday night and virtually all day Thursday, apparently had subsided last night. From Wyoming and Colorado points which had passed through what was declared to have been one of the worst spring blizzards in years, came reports of lower temperatures, moderated winds and a cessation of the snowfall, which had given rise to apprehension on the part of the fruit and sheep growers.

At Cheyenne the storm had abated almost completely.

Stockholders of Loan Body Name Secretary

Plattsmouth, Neb., May 12. (Special)—At the call of the state banking board, over 300 stockholders of the Livingston Loan and Building association met at the district court room here to consider future action. Directors of the association and state banking board have been conducting an audit of the books of Ex-Secretary C. G. Fricke, and certain discrepancies were discovered which resulted in his retirement and the appointment of F. E. Schalter as temporary secretary.

At the meeting it was pointed out that Mr. Fricke had placed all his property, as well as an unlimited

QUESTIONS

L. K. H., Beaver City, Neb.
Q.—Will you please let me know how I am to know the resistance of receivers, or must I take the maker's word for it?
A.—You may generally take the maker's word for it that the receivers are just what he says they are. You will find it quite hard to actually test out for the resistance. The best way is to buy standard models that are made and advertised by some well known manufacturer.

G. T. D., Nebraska City, Neb.

Dr. Edwards' Olive Tablets at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, gripping cathartics are derived from Dr. Edwards' Olive Tablets without gripping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 15c and 30c.

Telephone to Mother

Mother's Day—Sunday, May 14th

How Mother rejoices at each thoughtful little act from you! Don't forget her on Mother's Day!

Send her your voice by "Long Distance" and add to her happiness—She won't be with you always.

Station-to-station service from 8:30 p. m. to midnight about one-half the day rate; from midnight to 4:30 a. m. about one-fourth. Why not try it?

The station-to-station rate, which is considerably lower than for person-to-person service, applies when you tell "Long Distance" you will talk to "anyone" at the telephone called.

Mother will be expecting to hear from you on Mother's Day—Don't disappoint her!

NORTHWESTERN BELL TELEPHONE COMPANY
