

### Californian Goes to Confessional, Then Kills Man

#### 53-Year-Old Husband Calls Police to Body of Man He Said Paid Attention to Wife, Kills Self.

San Diego, Cal., May 15.—John Moller, 53, went to confessional at the Church of Our Lady of Guadalupe here yesterday. Leaving the priest, Rev. John Koma, Moller telephoned the police. The police said Moller told them he had killed a man and directed them to the body. When the police reached the spot described, they found the body of Edward Dixon, 55, of Imperial Valley. He had been shot through the heart. Nearby was the body of Moller, who had returned to the scene to end his life.

#### Youth Found Slain.

Oklmulgee, Okla., May 15.—The body of Russell Eldred, scion of one of Oklahoma's oldest families, was found today in the Eldred residence here by a real estate agent who had gone to open the house in preparation for the return of Mrs. F. B. Eldred, the boy's mother, who is expected to return from Pennsylvania. Police say he had been dead about a month.

#### Baby Hurt in Runaway

Wymore, Neb., May 15.—(Special.)—A runaway horse threw E. S. Phillips and his wife and baby out of the buggy. The child suffered three broken ribs and is thought to be injured internally. Mr. and Mrs. Phillips were not seriously injured.

### RADIO Amplifier Tube Is Most Delicate

#### Special Care Must Be Given Radiotrons in Wiring, Says Expert.

Probably the most delicate device of a radio set is the vacuum tube—a puzzling piece of apparatus to many. Various types of tubes are used for just as many different kinds of operation as the detector tube and amplifier are used for receiving while the more sensitive tubes are used for transmitting.

#### Cost Is High.

The U. V. 202 is a 5-watt transmitting tube, and the U. V. 203 is a 50-watt transmitter. The largest type is known as U. V. 204 and is rated at 250 watts. This type is known also as a P tube and is the one that is universally used by the broadcasting stations. A station such as WJZ (Newark, N. J.) uses five of these large tubes which retail at \$110 each. Amateurs may consider themselves lucky, therefore, in paying only \$5 for detector tubes.

#### Care in Wiring.

In the installation of a vacuum tube, these things must be remembered: In the first place, a tube has four contacts that must be connected up correctly or it will not operate. By examining a socket that comes for a tube, it will be seen there are four binding posts. These are

marked G, P, F, F. The G stands for the grid, P for the plate and the two marked F mean that these are the points for the connection of the filament. As the tube fits into what is known as a bayonet socket, it will be found that it cannot be put in incorrectly, but the beginner will have to be very careful to see that the binding posts are connected up right. If a vacuum tube is used with care and connected into the circuit correctly it should last for several years.

### SPARKS

Additional broadcasting stations are listed herewith:

Call Station  
22A—Denver, Colo., Reynolds Radio Co.  
22B—San Francisco, Calif., Radio City, U.S.A.  
22C—Monterey, Cal., Noble Bros. Works  
22D—Pawnee, Wyo., F. F. Farham  
22E—San Francisco, Cal., J. Meyer & Co.  
Other stations will be listed in The Bee tomorrow.

### QUESTIONS

L. L. F. Valentine, Neb.  
Q. I get a steady hum in my receiver. Can you advise on how to eliminate this trouble? I had no such trouble with a crystal set.  
A. The hum indicates there is an open circuit some place in the set. You had better trace the wiring in the set.

C. D. H., Falls City, Neb.  
Q. Why is it that when I place my fingers on the "phones" binding posts on my set signals come in louder?  
A. By doing this you add what is known as "body capacity." Your set probably needs more capacity across the phones. Place a small condenser across these terminals or, if you already have one, try a larger one.

### Stunt Aviator Killed

Vernon, Tex., May 15.—Ed Lirette of Dallas, stunt aviator, was killed here yesterday when a belt strap holding his body to a parachute broke. Lirette fell 2,000 feet.

### Summer Vacation Fares in Effect

#### Rates Lower Than for Several Years Past, Rail Officials Here Say.

Round-trip summer railroad rates to practically every part of the United States went into effect here yesterday. These rates are lower, in many cases, than for some summers past, railroad officials say.

Several lines are offering round trips to California for \$72, which will enable travelers to stop in San Francisco, Los Angeles and San Diego, as well as intervening points. These lines also are offering tickets to the north Pacific coast, Seattle and Portland, and return for \$72, and a grand circle tour of California and the north Pacific coast for \$90.

Cut rates to the fishing resorts of Minnesota and Michigan are expected to attract many pleasure seekers. Round trips to Tennessee, Virginia, Florida, Georgia and Kentucky and the Ozark mountains also are offered at reduced rates. One may journey to Atlantic City and return for \$83.96 as a result of the cut effective yesterday.

### Stock of Gasoline Reaches New Record

#### Washington, D. C., May 15.—A new high record for the national stock of gasoline, increases in the price of which have been ordered investigated by the senate, was established April 1, according to statistics made public last night by the federal bureau of mines, showing supplies of the commodity on that date aggregated 854,232,000 gallons.

The stocks on hand April 1 were approximately 47,000,000 gallons greater than on March 1, when the previous high mark of 807,000,000 gallons in storage was made. The April 1 supply, according to the bureau's figures, was 20 per cent larger than on the same date of last year. The official figures confirmed statements made in the senate that present supplies and those of recent months were greater than ever before in this country.

### Baccalaureate Address Delivered at Fairbury

Fairbury, Neb., May 15.—(Special.) Baccalaureate address for the high school class of 1922 were held at the Christian church.

### Kearney Is Latest City to Start Anti-Rat Campaign

Kearney, Neb., May 15.—(Special.)—Kearney is falling in line with a campaign to exterminate rats. The

### Travel and Resorts

#### Chamber of Commerce has put a premium of 10 cents on every rat tag brought in and as a side line, five mouse tails equal a rat tail. Special prizes are also awarded to those making a record catch during the drive. Boy Scouts are organized to make a try for the added money and the following month promises to be rough on the rat population.

### Nine I. W. W. Released.

Leavenworth, Kan., May 15.—Nine Industrial Workers of the World received here September 7, 1918, with the "Big Bill" Haywood consignment were released from the penitentiary yesterday, having completed sentences of five years with reductions for good behavior.

# ADAM McMULLEN

of Beatrice Nebr.  
The Logical Man for Governor

### Taxes—

The following is taken from Adam McMullen's statements, given publicly in all the leading newspapers of Nebraska, in regard to the tax question:

"The way to reduce the cost of state government is to cut down expenses.  
"Taxes cannot be reduced over night by some fanciful theory or magical scheme. The problem is an economic one, not political.  
"Two years ago we were spending money the country over like mad and now we have got to begin saving it like sane people. It has to be done that way in private affairs and there is no other way to do it in public affairs.  
"The carnival of spending is over. This is the morning after, and if we expect to put the house in order again, we have got to buckle down to work and keep track of the dollars. This applies with equal force to county and municipal and township governments, but the state should set them an example and show them how it is done.  
"We must also see to it that every tax dollar expended for public service or utility must purchase 100 cents worth of value."

Candidate for Republican Nomination. Primaries July 18, 1922
