You can make very effective trimming for baskets, cushions, etc., with ball trimming. Get the white ball trimming by the yard. Dye the balls any bright colors you wish. Group them in an embroidered or appliqued basket as shown in the illustration. Add an embroidered or appliqued leaf here and there. The result is most unusual and striking. Ball trimming will be found very useful for many decorative purposes—and it is so inexpensive.

The tariff bill will pass and become law. A majority of seven million American voters at the last national election sanctioned it. It is to be hoped they knew of the added cost to the necessities of life it entails. Therefore let us cheerfully put up with these advances when they appear.
